Public Notice—FCC Seeks Comment Regarding Possible Revision or Elimination of Rules Under the Regulatory Flexibility Act, 5 U.S.C. 610

Released: May 31, 2005

1. Pursuant to the RFA, *see* 5 U.S.C. 610, the FCC hereby publishes a plan for the review of rules adopted by the agency in calendar years 1993, 1994 and 1995 which have, or might have, a significant economic impact on a substantial number of small entities. The purpose of the review is to determine whether such rules should be continued without change, or should be amended or rescinded, consistent with the stated objectives of Section 610 of the RFA, to minimize any significant economic impact of such rules upon a substantial number of small entities.

2. This document lists the FCC regulations to be reviewed during the next twelve months. In succeeding years, as here, the Commission will publish a list for the review of regulations promulgated ten years preceding the year of review.

3. In reviewing each rule under this plan to minimize the possible significant economic impact on a substantial number of small entities, consistent with the requirements of Section 610, the FCC will consider the following factors:

- (a) The continued need for the rule;
 - (b) The nature of complaints or comments received concerning the rule from the public;
 - (c) The complexity of the rule;
 - (d) The extent to which the rule overlaps, duplicates, or conflicts with other Federal rules and, to the extent feasible, with State and local governmental rules; and
 - (e) The length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule.
4. Appropriate information has been provided for each rule, including a brief
