

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Larry D. Butler, Ph.D, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project will rehabilitate Floodwater Retarding Structure No. 18A to maintain the present level of flood control benefits and comply with the current performance and safety standards.

To meet current performance and safety standards for high hazard dams, the modification of FRS No. 18A will include vertically raising the dam's effective elevation by 1.8 feet, flattening the front and back slopes of the dam to 3:1, removing the orifice plate, and installing an impact basin below the principal spillway. Approximately 10 acres will be disturbed during construction. Disturbed areas will be planted to plants that have wildlife values. The proposed work will not affect any prime farmland, endangered or threatened species, wetlands, or cultural resources.

Federal assistance will be provided under authority of the Small Watershed Rehabilitation Amendments of 2000 (section 313, Pub. L. 106-472). Total project cost is estimated to be \$916,400 of which \$667,400 will be paid from the Small Watershed Rehabilitation funds and \$249,000 from local funds.

The notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Dr. Larry D. Butler, Ph.D, State Conservationist.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Dated: June 7, 2005.

Foreign-Trade Zones Board

(Docket 26-2005)

Foreign-Trade Subzone 84C-La Porte, Texas, Expansion of Subzone and of Manufacturing Authority, E.I. du Pont de Nemours and Company, Inc., (Crop Protection Products)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Port of Houston Authority, grantee of Foreign-Trade Zone 84, to expand Subzone 84C, at the

E.I. du Pont de Nemours and Company, Inc. (DuPont) plant located at one existing site and one proposed site in La Porte, Texas, and to expand the scope of manufacturing authority under zone procedures for Subzone 84C. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on May 27, 2005.

Subzone 84C was approved by the Board in 1990 at one site located at 12501 Strang Road in La Porte (Board Order 476, 55 FR 28263, 7/10/1990). The applicant is now proposing to expand Subzone 84C to include a second site (including up to 2 buildings with 289,237 square feet of enclosed space on 35.4 acres) at 11505 Highway 225 in La Porte.

DuPont also seeks to expand the scope of manufacturing activity authorized to be conducted under zone procedures at Subzone 84C. DuPont's original authority was granted for the manufacture of hydrofluoric acid. The company now seeks to manufacture, test, package and warehouse certain intermediate chemicals for crop protection products, including sulfonylurea herbicides. The intermediate chemicals will be transferred to other DuPont facilities, including existing subzones, for further manufacturing into finished products.

There are two specific inputs and two specific finished intermediates that DuPont intends to produce initially under expanded FTZ manufacturing authority. The inputs are classifiable under HTSUS categories 2930.90 and 2933.39, while the finished intermediates both are classifiable under category 2935.00. The application also requests authority to include a broad range of inputs and finished crop protection products that DuPont may produce under FTZ procedures in the future. (New major activity in these inputs/products could require review by the FTZ Board.) General HTSUS headings of inputs include: 2529, 2807, 2811, 2813, 2814, 2815, 2825, 2826, 2827, 2829, 2830, 2833, 2835, 2836, 2837, 2838, 2851, 2901, 2902, 2903, 2904, 2905, 2906, 2907, 2908, 2909, 2910, 2911, 2912, 2913, 2914, 2915, 2916, 2917, 2918, 2919, 2920, 2921, 2922, 2923, 2924, 2925, 2926, 2927, 2928, 2929, 2930, 2931, 2932, 2933, 2934, 2935, 2938, 2939, 2940, 2942, 3301, 3302, 3402, 3808, 3815, 3824, 3901, 3912, 3919, 3920, 3921, 3923, 3926, 4817, and 4819. Duty rates for these materials range from duty-free to 7.2% ad valorem. Finished products that may be produced from the inputs

listed above include these general HTSUS headings: 2811, 2901, 2902, 2903, 2904, 2905, 2906, 2907, 2908, 2909, 2910, 2911, 2912, 2913, 2914, 2915, 2916, 2917, 2918, 2919, 2920, 2921, 2922, 2923, 2924, 2925, 2926, 2927, 2928, 2929, 2930, 2931, 2932, 2933, 2934, 2935, 2938, 2939, 2942, 3808, and 3824. Duty rates for these products range from duty-free to 6.5% ad valorem.

The proposed expanded scope of FTZ manufacturing authority would exempt DuPont from Customs duty payments on foreign inputs if used in production for export. On its domestic shipments, DuPont could apply to foreign inputs lower duty rates that apply to the finished products, where applicable. Some of DuPont's domestic shipments may be zone-to-zone transfers from the La Porte plant of intermediate inputs to be used in manufacturing at other U.S. DuPont facilities.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions via Express/Package Delivery Services: Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building--Suite 4100W, 1099 14th St. NW., Washington, DC 20005; or
2. Submissions via the U.S. Postal Service: Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB--Suite 4100W, 1401 Constitution Ave. NW., Washington, DC 20230.

The closing period for their receipt is August 15, 2005. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to August 29, 2005.

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address Number 1 listed above, and at the U.S. Department of Commerce Export Assistance Center, 15600 John F. Kennedy Blvd., Suite 530, Houston, TX 77032.

Dated: May 31, 2005.
