Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Assessing the Division of Beneficiary Inquiry Customer Service's Performance for Written Responses; *Form No:* CMS-10068 (OMB# 0938-0894); *Use:* The Division of Beneficiary Inquiry Customer Service (DBICS) will collect information quarterly to assess the customer service provided via written responses. DBICS will conduct the written survey through mailings that will accompany actual responses. The envelopes will be sent by Release Clerks so that the actual writer has no knowledge that a particular response is being rated. The survey will be used to measure overall satisfaction of the customer service that the DBICS provides to Medicare beneficiaries and their representatives; *Frequency:* Quarterly; *Affected Public:* Individuals or households; *Number of Respondents:* 2,872; *Total Annual Responses:* 2,872; *Total Annual Hours:* 287.

2. *Type of Information Collection Request:* New collection; *Title of Information Collection:* Public Reporting on Quality Outcomes National Survey of Hospital Executives ("PRO QUO"); *Use:* CMS seeks to survey hospitals quality improvement executives in spring 2005 to assess awareness of CMS Hospital Quality Initiatives and related publicity, and to assess impact of these initiatives on hospitals and their quality improvement programs. Findings will be used to enhance CMS programs to assist hospitals in quality improvement. *Form Number:* CMS-10128 (OMB#: 0938-NEW); *Frequency:* Once; *Affected Public:* Not-for-profit institutions and business or other for-profit; *Number of Respondents:* 1,600; *Total Annual Responses:* 1,600; *Total Annual Hours:* 792.

equipment coverage authority. Medicare has the legal authority to collect sufficient information to determine payment for oxygen, and oxygen equipment. The CMN provides a mechanism for suppliers of Durable Medical Equipment and suppliers of Medical Equipment and Supplies to demonstrate that the item being provided meets the criteria for Medicare coverage. By revising the oxygen CMN questions but adhering to the basic format, CMS can increase the accuracy of the document while eliminating the need to re-educate CMN users.
