SUPPLEMENTARY INFORMATION:

A. Background

A memorandum issued by the Deputy Secretary of Defense on January 30, 2004, states as an objective that, consistent with U.S. and host-nation law, provisions should be incorporated in overseas service contracts that prohibit any activities on the part of contractor employees that support or promote trafficking in persons and that impose suitable penalties on contractors who fail to monitor the conduct of their employees. The memorandum cites National Security Presidential Directive/NPSD–22, which decrees that all departments of the U.S. Government will take a “zero tolerance” approach to trafficking in persons. NSPD–22 utilizes the definitions in Public Law 106–386, Victims of Trafficking and Violence Protection Act of 2000, codified at 22 U.S.C. 7102. This proposed DFARS rule contains an implementing clause for use in contracts that require performance outside the United States. The proposed clause requires contractors to establish policy and procedures for combating trafficking in persons and to notify the contracting officer of any violations and the corrective action taken. The clause also requires the contractor to effectively manage its subcontractors and to take remedial action against any subcontractor that violates policy regarding trafficking in persons.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed clause applies only to contracts that require performance outside the United States. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2004–D017.

C. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. Chapter 35) applies, because the proposed rule contains information collection requirements. These requirements will increase the burden hours currently approved by the Office of Management and Budget (OMB)

under Control Number 0704-0229; DFARS Part 225, Foreign Acquisition, and related clauses. DoD invites comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; (b) the accuracy of the estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

Needs and Uses: DoD contracting officers will use this information to monitor contractor compliance with National Security Presidential Directive 22 and DoD policy that decrees "zero tolerance" for trafficking in persons.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Annual Burden Hours: 60.

Number of Respondents: 30.

Responses Per Respondent: 2.

Annual Responses: 60.

Average Burden Per Response: 1 hour.

Frequency: On occasion.

Summary of Information Collection

Paragraphs (g) through (i) of the proposed clause require the contractor to notify the contracting officer of any alleged violations of policy concerning trafficking in persons and the actions taken by the contractor in response to the violations. This information collection will increase, by 60 hours, the 352,380 burden hours currently approved under OMB Control Number 0704-0229 for use through May 31, 2007.

Defense Federal Acquisition Regulation Supplement; Construction Contracting

AGENCY: Department of Defense (DoD).

ACTION: Proposed rule with request for comments.

SUPPLEMENTARY INFORMATION:

A. Background

DFARS Transformation is a major DoD initiative to dramatically change the purpose and content of the DFARS. The objective is to improve the efficiency and effectiveness of the acquisition process, while allowing the acquisition workforce the flexibility to innovate. The transformed DFARS will contain only requirements of law, DoD-wide policies, delegations of FAR authorities, deviations from FAR requirements, and policies/procedures that have a significant effect beyond the internal operating procedures of DoD or a significant cost or administrative impact on contractors or offerors. Additional information on the DFARS Transformation initiative is available at <http://www.acq.osd.mil/dpap/dfars/transf.htm>.

This proposed rule is a result of the DFARS Transformation initiative. The proposed DFARS changes—

- Delete text defining and addressing use of network analysis systems, as this

subject is addressed in the United Facilities Guide Specifications used by the military departments in specifying construction requirements.

- Delete text on distribution and use of contractor performance reports, handling of Government estimates of construction costs, use of bid schedules with additive or deductive items, and technical working agreements with foreign governments. Text on these subjects will be relocated to the new DFARS companion resource, Procedures, Guidance, and Information (PGI), available at <http://www.acq.osd.mil/dpap/dars/pgi>.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed rule deletes and relocates DFARS text on construction contracting, but makes no significant change to DoD contracting policy. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2003-D034.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*
