

under section 246 of the Trade Act of 1974, as amended, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and a Negative Determination Regarding Eligibility to Apply For Alternative Trade Adjustment Assistance on June 3, 2005, applicable to workers of U.S. Amps Inc., Gainesville, Florida. The notice will soon be published in the **Federal Register**.

At the request of the State Agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of car stereo amplifiers.

The review of the certification confirms that the Department inadvertently failed to include the on-site leased workers in the certification. U.S. Amps Inc., Gainesville, Florida leased employees from Gevity HR, Gainesville, Florida, to work on-site at plant.

Therefore, the Department is amended the certification to include the leased workers from Gevity HR working on-site at U.S. Amps Inc., Gainesville, Florida.

The amended notice applicable to TA-W-55,966 is hereby issued as follows:

All workers of U.S. Amps, Inc. including on-site leased workers from Gevity HR, Gainesville, Florida, including on-site leased workers from Gevity HR, who became totally or partially separated from employment on or after April 8, 2004, through June 3, 2007, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974;

and

I further determine that all workers of U.S. Amps, Inc., including on-site leased workers from Gevity HR, Gainesville, Florida, are denied eligibility to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed in Washington, DC, this 17th day of June, 2005.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and the Occupational Safety and Health Administration's (OSHA) estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

Section 7(c)(1) of the Act authorizes the Secretary of Labor to, "with the consent of any State or political subdivision thereof, accept and use the services, facilities, and personnel of any agency of such State or subdivision with reimbursement." Section 21(C) of the Act authorizes the Secretary of Labor (Secretary) to, "consult with and advise employers and employees * * * as to effective means of preventing occupational illnesses and injuries."

Additionally, Section 21(d) of the Act instructs the Secretary to "establish and support cooperative agreements with the States under which employers subject to the Act may consult with State personnel with respect to the application of occupational safety and health requirements under the Act or under State plans approved under section 18 of the Act." This gives the Secretary authority to enter into agreements with the States to provide onsite consultation services, and established rules under which employers may qualify for an inspection exemption. To satisfy the intent of these and other sections of the Act, OSHA codified the terms that govern cooperative agreements between OSHA and State governments whereby State agencies provide onsite consultation services to private employers to assist them in complying with the requirements of the OSH Act. The terms were codified as the Consultation Program regulations (29 CFR Part 1908).

The Consultation Program regulations specify services to be provided, and practices and procedures to be followed by the State Onsite Consultation Programs. Information collection requirements set forth in the Onsite Consultation Program regulations are in two categories: *State Responsibilities* and *Employer Responsibilities*. Eight regulatory provisions require information collection activities by the State. The Federal government provides 90 percent of funds for onsite consultation services delivered by the States, which result in the information collection. Four requirements apply to employers and specify conditions for receiving the free consultation services.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend the Office of Management and Budget's (OMB)

approval of the collection of information (paperwork) requirements necessitated by Onsite Consultation Agreements (29 CFR 1908). In its extension request, OSHA also is proposing to increase the total burden hours for these requirements from 17,530 hours to 21,771 hours. The Agency will include this summary in its request to OMB to extend the approval of the collection of information requirements.

Type of Review: Extension of currently approved information collection requirements.

Title: Onsite Consultation Agreements (29 CFR Part 1908).

OMB Number: 1218-0110.

Affected Public: Business or other for-profits; not-for-profit organizations; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 31,048.

Frequency of Response: Monthly.

Average time Per Response: Varies from 3 minutes (.02 hour) for an employer or plant manager to sign a Safety and health achievement Recognition Program application to 32 hours for an Onsite Consultation Program Manager to submit an agreement once per year.

Estimated Total Burden Hours: 21,771.

Estimated cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions
