

and one-time reporting requirements; third party disclosure.

Total Annual Burden: 435,894 hours.

Total Annual Cost: \$43,162,335.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On June 3, 2005, the Commission released a *First Report and Order* in WC Docket No. 04–36 and a *Notice of Proposed Rulemaking* in WC Docket No. 05–196, FCC 05–116 (*Order*) in which the Commission established rules requiring providers of interconnected VoIP—meaning VoIP service that allows a user generally to receive calls originating from and to terminate calls to the public switched telephone network (PSTN)—to provide enhanced 911 (E911) capabilities to their customers as a standard feature of service. See *IP-Enabled Services*, WC Docket No. 04–36, *E911 Requirements for IP-Enabled Service Providers*, WC Docket No. 05–196, FCC 05–116 (rel. June 3, 2005). The *Order* requires collection of information in six instances:

A. Location Registration. The *Order* requires providers of interconnected VoIP services to obtain location information from their customers for use in the routing of 911 calls and the provision of location information to emergency answering points.

B. Provision of Automatic Location Information (ALI). In order to meet the obligations set forth in the *Order*, interconnected VoIP service providers will place the location information for their customers into, or make that information available through, specialized databases maintained by local exchange carriers (and, in at least one case, a state government) across the country.

C. Customer Notification. In order to ensure that consumers of interconnected VoIP services are aware of their interconnected VoIP service's actual E911 capabilities, the *Order* requires that all providers of interconnected VoIP service specifically advise every subscriber, both new and existing, prominently and in plain language, the circumstances under which E911 service may not be available through the interconnected VoIP service or may be in some way limited by comparison to traditional E911 service.

D. Record of Customer Notification. The *Order* requires VoIP providers to obtain and keep a record of affirmative acknowledgement by every subscriber, both new and existing, of having received and understood this advisory.

E. User Notification. In addition, in order to ensure to the extent possible that the advisory is available to all potential users of an interconnected

VoIP service, interconnected VoIP service providers must distribute to all subscribers, both new and existing, warning stickers or other appropriate labels warning subscribers if E911 service may be limited or not available and instructing the subscriber to place them on and/or near the customer premises equipment used in conjunction with the interconnected VoIP service.

F. Compliance Letter. The *Order* requires all interconnected VoIP providers to submit a letter to the Commission detailing their compliance with the rules set forth in the *Order* no later than 120 days after the effective date of the *Order*. This letter will enable the Commission to ensure that interconnected VoIP providers have achieved E911 compliance by the established deadline.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Pub. L. 104–13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT: Paul J. Laurenzano, Federal Communications Commission, 445 12th Street, SW., Washington DC, 20554, (202) 418–1359 or via the Internet at plarenz@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0816.

OMB Approval date: 5/26/2005.

Expiration Date: 5/31/2008.

Title: Local Telephone Competition and Broadband Reporting, WC Docket No. 04–141, FCC 04–266 (Report and Order).

Form No.: FCC form 477.

Estimated Annual Burden: 2,800 responses; 61,320 total annual burden hours; approximately 21.9 hours average per respondent.

Needs and Uses: FCC Form 477 seeks to gather information on the

development of local competition and deployment of broadband service also known as advanced telecommunications services. The data are necessary to evaluate the status of developing competition in local exchange telecommunications markets and to evaluate the status of broadband deployment. The information is used by Commission staff to advise the Commission about the efficacy of Commission rules and policies adopted to implement the Telecommunications Act of 1996.

OMB Control No.: 3060–1046.

OMB Approval date: 5/25/2005.

Expiration Date: 05/31/2008.

Title: Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunication Act of 1996, CC Docket No. 96–128, Order on Reconsideration.

Form No.: N/A.

Estimated Annual Burden: 4,854 responses; 485,400 total annual burden hours; 100 hours average response time per respondent.

Needs and Uses: On October 3, 2003, the Commission issued a Report and Order that required “Completing Carriers” to compensate payphone service providers (PSPs) for each and every completed call using a coinless access number (CC Docket 96–128/FCC 03–235). This Order on Reconsideration, released on October 22, 2004, does not change this compensation framework, but rather refines and builds upon its approach. It provides guidance on the types of contracts that the Commission would deem to be reasonable methods of compensating PSPs, extends the time period that carriers must retain certain payphone records, and clarifies the rules’ reporting, certification, and audit requirements.
