## NUCLEAR REGULATORY COMMISSION

### Carolina Power and Light Company, Duke Energy Corporation, Entergy Nuclear Operations, Inc., R. E. Ginna Nuclear Power Plant, LLC, Receipt of Request for Action Under 10 CFR 2.206

Notice is hereby given that by petition dated May 12, 2005, Mr. Paul Gunter, on behalf of Nuclear Information and Resource Service, Citizens Awareness Network (CAN), Indian Point Safe Energy Coalition, North Carolina Waste Awareness and Reduction Network (NCWARN), Alliance for Affordable Energy, and Blue Ridge Environmental Defense League (the Petitioners), has requested that the NRC engage emergency enforcement actions to modify and/or suspend operating licenses for Shearon Harris Nuclear Power Station Unit 1, Docket No. 50-400, License No. NPF-63; H. B. Robinson Unit 2, Docket No. 50-261, License No. DPR-23; McGuire Units 1 and 2, Docket No. 50-369, License No. NPF-9; Catawba Units 1 and 2, Docket Nos. 50-413 and 50-414, License Nos. NPF-35 and NPF-52; Ginna, Docket No.

50-244, License No. DPR-18; James A. FitzPatrick, Docket No. 50-333, License No. DPR-59; Indian Point Units 2 and 3, Docket Nos. 50-247 and 50-286, License Nos. DPR-26 and DPR-64; Vermont Yankee, Docket No. 50-271, License No. DPR-28; Waterford Unit 3, Docket No. 50-382, License No. NPF-38; and Arkansas Nuclear One Units 1 and 2, Docket No. 50-313 and 50-368, License No. DPR-51 and NPF-6, with regard to potential violations of NRC regulations for fire protection under Title 10 of the Code of Federal Regulations (10 CFR) part 50. Specifically, the petition requested emergency enforcement under 10 CFR 2.206 to include following actions by the Commission:

(1) Collect information through generic communication with nuclear industry and specifically with the named reactor sites to determine the extent of condition of the inoperable fire barriers; including the requirement that the licensees conduct a full inventory of the type Hemyc/MT to include the amount in linear and square footage, its specific applications, and the identification of safe shutdown systems which are currently unprotected by the noncompliance and an assessment of the safety significance of each application;

(2) The communication should require, at minimum that the above named sites provide justification for operation in non-compliance with all applicable fire protection regulations; and

(3) With the determination that any and/or all of the above mentioned sites are operating in unanalyzed condition and/or that assurance of public health and safety is degraded, promptly order a suspension of the license or a power reduction of the affected reactors until such time as it can be demonstrated that the licensees are operating in conformance with all other applicable fire protection regulations.

The request is being treated pursuant to 10 CFR 2.206, of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, appropriate action will be taken on this petition within a reasonable time. Mr. Paul Gunter, as Director of the Reactor Watchdog Project for Nuclear Information and Resource Service, Debbie Katz of CAN, and Jim Warren of NCWARN, participated in a telephone conference call with the NRC's Petition Review Board (PRB) on June 1, 2005, to discuss the petition. The results of that discussion were considered in the PRB's determination regarding the petitioner's

request for action and in establishing the schedule for the review of the petition. During the June 1, 2005, PRB conference call, the petitioners requested that the NRC consider other fire barrier issues beyond the Hemyc electric raceway fire barrier system. This request will not be accepted under the 2.206 process because the petitioner did not provide adequate information to justify expanding the scope of the review.

A copy of the petition and the transcript of the telephone conference call are available for inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and from the NRC's Agencywide Documents Access and Management System (ADAMS), Public Electronic Reading Room, on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Nos. ML051440209 and ML051640452). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated at Rockville, Maryland, this 27th day of June 2005.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-266]

### Nuclear Management Company, LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Nuclear Management Company, LLC (the licensee) to withdraw its April 29, 2005, application for proposed amendment to Facility Operating License No. DPR-24 for the Point Beach Nuclear Plant (PBNP), Unit 1, located in Two Rivers, WI.

The proposed amendment would modify the PBNP Final Safety Analysis Report to include a reactor vessel head drop accident.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in

the **Federal Register** on May 13, 2005 (70 FR 25621). The April 29, 2005, application proposed amendments to PBNP, Units 1 and 2, Facility Operating License Nos. DPR-24 and DPR-27, respectively. However, by letter dated May 13, 2005, the licensee withdrew the proposed amendment for PBNP, Unit 1, Facility Operating License No. DPR-24.

For further details with respect to this action, see the application for amendment dated April 29, 2005, and the licensee's letter dated May 13, 2005, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area 01 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or (301) 415-4737 or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated at Rockville, Maryland, this 24th day of June 2005.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-301]

### Nuclear Management Company, LLC, Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 225 to Facility Operating License No. DPR-27 issued to Nuclear Management Company, LLC (the licensee), which modified the Point Beach Nuclear Plant (PBNP), Unit 2, Final Safety Analysis Report to include a reactor vessel head drop accident for operation of the PBNP, Unit 2, located in Two Rivers, WI. The amendment is effective as of the date of issuance.

The amendment authorized changes to the design basis and Final Safety

Analysis Report (FSAR) related to a postulated reactor vessel head drop accident in accordance with 10 CFR 50.71(e).

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing in connection with this action was published in the **Federal Register** on May 13, 2005 (70 FR 25621).

For further details with respect to this action see (1) the application for amendment dated April 29, 2005, as supplemented by letters dated May 13, May 19, June 1, June 4, June 9, June 20, and June 23, 2005, (2) Amendment No. 225 to License No. DPR-301, and (3) the Commission's related Safety Evaluation dated June 24, 2005. The Commission made a final no significant hazards consideration determination in its Safety Evaluation dated June 24, 2005. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/NRC/ADAMS/index.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC Public Document Room Reference staff by telephone at 1-800-397-4209, 301-415-4737 or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated at Rockville, Maryland, this 24th day of June 2005.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3103]

### Louisiana Energy Service's Proposed National Enrichment Facility; Notice of Availability of Final Environmental Impact Statement

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of availability of Final Environmental Impact Statement.

#### FOR FURTHER INFORMATION CONTACT:

James Park, Project Manager, Environmental and Performance Assessment Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-5835; e-mail: [jrp@nrc.gov](mailto:jrp@nrc.gov).

**SUMMARY:** Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) is issuing a Final Environmental Impact Statement (FEIS) on the proposed construction, operation, and decommissioning of the National Enrichment Facility (NEF), a gaseous centrifuge uranium enrichment facility, near Eunice, New Mexico. The FEIS is being issued as part of the NRC's decision-making process on whether to authorize Louisiana Energy Services (LES) to construct, operate, and decommission the proposed NEF.

The proposed NEF would produce enriched uranium-235 (<sup>235</sup>U) up to 5 weight percent by the gas centrifuge process with a nominal production of 3 million separative work units per year. The enriched uranium would be used in commercial nuclear power plants. The FEIS discusses the purpose and need for the proposed NEF, and reasonable alternatives to the proposed action, including the no-action alternative. The FEIS also discusses the environment potentially affected by the proposed action, presents and compares potential environmental impacts resulting from the proposed action and its alternatives, and identifies the mitigation measures proposed by LES to eliminate or lessen the potential environmental impacts.

Based on the evaluation in the FEIS, the NRC environmental review staff has concluded that the proposed action will generally have small to moderate effects on the public and the existing environment. This FEIS reflects the final analysis of environmental impacts of LES's proposal and its alternatives, including the consideration of public comments received by the NRC.

**ADDRESSES:** The NRC maintains an Agencywide Documents Access and
