

Frequency of Response: One-time only.

Estimated Total Annual Hour Burden: 968.

Estimated Total Annual Costs: \$47,249, which includes \$0 annualized Capital Expense/Startup, \$0 annual O&M costs, and \$47,249 in Respondent Labor costs.

Changes in the Estimates: There is a decrease of 2,221 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to several reasons. For the first ICR renewal all mention of burden estimates for tribes which were contained in the original ICR were removed. In addition, since the last clearance, additional states and territories have been moving through the approval process for their MSWLF permit program adequacy determinations has decreased from 3 to 2. Also EPA estimates the number of states and territories that will submit program approval applications for non-municipal, non-hazardous waste disposal units that receive CESQG hazardous waste will decrease. And lastly, the previous ICR included the Federal Burden which is exempt from the Paperwork Reduction Act.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 30, 2004 (69 FR 52883) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OW-2004-0023, which is available for public viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether

submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Best Management Practices (BMP) for the Bleached Papergrade Kraft and Soda Subcategory and the Papergrade Sulfite Subcategory of the Pulp, Paper and Paperboard Point Source Category (Renewal).

Abstract: The EPA established BMP provisions as part of final amendments to 40 CFR part 430, the Pulp, Paper and Paperboard Point Source Category promulgated on April 15, 1998 (see 63 FR 18504-18751). These provisions, promulgated under the authorities of sections 304, 307, 308, 402 and 501 of the Clean Water Act, require that owners or operators of bleached papergrade kraft, soda and sulfite mills implement site-specific BMPs to prevent or otherwise contain leaks and spills of spent pulping liquors, soap and turpentine and to control intentional diversions of these materials.

EPA has determined that these BMPs are necessary because the materials controlled by these practices, if spilled or otherwise lost, can interfere with wastewater treatment operations and lead to increased discharges of toxic, nonconventional, and conventional pollutants. For further discussion of the need for BMPs, see section VI.B.7. of the preamble to the amendments to 40 CFR part 430 (see 63 FR 18561-18566).

The BMP program includes information collection requirements that are intended to help accomplish the overall purposes of the program by, for example, training personnel, see 40 CFR 430.03(c)(4), analyzing spills that occur, see 40 CFR 430.03(c)(5), identifying equipment items that might need to be upgraded or repaired, see 40 CFR 430.03(c)(2), and performing

monitoring—including the operation of monitoring systems—to detect leaks, spills and intentional diversion and generally to evaluate the effectiveness of the BMPs, see 40 CFR 430.03(c)(3), (c)(10), (h), and (i). The regulations also require mills to develop and, when appropriate, amend plans specifying how the mills will implement the specified BMPs, and to certify to the permitting or pretreatment authority that they have done so in accordance with good engineering practices and the requirements of the regulation, see 40 CFR 430.03(d), (e), and (f). The purpose of those provisions is, respectively, to facilitate the implementation of BMPs on a site-specific basis and to help the regulating authorities to ensure compliance without requiring the submission of actual BMP plans. Finally, the record keeping provisions are intended to facilitate training, to signal the need for different or more vigorously implemented BMPs, and to facilitate compliance assessment, see 40 CFR 430.03(g).

EPA has structured the regulation to provide maximum flexibility to the regulated community and to minimize administrative burdens on NPDES permit and pretreatment control authorities that regulate bleached papergrade kraft and soda and papergrade sulfite mills. Although EPA does not anticipate that mills will be required to submit any confidential business information or trade secrets as part of this ICR, all data claimed as confidential business information will be handled by EPA pursuant to 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 665 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are those operations that chemically pulp wood fiber using kraft or soda methods to produce bleached papergrade pulp, paperboard, coarse paper, tissue paper, fine paper, and/or paperboard; those operations that chemically pulp wood fiber, and/or paperboard; those operations that chemically pulp wood fiber using papergrade sulfite methods to produce pulp and/or paper; and State and local governments that regulate discharges where such operations are located.

Estimated Number of Respondents: 128.

Frequency of Response: not less than annually.

Estimated Total Annual Hour Burden: 60,262.

Estimated Total Annual Cost: \$2,377,000, includes \$0 annualized capital or O&M costs and \$2,377,000 annual labor costs.

Changes in the Estimates: There is a decrease of 647 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease results from an adjustment to the estimated respondent universe, which decreased by two.

Dated: June 27, 2005.

SUPPLEMENTARY INFORMATION:

Proposal To Revise the Following Currently Approved Collection of Information

Title: Account Based Disclosures in Connection with Federal Reserve Regulations E, CC, and DD.

OMB Number: 3064-0084.

Affected Public: State chartered banks that are not members of the Federal Reserve System.

Information About the Collection and Proposed Changes to it: This FDIC information collection provides for the application of Regulations E (Electronic Fund Transfers), CC (Availability of Funds), and DD (Truth in Savings) to State nonmember banks.

Regulations E, CC, and DD are issued by the Federal Reserve Board of Governors (FRB) to ensure, among other things, that consumers are provided adequate disclosures regarding accounts, including electronic fund transfer services, availability of funds, and fees and annual percentage yield for deposit accounts. The FDIC is providing this notice in order to keep its Office of Management and Budget (OMB)
