Change: None.

Note: This notice does *not* solicit applications. In any year in which we choose to use this priority, we invite applications through a notice in the **Federal Register**. When inviting applications we designate the priority as absolute, competitive preference, or invitational. The effect of each type of priority follows:

Absolute priority: Under an absolute priority, we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority, we give competitive preference to an application by either (1) awarding additional points, depending on how well or the extent to which the application meets the competitive preference priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the competitive preference priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority, we are particularly interested in applications that meet the invitational priority. However, we do not give an application that meets the invitational priority a competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

Note: NIDRR supports the goals of President Bush's New Freedom Initiative (NFI). The NFI can be accessed on the Internet at the following site: <http://www.whitehouse.gov/infocus/newfreedom/>.

This final priority is in concert with NIDRR's 1999–2003 Long-Range Plan (Plan). The Plan is comprehensive and integrates many issues relating to disability and rehabilitation research topics. While applicants will find many sections throughout the Plan that support potential research and dissemination to be conducted under the proposed priority, a specific reference is included for the priority presented in this notice. The Plan can be accessed on the Internet at the following site: <http://www.ed.gov/rschstat/research/pubs/index.html>.

Through the implementation of the NFI and the Plan, NIDRR seeks to: (1) Improve the quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) determine best strategies and programs to improve rehabilitation outcomes for underserved populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings.

Priority

The Assistant Secretary for Special Education and Rehabilitative Services

intends to fund a National Center for the Dissemination of Disability Research to serve as a lead center in the area of Knowledge Translation/Knowledge Dissemination and Utilization. This center will ensure that NIDRR constituencies have ready access to high-quality, research-based information that has the potential to improve the lives of individuals with disabilities. The reference to this priority may be found in the Plan, Chapter 8, Knowledge Dissemination. The center must—

(1) Identify standards, guidelines, and methods appropriate for developing evidence-based systematic reviews of disability and rehabilitation research;

(2) Serve as a technical assistance resource to NIDRR grantees to ensure that research studies will meet standards for inclusion in evidence-based systematic reviews;

(3) Develop partnerships with existing collaborations and registries to identify gaps and opportunities and to facilitate the systematic review of disability and rehabilitation research;

(4) Identify and promote the use of evidence-based reviews in topic areas developed in collaboration with NIDRR and its grantees;

(5) Identify, develop, and assess the effectiveness of strategies for dissemination of high quality information to diverse target populations; and

(6) Serve as a technical assistance resource to NIDRR grantees to ensure the use of effective strategies for dissemination of high quality information to diverse target populations.

Executive Order 12866

This notice of final priority (NFP) has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the NFP are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this NFP, we have determined that the benefits of the final priority justify the costs.

V. Application Review Information

Selection Criteria: The selection criteria for this competition are from 34 CFR 75.210 of EDGAR. The specific selection criteria to be used for this

competition are listed in the application package.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

Note: NIDRR will provide information by letter to grantees on how and when to submit the report.

4. *Performance Measures:* To evaluate the overall success of its research program, NIDRR assesses the quality of its funded projects through review of grantee performance and products. Each year, NIDRR examines, through expert

peer review, a portion of its grantees to determine—

- The number of tools, methods, interventions, programs, and devices, developed and/or validated with NIDRR funding, that meet the standards for review by independent scientific collaborations and registries; and
- The number of non-academic and consumer-oriented dissemination products and services, nominated by grantees to be their best outputs based on NIDRR-funded research and related activities, that demonstrate “good to excellent” utility for intended beneficiaries.

NIDRR uses information submitted by grantees as part of their Annual Performance Reports (APRs) for these reviews. NIDRR also determines, using information submitted as part of the APR, the number of publications in refereed journals that are based on NIDRR-funded research and development activities.

The Department's program performance reports, which include information on NIDRR programs, are available on the U.S. Department of Education Web site: <http://www.ed.gov/offices/OUS/PES/planning.html>.

Updates on the GPRA indicators, revisions and methods appear in the NIDRR Program Review Web site: <http://www.neweditions.net/pr/commonfiles/pmconcepts.htm>.

Grantees should consult these sites, on a regular basis, to obtain details and explanations on how NIDRR programs contribute to the advancement of the Department's long-term and annual performance goals.
