Title: General Administrative Requirements for Assistance Programs.

Abstract: The information is collected from applicants/recipients of EPA assistance to monitor adherence to the programmatic and administrative requirements of the Agency's financial assistance program. It is used to make awards, pay recipients, and collect information on how Federal funds are being spent. EPA needs this information to meet its Federal stewardship responsibilities. This ICR renewal requests authorization for the collection of information under EPA's General Regulation for Assistance Programs, which establishes minimum management requirements for all recipients of EPA grants or cooperative agreements (assistance agreements). Recipients must respond to these information requests to obtain and/or retain a benefit (Federal funds). 40 CFR part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-profit Organizations," includes the management requirements for potential grantees from non-profit organizations. 40 CFR part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State, tribal and local governments," includes the management responsibilities for potential State and local government grantees. These regulations include only those provisions mandated by statute, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management. The OMB 83-I Form associated with this ICR combines all of these requirements under OMB Control Number 2030-0020. The information required by these regulations will be used by EPA award

officials to make assistance awards and assistance payments and to verify that the recipient is using Federal funds appropriately to comply with OMB Circulars A-21, A-87, A-102, A-110, A-122, A-128, and A-133, which set forth the pre-award, post-award, and after-the-grant requirements. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The annual reporting burden for this collection is estimated to average 33 hours per application. The estimated annual number of respondents is 5,350. The estimated total annual burden hours on respondents is 176,569 hours. The frequency of collection is as required. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: July 14, 2005.

Director, Office of Grants and Debarment.
