

Evaluation, Consumer Product Safety Commission, Washington, DC 20207; (301) 504-7671.

SUPPLEMENTARY INFORMATION:

A. Estimated Burden

The Commission staff estimates that there are ten firms required to annually submit the required information. The staff further estimates that the average number of hours per respondent is four per year, for a total of 40 hours of annual burden.

B. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: July 14, 2005.

Rockelle S. Hammond,

Acting Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

DEFENSE BASE CLOSURE AND REALIGNMENT COMMISSION

Notice of the Defense Base Closure and Realignment Commission—Change to the Date of a Previously Announced Open Meeting (New Orleans, LA); Correction

AGENCY: Defense Base Closure and Realignment Commission.

ACTION: Notice; Defense Base Closure and Realignment Commission—Change to the Date of a Previously Announced Open Meeting (New Orleans, LA); Correction.

SUMMARY: The Defense Base Closure and Realignment Commission published a document in the **Federal Register** of June 7, 2005, concerning an open meeting to receive comments from

Federal, State and local government representatives and the general public on base realignment and closure actions in Florida, Louisiana and Mississippi that have been recommended by the Department of Defense (DoD). The date of this meeting has been changed to ensure that government officials and residents of the areas impacted by Hurricane Dennis would be able to participate fully.

The delay of this change notice resulted from a recent change to the meeting date due to weather. To avoid confusion, this notice of correction incorporates a previously announced change in location of the meeting. The Commission requests that the public consult the 2005 Defense Base Closure and Realignment Commission Web site, <http://www.brac.gov>, for updates.

FOR FURTHER INFORMATION CONTACT:

Please see the 2005 Defense Base Closure and Realignment Commission Web site, <http://www.brac.gov>. The Commission invites the public to provide direct comment by sending an electronic message through the portal provided on the Commission's Web site or by mailing comments and supporting documents to the 2005 Defense Base Closure and Realignment Commission, 2521 South Clark Street Suite 600, Arlington, Virginia 22202-3920. The Commission requests that public comments be directed toward matters bearing on the decision criteria described in *The Defense Base Closure and Realignment Act of 1990*, as amended, available on the Commission Web site. Sections 2912 through 2914 of that Act describe the criteria and many of the essential elements of the 2005 BRAC process. For questions regarding this announcement, contact Mr. Dan Cowhig, Deputy General Counsel and Designated Federal Officer, at the Commission's mailing address or by telephone at (703) 699-2950 or 2708.

Correction

In the **Federal Register** of June 7, 2005, in FR Doc. 05-11237, on page 33128, in the second column, correct the **SUMMARY** and **ADDRESS** captions to read:

SUMMARY: Notice is hereby given that a delegation of Commissioners of the Defense Base Closure and Realignment Commission will hold an open meeting on July 22, 2005 from 9 a.m. to 3:30 p.m. at the Mahalia Jackson Theatre of the Performing Arts, 801 North Rampart Street, New Orleans, Louisiana 70116. The Commission requests that the public consult the 2005 Defense Base Closure and Realignment Commission Web site, <http://www.brac.gov>, for

updates. The delegation will meet to receive comments from Federal, State and local government representatives and the general public on base realignment and closure actions in Florida, Louisiana and Mississippi that have been recommended by the Department of Defense (DoD). The purpose of this regional meeting is to allow communities experiencing a base closure or major realignment action (defined as loss of 300 civilian positions or 400 military and civilian positions) an opportunity to voice their concerns, counter-arguments, and opinions in a live public forum. This meeting will be open to the public, subject to the availability of space. Sign language interpretation will be provided. The delegation will not render decisions regarding the DoD recommendations at this meeting, but will gather information for later deliberations by the Commission as a whole.

ADDRESSES: Mahalia Jackson Theatre of the Performing Arts, 801 North Rampart Street, New Orleans, LA 70116.

Dated: July 18, 2005.

Jeannette Owings-Ballard,

Administrative Support Officer, Department of Defense.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Availability of Patented Acoustic Monitoring and Diagnostic Technologies for Exclusive, Partially Exclusive or Non-Exclusive Licenses

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army announces the general availability of exclusive, partially exclusive or non-exclusive licenses relative to acoustic monitoring and diagnostic technologies as described in U.S. Patent No. 5,515,865, No. 5,684,460, and No. 5,853,005. Licenses shall comply with 35 U.S.C. 209 and 37 CFR 404.

FOR FURTHER INFORMATION CONTACT:

Michael D. Rausa, U.S. Army Research Laboratory, Office of Research and Technology Applications, ATTN: AMSRL-DP-T/Bldg. 434, Aberdeen Proving Ground, MD 21005-5425, Telephone: (410) 278-5028.

SUPPLEMENTARY INFORMATION: The U.S. Army Research Laboratory (ARL) will be sponsoring an ARL Acoustic Monitor Technology Showcase Day to be held on August 17, 2005 at EAI Corporation,

Abingdon, MD. This event, designed to facilitate serious discussions concerning the use of the technology and licensing it for specific uses. The scheduled one-on-one discussions are meant to ensure that private communication between each interested party and ARL can occur. This will greatly assist in a potential licensee's review process in determining the applicability of the ARL acoustic monitor to each specific application and in fully understanding the licensing process. If you are planning to attend and/or require additional information please contact Dr. Kevin Smith at (724) 539-8310 or by e-mail address to ksmith@tech-scouts.net. Specific information relative to the technology can be seen at <http://stb.apg.army.mil/Library/briefings/TEDCO/ar121.pdf>.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Intent To Prepare an Environmental Impact Statement for Potential Multipurpose Projects for Flood Damage Reduction and Recreation Development Within and Along the Highland Lakes, Colorado River, TX

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: Four Authorities authorize the study of the Colorado River and its Tributaries: (1) Flood Control Act, approval June 22, 1936: "Section 6. The Secretary of War is hereby authorized and directed to cause preliminary examinations and surveys for flood control at the following named localities * * * Colorado River, Texas, above the county line between Coke and Runnels counties * * * Lower Colorado River, Texas." (2) Resolution by the Committee on Commerce, United States Senate, adopted August 4, 1936; "Resolved by the Committee of the United States Senate, that the Board of Engineers for Rivers and Harbors created under Section 3 of the River and Harbor Act, approved June 13, 1902, be and is hereby, requested to review the reports on Colorado River, Texas, submitted in House Document Number 361, Seventy-first Congress, second session, and previous reports, with a view to determining if improvement in the interest of commerce and flood control

is advisable at the present time." (3) Rivers and Harbors Act, approved August 26, 1937: "Section 4. The Secretary of War is hereby authorized and directed to cause preliminary examinations and surveys to be made at the following named localities * * * Colorado River, and its tributaries, Texas, with a view to its improvement in the interest of navigation and flood control." (4) Rivers and Harbors Act, approved March 2, 1945: "Section 6. The Secretary of War is hereby authorized and directed to cause preliminary examinations and surveys to be made at the following named localities * * * Colorado River, Texas." An initial assessment based on the resolution guidance indicates a Federal interest in continuing with more detailed studies for these purposes. In accordance with the National Environmental Policy Act, an Environmental Impact Statement (EIS) will be prepared to evaluate and compare flood control damage reduction and recreation alternatives within and along the Colorado River and its tributaries concentrated along the Highland Lakes. The EIS will also assess the impacts to the quality of the human environment associated with each alternative. The study area for project implementation primarily includes the lower Colorado River and its adjoining tributaries below Lake O.H. Ivie to Tom Miller Dam or Lake Austin. The construction of residential and commercial structures within the Highland Lakes and along the Colorado River, have lead to extensive amounts of flood damages. Consequently, flood damage reduction measures will be developed to address the flood damages. In addition, recreation measures will be developed and evaluated as complements to proposed flood damage reduction measures. The non-Federal cost sharing sponsors for the feasibility study are the Lower Colorado River Authority and Travis County.

DATES: A public scoping meeting will be held during the fall of 2005. Notices will be sent to interested parties, posted on the project Web site at <http://www.fdep.org> and a notice will be published in local newspapers.

FOR FURTHER INFORMATION CONTACT:

Questions pertaining to the proposed action and EIS can be answered by: Mr. Tom Vogt, CESWF-PM-C, U.S. Army Corps of Engineers, Fort Worth District, PO Box 17300, Fort Worth, TX 76102-0300, (817) 886-1378.

SUPPLEMENTARY INFORMATION: The Highland Lakes are comprised of six lakes: Lake Buchanan, Inks Lake, Lake LBJ, Lake Marble Falls, Lake Travis, and

Lake Austin. The Lower Colorado River Authority operates all of the Highland Lakes. Only Lake Travis is operated as a flood reservoir.

Alternatives for flood damage reduction and recreation will be developed and evaluated based on ongoing fieldwork and data collection and past studies conducted by the Corps of Engineers and the Lower Colorado River Authority. Alternatives for flood damage reduction measures will be evaluated from both a non-structural and structural aspect. Non-structural measures that will be evaluated include acquisition and removal of structures and flood proofing of structures for protection from potential future flood damage, and changes of gate operating procedures for Lake Travis. Structural measures that will be evaluated could include dry detention basins or multipurpose reservoirs and of various widths and depths and/or a combination of these measures along with non-structural alternatives. Recreation measures that will be evaluated for the enjoyment of residents and visitors alike include multipurpose trails and passive recreation features, such as interpretive guidance and media and picnic areas. Recreation measures will be developed to a scope and scale compatible with proposed flood damage reduction measures without significantly diminishing flood damage benefits.

The Draft Programmatic Environmental Impact Statement (PEIS) for Flood Damage Reduction and Ecosystem Restoration, Lower Colorado River Basin, Colorado River, Texas addressing the potential cumulative effects of reasonably foreseeable projects, including the Highland Lakes Interim Feasibility Study was completed in March 2005. The Final PEIS should be completed around October 2005. This EIS for the Highland Lakes will be tiered to the PEIS for the Lower Colorado River.

The public will be invited to participate in the scoping process, invited to attend public meetings, and given the opportunity to review the EIS. Release of the EIS for public comment is scheduled for summer 2006. The exact release date, once established, will be announced in the local news media.

Future coordination with other agencies and public scoping will be conducted to ensure full and open participation and aid in the development of the EIS. All affected Federal, state, and local agencies, affected Indian tribes, and other interested private organizations and parties are hereby invited to participate. Future coordination will also be
