

construction permits will be granted only after the full and timely payment of winning bids and any applicable late fees, in accordance with 47 CFR 1.2109(a).

ii. Long-Form Applications

148. Within thirty days after the release of the auction closing notice, winning bidders must electronically submit a properly completed FCC Form 301, Application for FM Construction Permit, and required exhibits for each construction permit won through Auction No. 62. Winning bidders claiming new entrant status must include an exhibit demonstrating their eligibility for the bidding credit. Further filing instructions will be provided to auction winners at the close of the auction.

149. One commenter suggests that the FCC Form 301 deadline be extended beyond 30 days, arguing that the Auction No. 37 FCC Form 301 deadline occurred immediately after the end-of-year holiday period, and at a time of year when the locations of many allotments were subject to winter weather (snow & ice). The commenter implies, without explanation, that the winter weather interferes with winning bidders' "finding and negotiating for a parcel of property." However, the Bureaus' rules provide for FCC Form 301 filing within 30 days of the auction's close, which itself is not a fixed date. In Auction No. 37, all winning bidders timely filed their FCC Form 301 applications, and over half of the applicants, 139, received grants within 90 days of the FCC Form 301 filing deadline. Thus, the Bureaus see no reason to alter the filing deadline.

iii. Default and Disqualification

150. Any high bidder that defaults or is disqualified after the close of the auction (*i.e.*, fails to remit the required down payment within the prescribed period of time, fails to submit a timely long-form application, fails to make full payment, or is otherwise disqualified) will be subject to the payments described in 47 CFR 1.2104(g)(2). In such event the Commission may re-auction the construction permit or offer it to the next highest bidder (in descending order) at its final bid. In addition, if a default or disqualification involves gross misconduct, misrepresentation, or bad faith by an applicant, the Commission may declare the applicant and its principals ineligible to bid in future auctions, and may take any other action that it deems necessary, including institution of proceedings to revoke any existing

licenses or construction permits held by the applicant.

vi. Refund of Remaining Upfront Payment Balance

151. All applicants that submit upfront payments but are not winning bidders for a construction permit in Auction No. 62 may be entitled to a refund of their remaining upfront payment balance after the conclusion of the auction. No refund will be made unless there are excess funds on deposit from the applicant after any applicable bid withdrawal payments have been paid. All refunds will be returned to the payer of record, as identified on the FCC Form 159, unless the payer submits written authorization instructing otherwise.

152. Bidders that drop out of the auction completely may be eligible for a refund of their upfront payments before the close of the auction. Qualified bidders that have exhausted all of their activity rule waivers, have no remaining bidding eligibility, and have not withdrawn a provisionally winning bid during the auction must submit a written refund request. If you have completed the refund instructions electronically, then only a written request for the refund is necessary. If not, the request must also include wire transfer instructions, Taxpayer Identification Number (TIN) and FCC Registration Number (FRN). Send refund requests to: Federal Communications Commission, Financial Operations Center, Auctions Accounting Group, Gail Glasser, 445 12th Street, SW., Room 1-C864, Washington, DC 20554.

Synopsis

On April 19, 2005, Panasonic Corporation filed a Request for Waiver with the Federal Communications Commission (Commission) of the hearing aid compatibility and volume control requirements set forth in 47 CFR 68.316 and 68.317 in order to market the Panasonic 2.4 GHz FHSS Cordless Telephone with Bone Conduction Type Ear-Piece, Model KX-TG2388. Panasonic asserts that the non-conforming ear-piece will benefit the special needs of "transmission hearing impaired" persons, *i.e.*, individuals who

have loss of hearing in the outer ear that collects incoming sound waves. Panasonic also states that the product would be labeled as non-hearing aid compatible, contain a warning that the phone may not be used in a public location, and provide instructions on how to reduce feedback in a hearing aid caused by the telephone.
