### National Park Service

#### **Notice of Inventory Completion: U.S. Department of Agriculture, Forest Service, Gila National Forest, Silver City, NM; Correction**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice, correction.

Notice is here given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the

completion of an inventory of human remains and associated funerary objects in the control of the U.S. Department of Agriculture, Forest Service, Gila National Forest, Silver City, NM; and in the possession of Arizona State Museum, University of Arizona, Tucson, NM; Field Museum of Natural History, Chicago, IL; Logan Museum of Anthropology, Beloit College, Beloit, WI; Maxwell Museum of Anthropology, University of New Mexico, Albuquerque, NM; Museum of New Mexico, Museum of Indian Arts and Culture, Santa Fe, NM; Ohio Historical Society, Columbus, OH; Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA; University of Texas at Austin, Texas Memorial Museum, Austin, TX; and Western New Mexico University Museum, Silver City, NM. The human remains and associated funerary objects were removed from Gila National Forest, Catron County, NM.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Arizona State Museum, University of Arizona; Field Museum of Natural History; Logan Museum of Anthropology, Beloit College; Maxwell Museum of Anthropology, University of New Mexico; Museum of New Mexico, Museum of Indian Arts and Culture; Ohio Historical Society; Peabody Museum of Archaeology and Ethnology, Harvard University; University of Texas at Austin, Texas Memorial Museum; and Western New Mexico University Museum professional staffs and U.S. Department of Agriculture Forest Service professional staff in consultation with representatives of the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

This notice corrects the number of human remains and associated funerary objects, and sites reported in a Notice of Inventory Completion published in the **Federal Register** on July 22, 1998, FR Doc 98-19536, pages 39293-39294. In 2005, the Field Museum of Natural History, Chicago, IL, re-examined the human remains and associated funerary objects taken from nine sites in the Gila National Forest, Catron County, NM. In light of the findings from the re-

examination, the original notice of inventory is amended to include additions to the minimum number of individuals, a decrease in the amount of associated funerary objects, and a deletion of one of the sites (Brown site), as no excavations took place by the Field Museum of Natural History, Chicago, IL, nor were human remains and associated funerary objects removed from the Brown site. The human remains and associated funerary objects are culturally affiliated with the same tribes as described in the original notice, which are the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

This notice corrects the previously published Notice of Inventory Completion, by substituting the following paragraph for paragraph five:

Between 1935-1955, human remains representing 74 individuals were recovered from SU site, Oak Springs Pueblo, Tularosa Cave, Apache Creek Pueblo, Turkey Foot Ridge Site, Wet Leggett Pueblo, Three Pines Pueblo, and South Leggett Pueblo by Dr. Paul Martin of the Field Museum of Natural History, Chicago, IL. These human remains are currently in the possession of the Field Museum of Natural History. No known individuals were identified. The 56 associated funerary objects include ceramic vessels and sherds, stone and shell jewelry, stone and bone tools, and projectile points.

The following paragraphs are substituted for paragraphs 27 and 28:

Officials of the U.S. Department of Agriculture, Forest Service, Gila National Forest have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of 185 individuals of Native American ancestry. Officials of the U.S. Department of Agriculture, Forest Service, Gila National Forest also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 256 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the U.S. Department of Agriculture, Forest Service, Gila National Forest have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Dr. Frank E. Wozniak, NAGPRA Coordinator, Southwestern Region, U.S. Department of Agriculture, Forest Service, 333 Broadway Boulevard, SE, Albuquerque, NM 87102, telephone (505) 842-3238, before September 2, 2005. Repatriation of the human remains and associated funerary objects to the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico may proceed after that date if no additional claimants come forward.

The U.S. Department of Agriculture, Forest Service, Gila National Forest is responsible for notifying the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico that this notice has been published.

### National Park Service

#### **Notice of Intent to Repatriate a Cultural Item: U.S. Department of Agriculture, Forest Service, Gila National Forest, Silver City, NM, and Field Museum of Natural History, Chicago, IL**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate a cultural item in the control of the U.S. Department of Agriculture, Forest Service, Gila National Forest, Silver City, NM, and in the possession of the Field Museum of Natural History, Chicago, IL, that meets the definition of "unassociated funerary object" under 25 U.S.C. 3001. The cultural item was removed from the Gila National Forest, Catron County, NM.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural item. The National Park Service is not responsible for the determinations in this notice.

The cultural item is a turquoise pendant consisting of 19 small pieces of perforated turquoise.

A detailed assessment of the cultural item was made by U.S. Department of Agriculture, Forest Service, Gila National Forest and Field Museum of Natural History professional staff in consultation with the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

In 1939, one turquoise pendant was removed from the SU site in the Gila National Forest, Catron County, NM, during legally authorized excavations and collected by Dr. Paul S. Martin of the Field Museum, Chicago, IL.

Material culture, architecture and site organization indicate that the SU site is an Upland Mogollon pithouse village occupied between A.D. 450 and 500. The territory of the Upland Mogollon stretched from south-central Arizona to south-central New Mexico. The Upland Mogollon territories are claimed, currently inhabited, or used by the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico. Villages had pithouses or pueblo-style houses. Most archeological evidence linking Upland Mogollon to present-day tribes relies on ceramics that suggest the early establishment of brownware producing groups. Present-day descendants of the Upland Mogollon are the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico. Oral traditions presented by representatives of the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico support cultural affiliation.

Additional unassociated funerary objects removed from Gila National Forest, Catron County, NM, were published in a Notice of Intent to Repatriate Cultural Items in the **Federal Register** of June 1, 2005, FR Doc 05-10805, page 31510.

Officials of the U.S. Department of Agriculture, Forest Service, Gila National Forest have determined that, pursuant to 25 U.S.C. 3001 (3)(B), the one cultural item described above is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Officials of the U.S. Department of Agriculture, Forest Service, Gila National Forest also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be

reasonably traced between the unassociated funerary object and the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with this unassociated funerary object should contact Dr. Frank E. Wozniak, NAGPRA Coordinator, Southwestern Region, USDA Forest Service, 333 Broadway Blvd., SE, Albuquerque, NM 87102, telephone (505) 842-3238, before September 2, 2005. Repatriation of this unassociated funerary object to the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico may proceed after that date if no additional claimants come forward.

The U.S. Department of Agriculture, Forest Service, Gila National Forest is responsible for notifying the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico that this notice has been published.

#### **Notice of Intent to Repatriate a Cultural Item: Bernice Pauahi Bishop Museum, Honolulu, HI**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate a cultural item in the possession of the Bernice Pauahi Bishop Museum, Honolulu, HI, that meets the definition of "unassociated funerary object" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural items. The National Park Service is not responsible for the determinations in this notice.

In 1937, Emma Turnbull removed a cultural item in the sands of a West Molokai beach, Molokai Island, HI. The cultural item is one rock oyster pendant.
