Duke Power Company; Notice of Availability of Environmental Assessment

August 24, 2005.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR part 380), Commission staff have prepared an environmental assessment (EA) that analyzes the environmental impacts of allowing Duke Power Company, licensee for the Catawba-Wateree Hydroelectric Project, to grant an easement to the Town of Mooresville, North Carolina, for project property within the Cowans Ford Development, also known as Lake Norman. The new easement will allow the Town of Mooresville to install a new raw water pump station, intake screens, and intake pipes and to have a maximum allowable water withdrawal of 12.0 million gallons per day. The EA contains staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the Proposed Action would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-Project Use of Project Lands and Waters," which was issued August 23, 2005, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. S.D. Warren Company; Notice Extending Time To File Comments on Environmental Assessment

August 25, 2005.

On July 11, 2005, Commission staff issued a draft environmental assessment (EA) for the Eel Weir Project. On August 18, 2005, Commission staff held a public meeting on the draft EA in Portland, Maine. During that meeting, a number of participants indicated that they had not previously received their service copy of the draft EA and requested additional time to file comments. Additionally, on August 24, 2005, S.D. Warren filed a request to extend the deadline for filing comments on the draft EA by 30 days from the date of the public meeting.

In order to ensure that the record in the relicensing proceeding is complete and that all participants have an adequate opportunity to comment on the draft EA, an extension of time to file comments on the draft EA is hereby granted until September 9, 2005.
