Final Reissuance of General NPDES Permits (GP) for Alaskan Mechanical Placer Mining (Permit Number AKG-37-0000) and Alaskan Medium-Size Suction Dredging (Permit Number AKG-37-1000)

AGENCY: Environmental Protection Agency, Region 10.

ACTION: Final Notice of reissuance of two general permits.

SUMMARY: Two GPs regulating the activities of mechanical placer mining and suction dredge mining for gold placer mining operations in the state of Alaska expire on October 3, 2005. On April 21, 2005, EPA proposed to reissue these two GPs. There was a 45 day comment period.

During the comment period, EPA received comments on the mechanical GP regarding coverage area prohibitions and metals limitations. The GP remains the same as the current GP.

EPA received similar comments as those described above for the medium-size suction dredge GP as well as concern about Endangered Species and the interpretation of a Best Management Practice (BMP). The general permit contains new language on the possibility of requiring an individual permit in areas of concern for Endangered Species and a part of a BMP has been removed. A Response to

Comments was prepared for each general permit. EPA has determined that each facility submitting a new Notice of Intent (NOI) prior to the expiration date of the current permit will be automatically covered by the re-issued GP.

DATES: The GPs will be effective October 7, 2005. Since coverage between the current GPs and the reissued GPs is continuous, there is no administrative extension of coverage under these GPs.

ADDRESSES: Copies of the GPs and Responses to Comments are available upon request. Written requests may be submitted to EPA, Region 10, 1200 Sixth Avenue OWW-130, Seattle, WA 98101. Electronic requests may be mailed to: washington.audrey@epa.gov or godsey.cindi@epa.gov.

FOR FURTHER INFORMATION CONTACT: The GPs, Fact Sheets and Response to Comments may be found on the Region 10 Web site at www.epa.gov/r10earth/

Requests by telephone may be made to Audrey Washington at (206) 553-0523 or to Cindi Godsey at (907) 271-6561.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

The Office of Management and Budget has exempted this action from the review requirements of Executive Order 12866 pursuant to Section 6 of that order.

The state of Alaska, Department of Environmental Conservation (ADEC), has certified that the subject discharges comply with the applicable provisions of Sections 208(e), 301, 302, 306 and 307 of the Clean Water Act.

The state of Alaska, Department of Natural Resources, Office of Project Management and Permitting, Alaska Coastal Management Program (ACMP) determined that the GPs did not require a new ACMP review.

Regulatory Flexibility Act

Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, a Federal agency must prepare an initial regulatory flexibility analysis "for any proposed rule" for which the agency "is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking." The RFA exempts from this requirement any rule that the issuing agency certifies "will not, if promulgated, have a significant economic impact on a substantial number of small entities." EPA has concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that these general permits, as issued, will not have a significant economic impact on a substantial number of small entities.

Associate Director, Office of Water & Watersheds, Region 10, U.S. Environmental Protection Agency.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

September 1, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before November 7, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your Paperwork Reduction Act (PRA) comments by email or U.S. postal mail. To submit your comments by e-mail send them to: PRA@fcc.gov. To submit your comments by U.S. mail, mark it to the attention of Judith B. Herman, Federal Communications Commission, 445 12th Street, SW., Room 1-C804, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Judith B. Herman at 202-418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1008.

Title: Reallocation and Service Rules for the 698-746 MHz Band (Television Channels 52-59).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit and state, local or tribal government.

Number of Respondents: 715.

Estimated Time Per Response: .50 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 358 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission adopted allocation and service rules for the 698-746 MHz spectrum band which is being reallocated pursuant to statutory requirements. The Commission took this action to support the development of new services in the lower 700 MHz band, and to protect existing television operations that will occupy the band throughout the transition to digital television.

Section 27.50(c)(5) provides that licensees intending to operate a base or fixed station at a power level greater than 1 kW ERP must provide advanced notice of such operation to the Commission and to licensees authorized in their area of operation. Licensees that must be notified are all licensees authorized under this part to operate a base or fixed station on an adjacent spectrum block at a location within 75 km of the base or fixed station operating at a power level greater than 1 kW ERP. Notices must provide the location and operating parameters of the base or fixed station operating at a power level greater than 1 kW ERP, including the station's ERP, antenna coordinates, antenna height above ground, and vertical antenna pattern, and such notices must be provided at least 90 days prior to the commencement of station operation. The information will be used to aid the Commission in reclaiming and reallocating the lower 700 MHz band currently used for TV channels 52-59 for new commercial services as part of the Commission's transition of TV broadcasting from analog to digital transmission systems, while retaining the existing broadcast allocation. Further, the service rules have been designed to promote the development and rapid deployment of new technologies, products, and services for the benefit of the public; to promote economic opportunity and competition; and to create the efficient and intensive
