Scope of the Orders

Japan

The products covered by this order include certain stainless steel butt-weld pipe and tube fittings, or SSPFs. These fittings are used in piping systems for chemical plants, pharmaceutical plants, food processing facilities, waste treatment facilities, semiconductor equipment applications, nuclear power plants and other areas. This merchandise is classifiable under the Harmonized Tariff Schedules of the United States (HTSUS) item number 7307.23.0000. While the HTS item number is provided for convenience and for Customs purposes, the written product description remains dispositive as to the scope of the product coverage.

South Korea

The products subject to this order are certain welded stainless steel butt-weld pipe fittings (pipe fittings), whether finished or unfinished, under 14 inches in inside diameter.

Pipe fittings are used to connect pipe sections in piping systems where conditions require welded connections. The subject merchandise can be used where one or more of the following conditions is a factor in designing the piping system: (1) Corrosion of the piping system will occur if material other than stainless steel is used; (2) contamination of the material in the system by the system itself must be prevented; (3) high temperatures are present; (4) extreme low temperatures are present; (5) high pressures are contained within the system.

Pipe fittings come in a variety of shapes, and the following five are the most basic: "elbows," "tees," "reducers," "stub ends," and "caps." The edges of finished fittings are beveled. Threaded, grooved, and bolted fittings are excluded from this review. The pipe fittings subject to this order are classifiable under subheading 7307.23.00 of the Harmonized Tariff Schedules of the United States (HTSUS).

Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

Structural Steel Beams from Japan and South Korea; Final Results of Expedited Sunset Reviews of the Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On May 2, 2005, the Department of Commerce (the Department) initiated a sunset review of the antidumping duty orders on structural steel beams (steel beams) from Japan and South Korea, pursuant to section 751(c) of the Tariff Act of 1930, as amended, (the Tariff Act). On the basis of the notice of intent to participate and adequate substantive responses filed on behalf of the domestic interested parties and inadequate responses from respondent interested parties, the Department conducted expedited sunset reviews. As a result of these sunset reviews, the Department finds that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of Reviews."

EFFECTIVE DATE: September 9, 2005.

FOR FURTHER INFORMATION CONTACT:

Dana Mermelstein, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone (202) 482-1391.

SUPPLEMENTARY INFORMATION:

Background

On May 2, 2005, the Department initiated sunset reviews of the antidumping duty orders on steel beams from Japan and South Korea, pursuant to section 751(c) of the Tariff Act. *See Initiation of Five-year ("Sunset") Reviews*, 70 FR 22632 (May 2, 2005).

The Department received notices of intent to participate from the domestic interested parties, Committee for Fair Beam Imports, Nucor Corp., Nucor-Yamato Steel Co., Steel Dynamics, Inc., and TXI-Chaparral Steel, Inc. (collectively, domestic interested parties), within the deadline specified in section 351.218(d)(1)(i) of the Department's regulations. Domestic interested parties claimed interested party status under section 771(9)(C) of the Tariff Act as U.S. producers of a domestic like product. We received a complete substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). However, we did not receive responses from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Tariff Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted expedited sunset reviews of these orders.

Scope of the Orders

These products (Structural Steel Beams) include, but are not limited to, wide-flange beams (W shapes), bearing piles (HP shapes), standard beams (S or I shapes), and M-shapes.

All products that meet the physical and metallurgical descriptions provided above are within the scope of this review unless otherwise excluded. The following products, are outside and/or specifically excluded from the scope of this review: structural steel beams greater than 400 pounds per linear foot or with a web or section height (also known as depth) over 40 inches.
