Cargill, Incorporated*, (Civil Action No. 05-2037 JMR/FLN), which was lodged with the United States District Court for the District of Minnesota on September 1, 2005.

Under the settlement, Cargill will implement pollution control technologies to greatly reduce emissions of volatile organic compounds ("VOC"), nitrogen oxides ("Nox"), carbon monoxide ("CO"), and sulfur dioxide ("SO₂") from corn and oilseed processing units across 27 plants in 13 states, which will result in emission reductions of approximately 30,000 tons per year.

This action is the result of a cooperative enforcement effort resulting in 10 states and 4 counties, Alabama, Georgia, Illinois, Indiana, Iowa, Missouri, Nebraska, North Carolina, North Dakota, Ohio, Memphis and Shelby County, Tennessee, the Ohio County of Montgomery, and the Iowa Counties of Linn and Polk, joining in this settlement as Plaintiff-Interveners and signatories to the Consent Decrees. Each will share in the civil penalties assessed and will benefit from Cargill's performance of the SEPs in many of the communities where the plants are located.

Comments should be addressed to the Acting Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Cargill, Incorporated*, D.J. Ref. 90-5-2-1-07481/1.

Notice of Lodging of Supplemental Consent Decree to First Round De Minimis Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act

Notice is hereby given that on August 31, 2005, a proposed Supplemental Consent Decree to the First Round De Minimis Consent Decree in *United States v. Chevy Chase Cars, Inc., et al.*, Civil Action No. 05-1222, was lodged with the United States District Court for the Western District of Pennsylvania. This Supplemental Consent Decree relates to two other matters before the same Court: *United States v. Allegheny Ludlum Corp., et al.*, C.A. No. 97-1863 and *United States v. Aetna, Inc., et al.*, C.A. No. 05-15. All three matters are Superfund cost recovery actions commenced by the United States against potentially responsible parties relating to the Breslube Penn Superfund Site in Coraopolis, Moon Township, Pennsylvania.

In the *Chevy Chase Car, Inc., et al.* action, the United States seeks the recovery of response costs incurred in connection with the Breslube Penn Superfund Site. The complaint alleges that each of the named defendants arranged for the treatment and/or disposal of wastes containing hazardous substances at the Site, within the meaning of 42 U.S.C. 9607(a)(3). The complaint names 22 defendants, each of which have signed the proposed Supplemental Consent Decree to the

First Round De Minimis Consent Decree. Under the Supplemental Consent Decree, each of the named defendants would pay a proportionate share of all past and future response costs incurred and to be incurred at the Site, plus a premium. In return for these payments, each defendant would receive a covenant not to sue by the United States, subject to certain reservations of rights, and contribution protection from suit by other potentially responsible parties. However, because two of the settlors/named defendants chose a lower settlement premium with a "reopener," their liability can be reopened in the event that Site future response costs exceed \$26 million. The other twenty settlors/named defendants selected a higher settlement premium, with no "reopener" provision. The total recovery under this Consent Decree should be approximately \$270,000.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to this Supplemental Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Chevy Chase Cars, Inc., et al.*, D.J. Ref. 90-11-3-1762/2.

The *Chevy Chase Cars, Inc., et al.* Consent Decree may be examined at the Office of the United States Attorney for Western District of Pennsylvania, at 700 Grant Street, Suite 400, Pittsburgh, PA 15219 (ask for Jessica Lieber Simolar), and at U.S. EPA Region III's Office, 1650 Arch Street, Philadelphia, PA (ask for Mary Rugala). During the public comment period, the *United States v. Chevy Chase Cars, Inc., et al.* consent decree, may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>. A copy of the consent decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$11.00 (25 cents per page reproduction cost) for a full copy of the consent decree, or \$6.50, for a copy without

signature pages, payable to the U.S. Treasury.

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

In accordance with Departmental policy, 28 CFR 50.7, and Section 122(d)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9622(d)(2), notice is hereby given that on September 1, 2005, a proposed Remedial Design/Remedial Action Consent Decree ("Decree") in *United States v. The Oeser Company*, Civil Action No. C05-1491-JCC (W.D. Washington) was lodged with the United States District Court for the Western District of Washington.

The Decree resolves claims of the United States against the Oeser Company ("Oeser") under Sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a), for injunctive relief, civil penalties, and recovery of response costs incurred and to be incurred by the United States Environmental Protection Agency ("EPA") at the Oeser Company Superfund Site located in Whatcom County, Bellingham, Washington ("Site"). The Decree requires Oeser to implement EPA's selected remedial action for the Site, pay EPA's future oversight costs at the Site, and pay at least \$8.6 million in reimbursement of EPA's past response costs. The remedial action is expected to cost about \$3.8 million, but costs could go as high as \$6 million. To secure the funds for the cleanup, Oeser will deposit approximately \$6 million into two trust accounts that will be used first to pay for the cleanup and secondly, if any funds remain, to provide additional reimbursement of EPA's past costs. In addition, the company agrees to contribute \$500,000 to a trust account held by the City of Bellingham for performance of a cleanup of Little Squalicum Creek.
