## FEDERAL RESERVE SYSTEM

### Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at [www.ffiec.gov/nic/](http://www.ffiec.gov/nic/).

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of

Governors not later than October 11, 2005.

**A. Federal Reserve Bank of Atlanta** (Andre Anderson, Vice President) 1000 Peachtree Street, N.E., Atlanta, Georgia 30303:

1. *Synovus Financial Corp.*, Columbus, Georgia; to merge with Riverside Bancshares, Inc., Marietta, Georgia, and thereby indirectly acquire Riverside Bank, Marietta, Georgia.

**B. Federal Reserve Bank of Minneapolis** (Jacqueline G. King, Community Affairs Officer) 90 Hennepin Avenue, Minneapolis, Minnesota 55480-0291:

1. *Abdo Investments, Inc.*, Edina, Minnesota; to become a bank holding company by acquiring 24.2 percent of the voting shares of Rivers Ridge Holding Company, Edina, Minnesota, and thereby indirectly acquire Bankvista, Sartell, Minnesota.

Board of Governors of the Federal Reserve System, September 12, 2005.

**Robert deV. Frierson,**

*Deputy Secretary of the Board.*

## GENERAL SERVICES ADMINISTRATION

### Notice of a Deviation; Motor Vehicle Management

**AGENCY:** Office of Governmentwide Policy, General Services Administration (GSA).

**ACTION:** Notice of a deviation.

**SUMMARY:** This notice announces that the General Services Administration (GSA), Office of Governmentwide Policy (M), is granting a deviation from section 102-34.335 of the Federal Management Regulation (FMR) (41 CFR 102-34.335) to all agencies whose purchase of gasoline for motor vehicles has been impacted by Hurricane Katrina. This deviation will allow Federal agencies to purchase premium gasoline for government owned and leased vehicles when lower grade gasoline is not available. This deviation can be found at [www.gsa.gov/vehiclepolicy](http://www.gsa.gov/vehiclepolicy) and clicking on "Deviation from 41 CFR 102-34.335".

**DATES:** The deviation announced in this notice is effective September 8, 2005.

**FOR FURTHER INFORMATION CONTACT:** For clarification of content, contact General Services Administration, Office of Governmentwide Policy, Office of Travel, Transportation and Asset Management, at (202) 501-1777 and cite

the deviation regarding motor vehicle management dated September 8, 2005.

### SUPPLEMENTARY INFORMATION:

#### A. Background

Federal Management Regulation (FMR) section 102-34.335 (41 CFR 102-34.335) prohibits the use of premium grade gasoline in any motor vehicle owned or leased by the Government unless the motor vehicle specifically requires premium grade gasoline. This section states that drivers are to use the grade (octane rating) of gasoline recommended by the motor vehicle manufacturer when fueling motor vehicles owned or leased by the Government.

As a result of the catastrophic destruction caused by Hurricane Katrina, agencies have reported that their vehicles operators are unable to purchase lower octane gasoline for their vehicles to complete their missions. In many areas, agencies have only been able to procure premium gasoline for use in their motor vehicles. The original intent of section 102-34.335 was to reduce fuel costs and eliminate the unnecessary use of premium gasoline in vehicles capable of being operated on lower grade gasoline.

#### B. Procedures

This deviation is located on the Internet at [www.gsa.gov/vehiclepolicy](http://www.gsa.gov/vehiclepolicy) and clicking on "Deviation from 41 CFR 102-34.335".

Dated: September 12, 2005.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[30Day-05-0494]

### Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 371-5983 or send an email to [omb@cdc.gov](mailto:omb@cdc.gov). Send written comments to CDC Desk Officer, Office of Management and Budget, Washington,

DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

### Proposed Project

Exposure to Aerosolized Brevetoxins during Red Tide Events (OMB No. 0920-0494)—Revision—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

*Karenia brevis* (formerly *Gymnodinium breve*) is the marine dinoflagellate responsible for extensive blooms (called red tides) that form in the Gulf of Mexico. *K. brevis* produces potent toxins, called brevetoxins, which have been responsible for killing millions of fish and other marine organisms. The biochemical activity of brevetoxins is not completely understood and there is very little information regarding human health effects from environmental exposures, such as inhaling brevetoxin that has been aerosolized and swept onto the coast by offshore winds. The National

Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC) has recruited people who work along the coast of Florida and who are periodically occupationally exposed to aerosolized red tide toxins.

We have administered a baseline respiratory health questionnaire and conducted pre- and post-shift pulmonary function tests during a time when there is no red tide reported near the area. When a red tide developed, we administered a symptom survey and conducted pulmonary function testing (PFT). We compared (1) symptom reports before and during the red tide and (2) the changes in baseline PFT values during the work shift (differences between pre- and post-shift PFT results) without exposure to red tide with the changes in PFT values during the work shift when individuals are exposed to red tide.

The exposures experienced by our study cohort have been minimal, and we plan to conduct another study (using

the same symptom questionnaires and spirometry tests) during a more severe red tide event.

In addition, we are now planning to quantify the levels of cytokines in nasal exudates to assess whether they can be used to verify exposure and to demonstrate a biological effect (*i.e.*, allergic response) following inhalation of aerosolized brevetoxins. We plan to include not only the study subjects who have been involved in our earlier studies, but also any new individuals who are hired to work at the relevant beaches. As mentioned above, we have collected part data on occupational exposure to red tides. However, because we are dealing with natural phenomena and are subject literally to the tides, and because the scientific questions are evolving as we learn more, we must extend our data collection time for an additional three years. There are no costs to respondents except for their time. The total estimated total burden hours are 195.

### ESTIMATE OF ANNUALIZED BURDEN TABLE

Respondents	Number of respondents	Number of responses per respondent	Average burden per response
Pulmonary History Questionnaire .....	5	1	20/60
Spirometry .....	25	6	20/60
Nasal exudates collection/Nasal wash .....	25	6	10/60
Symptom Questionnaire .....	25	6	5/60
Hearing test .....	25	6	15/60
Beach Survey .....	5	160	5/60

Dated: September 9, 2005.
