

Electronic Disease Surveillance System (NEDSS) and Public Health Information Network (PHIN). Following the transition, many respondents will implement a PHIN compatible information system to collect and report TB surveillance data via the PHIN Messaging System. The remaining respondents will employ the NEDSS base system. These respondents will be able to use either the associated TB Program Area Module or their own TB surveillance application to collect and report RVCT data to CDC.

CDC publishes an annual report summarizing national TB statistics and also periodically conducts special analyses for publication in peer-reviewed scientific journals to further describe and interpret national TB data. These data assist public health officials and policy makers in program planning, evaluation, and resource allocation. Reporting Areas also review and analyze their RVCT data to monitor local TB trends, evaluate program success, and assist in focusing resources to eliminate TB.

No other Federal agency collects this type of national TB data. In addition to providing technical assistance on the use of RVCT, CDC also provides Reporting Areas with technical support for the TIMS software. In this request, CDC is requesting approval for 7,560 burden hours, a decrease of 780 hours. There are no costs to respondents except for their time. This decrease is due to a decrease in the total number of tuberculosis cases.

Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A)) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Public Law 104-13, the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995.

To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: The Health Professions Student Loan (HPSL) and Nursing Student Loan (NSL) Programs: Forms (OMB No. 0915-0044): Extension

The HPSL Program Provides long-term, low-interest loans to students attending schools of medicine, osteopathic medicine, dentistry,

veterinary medicine, optometry, podiatric medicine, and pharmacy. The NSL Program provides long-term, low-interest loans to students who attend eligible schools of nursing in programs leading to a diploma in nursing, and an associate degree, a baccalaureate degree, or a graduate degree in nursing. Participating HPSL and NSL schools are responsible for determining eligibility of applicants, making loans, and collecting monies owed by borrowers on their outstanding loans. The deferment form (HRSA form 519) provides the schools with documentation of a borrower's eligibility for deferment. The Annual Operating Report (AOR-HRSA form 501) provides the Federal Government with information from participating and non-participating schools (schools that are no longer granting loans but are required to report and maintain program records, student records, and repayment records until all student loans are repaid in full and all monies due the Federal Government are returned) relating to HPSL and NSL program operations and financial activities.

The estimate of burden is as follows:

Form	Number of respondents	Responses per respondent	Total responses	Hours per responses	Total burden hours
Deferment HRSA-519	3,000	1	3,000	10 min	500
AOR-HRSA-501	977	1	977	4 hrs	3,908
Total Burden	3,977	3,977	4,408

Send comments to Susan G. Queen, Ph.D., HRSA Reports Clearance Officer, Room 10–33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: September 16, 2005.

Proposed Project

Outcome Study of National Health Service Corps (NHSC) Chiropractor and Pharmacist Loan Repayment Demonstration Project—New

In 2002, Congress authorized a demonstration project to provide for the participation of chiropractors and pharmacists in the NHSC Loan Repayment Program. This study provides for an evaluation of the demonstration project to determine (1) the manner in which the demonstration project has affected access to primary care services, patient satisfaction, quality of care, and health care services provided for traditionally underserved populations; (2) how the participation of chiropractors and pharmacists in the Loan Repayment Program might affect the designation of health professional shortage areas; and (3) whether adding chiropractors and pharmacists as permanent members of the NHSC would be feasible and would enhance the effectiveness of the NHSC.

The burden estimate is as follows:

Respondents	Number of respondents	Number of responses/respondent	Average burden per response (in hours)	Total burden (in hours)
Clinic Users	3,000	1	.25	750
Chiropractors & Pharmacists	40	1	.50	20
NHSC Site Administrative Personnel	140	1	.50	70
Total	3,180	840
