(ii) With respect to the securities issuance authority proposed in this Application on behalf of ELL: (a) Within four business days after the occurrence of a Ratings Event,¹⁰ Applicants will notify the Commission of its occurrence (by means of a letter, via fax, e-mail or overnight mail to the Office of Public Utility Regulation) and (b) within 30 days after the occurrence of a Ratings Event, Applicants will submit a post-effective amendment to this Application explaining the material facts and circumstances relating to that Ratings Event (including the basis on which, taking into account the interests of investors, consumers and the public as well as other applicable criteria under the Act, it remains appropriate for ELL to issue the securities for which authorization has been requested in this Application, so long as ELL continues to comply with the other applicable terms and conditions specified in the Commission's order authorizing the transactions requested in this Application). Furthermore, no securities authorized as a result of this Application will be issued following the 60th day after a Ratings Event by ELL if the downgraded rating(s) has or have not been upgraded to investment grade. Applicants request that the Commission reserve jurisdiction through the remainder of the Authorization Period over the issuance of any securities that ELL is prohibited from issuing as a result of the occurrence of a Ratings

⁹ Applicants state that the consequence of Entergy, Holdings or ELL failing to satisfy the 30% common equity to consolidated capitalization condition is that the applicable company would not be authorized to issue securities in a transaction subject to Commission approval, except for securities which would result in an increase in the common equity percentage.

¹⁰ A "Ratings Event" will occur, with respect to securities proposed to be issued by ELL if (i) the security to be issued by ELL, pursuant to the authority sought in this Application-Declaration, upon original issuance, is rated below investment grade; (ii) any outstanding security of ELL that is rated is downgraded below investment grade or (iii) any outstanding security of Entergy that is rated is downgraded below investment grade. For purposes of this provision, a security will be deemed to be rated "investment grade" if it is rated investment grade by at least one nationally recognized statistical rating organization, as that term is used in paragraphs (c)(2)(vi)(E), (F) and (H) of rule 15c3-1 under the Securities Exchange Act of 1934.

Event if no revised rating reflecting an investment grade rating has been issued.

Distributions Out of Capital

As a result of the proposed restructuring, substantially all of the assets of the Company will be allocated to ELL and the retained earnings of ELP will effectively be set to zero. ELP, therefore, may need to pay distributions to Holdings, its immediate parent company, out of capital. Accordingly, the Applicants request authorization for ELP to pay distributions out of capital, to the extent not otherwise authorized under the Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Assistant Secretary.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of and basis for the proposed rule change, as amended, and discussed any comments it received on the proposed rule change, as amended. The text of these statements may be examined at the places specified in Item IV below. The CBOE has prepared

summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On October 29, 2004, CBOE amended its marketing fee program.⁶ The current marketing fee is assessed upon DPMs, e-DPMs, Market-Makers, and Remote Market-Makers ("RMMs") at a rate of \$0.22 for every contract they enter into on CBOE other than Market-Maker-to-Market-Maker transactions (which includes all transactions between any combination of DPMs, e-DPMs, Market-Makers, and RMMs). The marketing fee is currently assessed in all equity option classes and options on HOLDRs⁷ and options on SPDRs,⁸ all of which are classes in which a DPM has been appointed. All funds generated by the marketing fee are collected by CBOE and recorded according to the DPM, station, and class where the options subject to the fee are traded. The money collected is disbursed by CBOE according to the instructions of the DPM. Those funds are available to the DPM solely for those trading crowds where the fee was assessed and may only be used by that DPM to attract orders in the classes of options for which the fee was assessed.

CBOE now proposes to amend its marketing fee to assess the fee on options on DIA, an Exchange Traded Fund ("ETF").⁹ The marketing fee would now be assessed upon LMMs,¹⁰ as well as Market-Makers, e-DPMs, and RMMs at a rate of \$0.22 for every contract they enter into on CBOE other than Market-Maker-to-Market-Maker transactions (which includes all transactions between any combination of LMMs, Market-Makers, e-DPMs, and RMMs). The Exchange would commence to assess the fee on DIA options on September 2, 2005.

Additionally, in option classes like DIA in which an LMM instead of a DPM

has been appointed,¹¹ CBOE proposes to amend its marketing fee plan to allow an LMM that has been appointed by the Exchange to perform the functions that a DPM typically performs under the marketing fee plan. Specifically, the LMM, like the DPM, would be expected to negotiate with payment accepting firms to pay for that firm's order flow. All funds generated by the marketing fee would be collected by CBOE, and disbursed by CBOE according to the instructions of the LMM. The Exchange is not making any other changes to its marketing fee plan.

2. Statutory Basis

The Exchange believes that its proposal, as amended, is consistent with Section 6(b) of the Act¹² in general, and furthers the objectives of Sections 6(b)(4) of the Act¹³ in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among CBOE's members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change, as amended, will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change, as amended, has been designated as a fee change pursuant to Section 19(b)(3)(A)(ii) of the Act¹⁴ and Rule 19b-4(f)(2)¹⁵ thereunder, because it establishes or changes a due, fee, or other charge imposed by the Exchange. Accordingly, the proposal will take effect upon filing with the Commission. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is

necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁶

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change, as amended, between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. ¹⁰ Under CBOE rules, LMMs may be appointed in an option class for which a DPM has not been appointed. See CBOE Rule 8.15A.

¹¹ Currently, the only option class in which an LMM instead of a DPM has been assigned is the DIA option class and the CBOE has no plans to change this at this time. ¹⁶ The effective date of the original proposed rule change is September 1, 2005, and the effective date of Amendment No. 1 is September 7, 2005. For purposes of calculating the 60-day period within which the Commission may summarily abrogate the proposal, the Commission considers the period to commence on September 7, 2005, the date on which the Exchange submitted Amendment No. 1.
