

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: You may view APHIS documents published in the **Federal Register** and related information on the Internet at <http://www.aphis.usda.gov/ppd/rad/webrepor.html>.

FOR FURTHER INFORMATION CONTACT: For information on the voluntary "do not sell" list of invasive plant species for Florida nurseries, contact Dr. Barney Caton, Ecologist and Pest Risk Analyst, Center for Plant Health Science and Technology, PPQ, 1730 Varsity Drive, Suite 300, Raleigh, NC 27607; (919) 855-7504. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS's Information Collection Coordinator, at (301) 734-7477.

SUPPLEMENTARY INFORMATION:

Title: Voluntary "Do Not Sell" List of Invasive Plant Species.

OMB Number: 0579-XXXX.

Type of Request: Approval of a new information collection.

Abstract: In 2001, the Florida Nursery, Growers, & Landscape Association (FNGLA), in cooperation with the Florida Exotic Pest Plant Council (FLEPPC), created and promoted a list of known invasive plant species that should not be grown or sold in Florida nurseries. Forty-three plant species were chosen for the list. A voluntary effort by nurseries to limit trade in these species is a potentially worthwhile approach to safeguarding U.S. ecosystems from invasive plants. The effectiveness of the voluntary program on trade in these species since 2001 has not been fully studied, however.

The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is responsible for safeguarding the United States against plant pests and noxious weeds. A recent assessment by the Center for Plant Health Science and Technology, Plant Protection and Quarantine, APHIS, indicated that availability in Florida nurseries of the 43 species on the FNGLA list has not changed since 1999. APHIS proposes to conduct a single survey of owners and managers of Florida nurseries and plant

dealers to determine how many were aware of the program, whether they were complying if they were aware of it, and whether they would have complied if they had known about it. The results of the survey will help APHIS learn how well such voluntary "do not sell" programs may be accepted by owners and managers of nurseries and plant dealers and how effective such programs may be.

We are asking the Office of Management and Budget (OMB) to approve the information collection activity associated with the voluntary "do not sell" list of invasive species for Florida nurseries.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.5 hour per response.

Respondents: Owners and managers of nurseries, and nursery stock dealers in Florida.

Estimated annual number of respondents: 200.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 200.

Estimated total annual burden on respondents: 100 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of September 2005.

Elizabeth E. Gaston,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Forest Service

Information Collection; Day Use on the National Forests of Southern California

AGENCY: Forest Service, USDA.

ACTION: Notice; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking comments from all interested individuals and organizations on the extension information collection, Day Use on the National Forests of Southern California.

DATES: Comments must be received in writing on or before November 28, 2005.

ADDRESSES: Comments concerning this notice should be addressed to Dr. Deborah J. Chavez, Pacific Southwest Research Station, 4955 Canyon Crest Drive, Riverside, CA 92507. Comments also may be submitted via facsimile to (909) 680-1501, or send an e-mail to dchavez@fs.fed.us.

The public may inspect comments received at the address above during normal business hours. Visitors are encouraged to call ahead to (909) 680-1500 to facilitate entry to the building.

FOR FURTHER INFORMATION CONTACT: Dr. Deborah J. Chavez, Pacific Southwest Research Station, (909) 680-1558, e-mail to dchavez@fs.fed.us. Individuals who use telecommunication devices for the deaf may call the Federal Information Relay Service at 1-800-877-8339 twenty-four hours a day, every day of the year, including holidays.

SUPPLEMENTARY INFORMATION: **Title:** Day Use on the National Forests of Southern California.

OMB Number: 0596-0129.

Expiration Date of Approval: 3/31/2006.

Type of Request: Extension.

Abstract: Users of urban proximate National Forests in Southern California come from a variety of ethnic/racial, income, age, educational, and other socio-demographic backgrounds. The activities pursued, information sources utilized, and site attributes preferred are just some of the items affected by these differences. Past studies completed through previously approved collections

have provided baseline information from which managers have made decisions, revised forest plans, and renovated/redesigned recreation sites. Additional information is needed for the managers of National Forests in Southern California, in part to validate previous results and in part because of the continuously changing profile of the visitor population recreating on the National Forests of Southern California. In the absence of the resultant information from the proposed series, the Forest Service will be ill-equipped to implement management changes required to respond to the needs and preferences of day use visitors. Data will be collected from visitors at outdoor recreation day use sites (these include developed picnic areas, general forest day use sites, off-road staging areas, trails, etc.) on National Forests in Southern California. Sites, dates of data collection, and individuals participating in the study will be randomly selected for inclusion in the study. Survey instruments will be available in English and Spanish and bilingual research teams will collect the data. Participation in this study is voluntary. The maximum amount of completion time will average 15 minutes or less. Participants will answer questions on the following topics: socio-demographic profile; National Forest visitation history and patterns; activity patterns; information and communication; site amenities/characteristics; perceptions about the environment and land uses; and general comments. Urban National Forests in Southern California have used the information to assist in effective management of recreation activities in the region studied. Data collected previously has been used by the agency to institute forest newspapers, add site renovations to an existing picnic area, and in forest planning. Results have been presented at local, national and international meetings, and have been published in several outlets. Data generated through this collection will be utilized in a similar manner as well as provide opportunities for comparisons of visitor profile and use shifts over time. Data will be evaluated and analyzed by Dr. Deborah J. Chavez at the Pacific Southwest Research Station. Consequences for not collecting this data would be (a) decreased service delivery due to decreased quality and breadth of information provided to resource managers on the socio-demographic profile of visitors, visitation history and patterns, information and communication, site amenities/characteristics, perceptions

about the environment and land uses, (b) decreased ability to continue to expand approved research work unit's assigned study topics such as understanding visitor profiles, (c) increased response time for inquiries into topics from managers and university contacts, (d) increased dependency on cooperator availability to carry out research unit mission, and (e) loss of information represented in follow-up longitudinal studies.

Estimate of Annual Burden: 15 minutes per respondent.

Type of Respondents: Recreation visitors to urban National Forests in Southern California.

Estimated Annual Number of Respondents: 600 per year.

Estimated Annual Number of Responses per Respondent: 1 per year.

Estimated Total Annual Burden on Respondents: 150 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Dated: September 14, 2005.

Ann M. Bartuska,

Deputy Chief for Research & Development.

DEPARTMENT OF AGRICULTURE

Forest Service

Notice of Madison-Beaverhead Advisory Committee Change of Meeting Date and Location

AGENCY: Forest Service, USDA.

ACTION: Notice of change in meeting date and location.

SUMMARY: Pursuant to the authorities in the Federal Advisory Committee Act (Pub. L. 92-463) and the Secure Rural Schools and Community Self-Determination Act of 2000 (Pub. L. 106-393), the Beaverhead-Deerlodge National Forest's Madison-Beaverhead Resource Advisory Committee will meet on Tuesday, November 15, 2005, from 10 a.m. until 4 p.m. in Dillon, Montana, for a business meeting. The meeting is open to the public.

DATES: Tuesday, November 15, 2005.

ADDRESSES: The meeting will be held at the USDA Service Center in Dillon, Montana.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Heintz, Designated Forest Official (DFO), Forest Supervisor, Beaverhead-Deerlodge National Forest, at (406) 683-3937.

SUPPLEMENTARY INFORMATION: Agenda topics for this meeting includes electing a chair, hearing and deciding on proposals for projects to fund under Title II of Public Law 106-393, hearing public comments, and other business. If the meeting location changes, notice will be posted in local newspapers, including the Dillon Tribune and The Montana Standard.

Dated: September 23, 2005.

Thomas W. Heintz,

Acting Forest Supervisor.

Forest Service

Shasta County Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Shasta County Resource Advisory Committee (RAC) will hold meetings at the USDA Service Center in Redding, California, on October 5, November 2, and December 7, 2005. The purpose of these meetings is to discuss proposed projects under Title II of the Secure Rural Schools and Community Self-Determination Act of 2000.

DATES: October 5, November 2, and December 7, 2005.

Time: 8 a.m.-12 noon.

Location: USDA Service Center, 3644 Avtech Parkway, Redding, California.

FOR FURTHER INFORMATION CONTACT:

Michael Odle, Public Affairs Officer and RAC Coordinator, at the Shasta-Trinity National Forest Headquarters, 3644 Avtech Parkway, Redding, CA, 96002. (530) 226-2494 or modle@fs.fed.us.
