

3.07 What Will Happen if a Bidder Requests Less Than Its Apportioned Amount?

Any bidder requesting less than the calculated apportioned volume will receive the amount of its request and

amounts remaining will be reapportioned in accordance with part 3.05 in this Notice.

3.08 Do You Have a Hypothetical Example of How a Non-Allocated Sale Would Be Conducted?

525 MMcf available for total sale with 10 percent available for Non-Allocated Sale (52,500 Mcf).

Bidder—non-allocated sale	Bid volume*	Appointed volume*	Excess volume requested*	Proration percent	Excess apportioned*	Total apportioned*	Amount requested not received*
Refiner C	17,500	13,125	4,375	50%	3,750	16,875	625
Company D	25,000	13,125	11,875	50%	3,750	16,875	8,125
Company E	12,500	12,500	0	0%	0	12,500	0
Company F	6,250	6,250	0	0%	0	6,250	0
Total	61,250	45,000	16,250	100%	7,500	52,500	8,750

*All volumes in MMcf.

In this example, three companies submit a request and there is a carryover amount from one of the Crude Helium Refiners in the Allocated Sale that is considered as a separate request. Each bidder would be apportioned 13,125 Mcf, (i.e., 52,500 Mcf of Non-Allocated Conservation Helium 4 +bidders = 13,250 Mcf per bidder).

After the initial allocation, Companies E and F have received all the helium they requested. However, 7,500 Mcf is deemed excess in the first iteration of the Non-Allocated Sale and reallocated to the two remaining bidders. With the reallocation, Refiner C and Company D each receives an additional 3,750 Mcf. No more helium is available, Refiner C and Company D do not receive all that they requested, and the sale is complete. All percentages used in the calculation will be rounded to the nearest $\frac{1}{10}$ of 1 percent. All volumes calculated will be rounded to the nearest 1 Mcf.
