

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on April 7, 2005 (70 FR 17720 and 17721). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Volunteer Service Application Form.

OMB number: 3095-0060.

Agency form number: NA Form 6045.

Type of review: Regular.

Affected public: Individuals or households.

Estimated number of respondents: 2,300.

Estimated time per response: 15 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 575 hours.

Abstract: NARA uses volunteer resources to enhance its services to the public and to further its mission of providing ready access to essential evidence. Volunteers assist in outreach and public programs and provide technical and research support for administrative, archival, library, and curatorial staff. NARA needs a standard way to recruit volunteers and assess the qualifications of potential volunteers. The NA Form 6045, Volunteer Service Application Form, will be used by members of the public to signal their interest in being a NARA volunteer and

to identify their qualifications for this work.

Dated: September 29, 2005.

Shelly L. Myers,

Deputy Chief Information Officer.

NATIONAL SCIENCE FOUNDATION

Committee on Strategy and Budget (CSB) Meeting

AGENCY HOLDING MEETING: National Science Board.

DATE AND TIME: October 11, 2005, 3 p.m.-3:45 p.m. (ET).

PLACE: National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, Public Meeting Room 220.

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED:

Open Session (3 p.m.-3:45 p.m.)

Discussion of CBS Input to the 2020 Vision for NSF Document.

For information contact: Dr. Michael P. Crosby, Executive Officer and NSB Office Director, (703) 292-7000, <http://www.nsf.gov/nsb>.

Michael P. Crosby,

Executive Officer and NSB Office Director.

NATIONAL SCIENCE FOUNDATION

Proposal Review Panel for Materials Research; Sunshine Act Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463 as amended), the National Science Foundation announces the following meeting:

NAME: Proposal Review Panel for Materials Research #1203.

DATES AND TIMES: November 15, 2005; 7:45 a.m.-9 p.m. (open 7:45-11:45, 12:45-4:30, 6-7; closed 4:30-6); November 16, 2005; 8 a.m.-4 p.m. (open 9-10:15).

PLACE: University of Alabama, Tuscaloosa, AL.

TYPE OF MEETING: Part Open.

CONTACT PERSON: Dr. Ulrich Strom, Program Director, Materials Research Science and Engineering Centers, Division of Materials Research, Room 1065, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, Telephone (703) 292-4938.

PURPOSE OF MEETING: To provide advice and recommendations concerning progress of Materials Research Science and Engineering Center.

AGENDA:

November 15, 2005—Closed to brief site visit panel.

November 16, 2005—Open for Directors overview of Materials Research Science and Engineering Center and presentations. Closed to review and evaluate progress of Materials Research Science and Engineering Center.

REASON FOR CLOSING: The work being reviewed may include information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552 b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: October 4, 2005.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-188]

Kansas State University; Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Kansas State University Nuclear Reactor Facility; Facility License No. R-88 for an Additional 20-Year Period

The Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of Facility License No. R-88, which authorizes the Kansas State University (KSU) (the licensee) to operate the TRIGA Mark II Nuclear Reactor Facility at 1,250 kilowatts thermal power. The renewed license would authorize the applicant to operate the KSU Research Reactor for an additional 20-years beyond the period specified in the current license. The current license for the KSU Research Reactor expired on October 16, 2002.

On September 12, 2002, and supplemented on December 22, 2004 and July 6, 2005, the Commission's staff received an application from KSU filed pursuant to 10 CFR 50.51(a), to renew Facility License No. R-88 for the KSU Research Reactor. A Notice of Receipt and Availability of the license renewal application, "Notice of License Renewal

Application for Facility Operating License; Kansas State University," was published in the **Federal Register** on October 11, 2002 (67 FR 63457). Because the license renewal application was timely filed under 10 CFR 2.109, the license will not be deemed to have expired until the license renewal application has been finally determined.

The Commission's staff has determined that KSU has submitted sufficient information in accordance with 10 CFR 50.33 and 50.34 that the application is acceptable for docketing. The current Docket No. 50-188 for Facility License No. R-88, will be retained. The docketing of the renewal application does not preclude requesting additional information as the review proceeds, nor does it predict whether the Commission will grant or deny the application. Prior to a decision to renew the license, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

Within thirty (30) days after the date of publication of this **Federal Register** Notice, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene with respect to the renewal of the license. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.309, which is available at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852 and is accessible from the Agency Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/doc-collections/cfr>. Persons who do not have access to the NRC web site or who encounter problems in accessing the documents located in the Electronic Reading Room should contact the NRC's PDR reference staff at 1-800-397-4209, or by e-mail at pdr@nrc.gov. If a request for a hearing or a petition for leave to intervene is filed within the 30-day period, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition; and the Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a

notice of a hearing or an appropriate order. In the event that no request for a hearing or petition for leave to intervene is filed within the 30-day period, the NRC may, upon completion of its evaluations and upon making the findings required under 10 CFR parts 50 and 51, renew the license without further notice.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth with the particular interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition must specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the requestor's/petitioner's right under the Atomic Energy Act to be made a party to the proceeding; (2) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any decision or order which may be entered in the proceeding on the requestor's/petitioner's interest. The petition must also set forth the specific contentions which the petitioner/requestor seeks to have litigated at the proceeding.

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the requestor/petitioner shall provide a brief explanation of the bases of each contention and a concise statement of the alleged facts or the expert opinion that supports the contention on which the requestor/petitioner intends to rely in proving the contention at the hearing. The requestor/petitioner must also provide references to those specific sources and documents of which the requestor/petitioner is aware and on which the requestor/petitioner intends to rely to establish those facts or expert opinion. The requestor/petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact.¹ Contentions shall be limited to matters within the scope of the action under consideration. The contention must be one that, if proven, would entitle the requestor/petitioner to relief. A requestor/petitioner who fails to satisfy these requirements with respect

to at least one contention will not be permitted to participate as a party.

Each contention shall be given a separate numeric or alpha designation within one of the following groups:

1. Technical—primarily concerns/issues relating to technical and/or health and safety matters discussed or referenced in the applicant's safety analysis for the KSU Research Reactor license renewal application.

2. Environmental—primarily concerns issues relating to matters discussed or referenced in the Environmental Report for the license renewal application.

3. Miscellaneous—does not fall into one of the categories outlined above.

As specified in 10 CFR 2.309, if two or more requestors/petitioners seek to co-sponsor a contention, the requestors/petitioners shall jointly designate a representative who shall have the authority to act for the requestors/petitioners with respect to that contention. If a requestor/petitioner seeks to adopt the contention of another sponsoring requestor/petitioner, the requestor/petitioner who seeks to adopt the contention must either agree that the sponsoring requestor/petitioner shall act as the representative with respect to that contention, or jointly designate with the sponsoring requestor/petitioner a representative who shall have the authority to act for the requestors/petitioners with respect to that contention.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing. A request for a hearing or a petition for leave to intervene must be filed by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; (2) courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff; (3) E-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, HEARINGDOCKET@NRC.GOV; or

(4) facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemakings and Adjudications Staff at 301-415-1101, verification number is 301-415-1966. A copy of the request for hearing and petition for leave to intervene must also be sent to the Office of the General Counsel, U.S. Nuclear

¹ To the extent that the applications contain attachments and supporting documents that are not publicly available because they are asserted to contain safeguards or proprietary information, petitioners desiring access to this information should contact the applicant or applicants's counsel and discuss the need for a protective order.

Regulatory Commission, Washington, DC 20555-0001, and it is requested that copies be transmitted either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to the licensee. The licensee's contact for this is Mr. P. Michael Whaley, Nuclear Reactor Manager, Kansas State University, 112 Ward Hall, Manhattan, KS 66506-2506.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition, request and/or contentions should be granted based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)-(viii).

Detailed guidance which the NRC uses to review applications for the renewal of non-power reactor licenses can be found in the document NUREG-1537, entitled "Guidelines for Preparing and Reviewing Applications for the Licensing of Non-Power Reactors," can be obtained from the Commission's PDR. The NRC maintains an Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The detailed review guidance (NUREG-1537) may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html> under ADAMS accession number ML042430055 for part one and ML042430048 for part two. Copies of the application to renew the facility license for the KSU Research Reactor are available for public inspection at the Commission's PDR, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, 20855-2738. The initial application also may be accessed through the NRC's Public Electronic Reading Room, at the address mentioned above, under ADAMS accession number ML022630083. The revised application may be accessed under ADAMS accession number ML052620181. Persons who do not have access to ADAMS, or if there are problems in accessing the documents located in ADAMS, may contact the NRC Public Document Room Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 28th day of September 2005.

For the Nuclear Regulatory Commission.

Brian E. Thomas,

Section Chief, Research and Test Reactors Section, New, Research and Test Reactors Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-272 and 50-311]

PSEG Nuclear, LLC; Exelon Generation Company, LLC; Salem Nuclear Generating Station, Unit Nos. 1 and 2; Notice of Partial Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has granted the request of PSEG Nuclear LLC (PSEG), on behalf of PSEG and Exelon Generation Company, LLC (the licensees) to withdraw a portion of its April 15, 2004, application and the August 11, 2004, and August 11, 2005, supplements for proposed amendments to Facility Operating License Nos. DPR-70 and DPR-75 for the Salem Nuclear Generating Station, Unit Nos. 1 and 2, located in Salem County, New Jersey.

One of the proposed changes would have permitted a modification to the Salem, Unit No. 1, containment cooling system. Specifically, PSEG proposed to install a new closed-loop chilled water system to supply cooling water to the containment fan cooling units during normal operation. The emergency containment cooling water system would remain the safety-related source of cooling water for postulated accidents. The request involved changes to the system configuration, revisions to the analysis of containment temperature and pressure following a design-basis event, and associated changes to the Technical Specifications. The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on October 12, 2004 (69 FR 60684). However, by letter dated August 11, 2005, PSEG withdrew the above-referenced proposed change.

For further details with respect to this action, see the application for amendment dated April 15, 2004, as supplemented by letters dated August 11, 2004, and August 11, 2005. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area 01 F21, 11555 Rockville Pike (first floor),

Rockville, Maryland. Publicly-available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 30th day of September 2005.

For the Nuclear Regulatory Commission.

Stewart N. Bailey,

Sr. Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

[FR Doc. E5-5473 Filed 10-5-05; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-220 and 50-410]

Nine Mile Point Nuclear Station, LLC; Nine Mile Point Nuclear Station, Units 1 and 2; Notice of Availability of the Draft Supplement 24 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants, and Public Meeting for the License Renewal of Nine Mile Point Nuclear Station, Units 1 and 2

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC, Commission) has published a draft plant-specific supplement to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, regarding the renewal of operating licenses DPR-63 and NPF-69 for an additional 20 years of operation for the Nine Mile Point Nuclear Station, Units 1 and 2 (Nine Mile Point). Nine Mile Point is located in northern New York on the shore of Lake Ontario, approximately 5 miles northeast of Oswego, New York, 36 miles north-northeast of Syracuse, New York, and 65 miles east of Rochester, New York. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

The draft Supplement 24 to the GEIS is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, or from the NRC's Agencywide Documents
