

information or a trade secret, the submitter may provide a brief description of the new technology for posting on the Web site.

The FSIS New Technology Web site will contain a listing of new technologies for which the Agency, after review, has issued a "No Objection" letter, which states that the Agency does not object to the use of the new technology. The Web site listing will provide the name of the company and a brief summary of the new technology, either provided by the submitting company or prepared by the Agency based on data provided by the submitter. The Web site listing will be updated on a weekly basis, and new technologies posted will remain on the Web site for a period of twelve months.

Once the Agency determines that it has no objection to the use of a proposed new technology, it sends the submitting company a "No Objection" letter. The letter will include the description of the new technology that the Agency intends to post to the Web site. The letter will state that, if the company does not object within five (5) working days from the date it receives the letter, the Agency will post the included description of the technology on the Web site. If the company objects to the description, it should state that it objects to the description, explain the basis for its objection (e.g., proprietary agreement, confidential commercial information, etc.), and provide an alternate description. FSIS will post the alternate description, unless the Agency concludes that the description does not fairly describe the technology. In such a case, FSIS will post the description that it prepared. FSIS will notify the company of its decision.

Paperwork Reduction Act Requirements

FSIS has reviewed the paperwork and recordkeeping requirements in this notice in accordance with the Paperwork Reduction Act (44 U.S.C. 3501–3520). FSIS has previously received approval from the Office of Management and Budget, under control number 0583–0127, to collect the information discussed in this notice. No new paperwork or recordkeeping requirements are being imposed on the industry as a result of this notice.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities, are aware of this notice, FSIS will announce it on-line through

the FSIS Web page located at http://www.fsis.usda.gov/regulations/2005_Notices_Index/. FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to our constituents and stakeholders. The new technology update is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The new technology update is also available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an e-mail subscription service which provides an automatic and customized notification when popular pages are updated, including **Federal Register** publications and related documents. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/ and allows FSIS customers to sign up for subscription options across eight categories. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the option to password protect their account.

Done at Washington, DC on October 14, 2005.

DEPARTMENT OF COMMERCE

Foreign–Trade Zones Board

Order No. 1414

Expansion of Foreign–Trade Zone 222, Montgomery, Alabama, Area

Pursuant to its authority under the Foreign–Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign–Trade Zones Board (the Board) adopts the following Order:

Whereas, the Montgomery Area Chamber of Commerce, grantee of Foreign–Trade Zone 222, submitted an application to the Board for authority to expand FTZ 222 to include two sites at the Airport Industrial Commercial Park

(Site 3 - 1,044 acres) and at the Montgomery County Technology Park (Site 4 - 368 acres) in Montgomery, Alabama, adjacent to the Birmingham Customs port of entry (FTZ Docket 57–2004, filed 12/8/04);

Whereas, notice inviting public comment has been given in the **Federal Register** (69 FR 74492, 12/14/04) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations would be satisfied, and that approval of the application would be in the public interest;

Now, therefore, the Board hereby orders:

The application to expand FTZ 222 is approved, subject to the FTZ Act and the Board's regulations, including Section 400.28, and further subject to the Board's standard 2,000-acre limit for the overall zone project.

Signed at Washington, DC, this 5th day of October 2005.

Joseph A. Spetrini,

Acting Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign–Trade Zones Board.

Attest:

Dennis Puccinelli,

Executive Secretary.

DEPARTMENT OF COMMERCE

Foreign–Trade Zones Board

Order No. 1415

Termination Of Foreign–Trade Subzone 74A, Sparrows Point, Maryland

Pursuant to the authority granted in the Foreign–Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), and the Foreign–Trade Zones Board Regulations (15 CFR Part 400), the Foreign–Trade Zones Board has adopted the following order:

Whereas, on March 14, 1985, the Foreign–Trade Zones Board issued a grant of authority to the City of Baltimore (the City), authorizing the establishment of Foreign–Trade Subzone 74A at the Baltimore Marine Industries Inc. facility, Sparrows Point, Maryland (Board Order 290, 50 FR 13057, 4/2/85);

Whereas, the City advised the Board on December 13, 2004 (FTZ Docket 2–2005), that zone procedures were no longer needed at the facility and

requested voluntary termination of Subzone 74A;

Whereas, the request has been reviewed by the FTZ Staff and Customs officials, and approval has been recommended;

Now, therefore, the Foreign-Trade Zones Board terminates the subzone status of Subzone 74A, effective this date.

Signed at Washington, DC, this 5th day of October 2005.

Joseph A. Spetrini,

Acting Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Attest:

Dennis Puccinelli,

Executive Secretary.

Carbon and Certain Alloy Steel Wire Rod from Indonesia; Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 11, 2005, the U.S. Department of Commerce (the Department) published the preliminary results of administrative review of the antidumping duty order covering carbon and certain alloy steel wire rod from Indonesia. See *Carbon and Certain Alloy Steel Wire Rod from Indonesia; Preliminary Results of Antidumping Duty Administrative Review*, 70 FR 39721 (July 11, 2005) (*Preliminary Results*). The merchandise covered by this order is carbon and certain alloy steel wire rod from Indonesia as described in the "Scope of the Order" section of this notice. The period of review (POR) is October 1, 2003, through September 30, 2004. We invited parties to comment on our *Preliminary Results*. Based on our analysis of the comments received, we made no changes to the margin calculation. Therefore, the final results do not differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled "Final Results of the Review."

EFFECTIVE DATE: October 19, 2005.

FOR FURTHER INFORMATION CONTACT:

Angelica Mendoza or Judy Lao, AD/CVD Operations, Office 7, Import

Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone: (202) 482-3019 or (202) 482-7924, respectively.

SUPPLEMENTARY INFORMATION:

Period of Review

The POR is October 1, 2003, through September 30, 2004.

Background

On July 11, 2005, the Department published in the **Federal Register** its preliminary results for this administrative review. See *Preliminary Results* at 70 FR 39721 (July 11, 2005). We invited parties to comment on the *Preliminary Results*. On August 10, 2005, we received a case brief from respondent, P.T. Ispat Indo (Ispat Indo). We received a rebuttal brief from petitioners, Gerdau Ameristeel U.S. Inc., ISG Georgetown Inc., Keystone Consolidated Industries, Inc., and North Star Steel Texas, Inc., on August 15, 2005. No public hearing was held.

Scope of the Order

The merchandise subject to this order is certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, 5.00 mm or more, but less than 19.00 mm, in solid cross-sectional diameter.

Specifically excluded are steel products possessing the above-noted physical characteristics and meeting the HTSUS definitions for (a) stainless steel; (b) tool steel; (c) high nickel steel; (d) ball bearing steel; and (e) concrete reinforcing bars and rods. Also excluded are (f) free machining steel products (*i.e.*, products that contain by weight one or more of the following elements: 0.03 percent or more of lead, 0.05 percent or more of bismuth, 0.08 percent or more of sulfur, more than 0.04 percent of phosphorus, more than 0.05 percent of selenium, or more than 0.01 percent of tellurium).

Also excluded from the scope are 1080 grade tire cord quality wire rod and 1080 grade tire bead quality wire rod. This grade 1080 tire cord quality wire rod is defined as: (i) grade 1080 tire cord quality wire rod measuring 5.0 mm or more but not more than 6.0 mm in cross-sectional diameter; (ii) with an average partial decarburization of no more than 70 microns in depth (maximum individual 200 microns); (iii) having no non-deformable inclusions greater than 20 microns and no deformable inclusions greater than 35 microns; (iv) having a carbon segregation per heat average of 3.0 or better using European Method NFA 04-

114; (v) having a surface quality with no surface defects of a length greater than 0.15 mm; (vi) capable of being drawn to a diameter of 0.30 mm or less with 3 or fewer breaks per ton, and (vii) containing by weight the following elements in the proportions shown: (1) 0.78 percent or more of carbon, (2) less than 0.01 percent of aluminum, (3) 0.040 percent or less, in the aggregate, of phosphorus and sulfur, (4) 0.006 percent or less of nitrogen, and (5) not more than 0.15 percent, in the aggregate, of copper, nickel and chromium.

This grade 1080 tire bead quality rod is defined as: (i) grade 1080 tire bead quality wire rod measuring 5.5 mm or more but not more than 7.0 mm in cross-sectional diameter; (ii) with an average partial decarburization of no more than 70 microns in depth (maximum individual 200 microns); (iii) having no non-deformable inclusions greater than 20 microns and no deformable inclusions greater than 35 microns; (iv) having a carbon segregation per heat average of 3.0 or better using European Method NFA 04-114; (v) having a surface quality with no surface defects of a length greater than 0.2 mm; (vi) capable of being drawn to a diameter of 0.78 mm or larger with 0.5 or fewer breaks per ton; and (vii) containing by weight the following elements in the proportions shown: (1) 0.78 percent or more of carbon, (2) less than 0.01 percent of soluble aluminum, (3) 0.040 percent or less, in the aggregate, of phosphorus and sulfur, (4) 0.008 percent or less of nitrogen, and (5) either not more than 0.15 percent, in the aggregate, of copper, nickel and chromium (if chromium is not specified), or not more than 0.10 percent in the aggregate of copper and nickel and a chromium content of 0.24 to 0.30 percent (if chromium is specified).

For purposes of the grade 1080 tire cord quality wire rod and the grade 1080 tire bead quality wire rod, an inclusion will be considered to be deformable if its ratio of length (measured along the axis - that is, the direction of rolling - of the rod) over thickness (measured on the same inclusion in a direction perpendicular to the axis of the rod) is equal to or greater than three. The size of an inclusion for purposes of the 20 microns and 35 microns limitations is the measurement of the largest dimension observed on a longitudinal section measured in a direction perpendicular to the axis of the rod. This measurement methodology applies only to inclusions on certain grade 1080 tire cord quality wire rod and certain grade 1080 tire bead quality wire rod that are entered,
