

order on glycine from the People's Republic of China ("PRC") would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing this notice of continuation of this antidumping duty order.

EFFECTIVE DATE: November 15, 2005.

FOR FURTHER INFORMATION CONTACT:

Maureen Flannery, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-3020.

SUPPLEMENTARY INFORMATION:

Background

On June 1, 2005, the Department initiated and the ITC instituted a sunset review of the antidumping duty order on glycine from the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-year ("Sunset") Reviews*, 70 FR 31423 (June 1, 2005), and ITC Investigation No. 731-TA-718 (Second Review), Glycine from China, 70 FR 31534 (June 1, 2005). As a result of its review, the Department found that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping and notified the ITC of the magnitude of the margins likely to prevail were the order to be revoked. See *Glycine from the People's Republic of China; Final Results of the Expedited Sunset Review of the Antidumping Duty Order*, 70 FR 58185 (October 5, 2005). On October 31, 2005, the ITC determined, pursuant to sections 751(c) and 752 of the Act, that revocation of the antidumping duty order on glycine from the PRC would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Scope of the Order

The product covered by the order is glycine, which is a free-flowing crystalline material, like salt or sugar. Glycine is produced at varying levels of purity and is used as a sweetener/taste enhancer, a buffering agent, reabsorbable amino acid, chemical intermediate, and a metal complexing agent. This order covers glycine of all purity levels. Glycine is currently classified under subheading 2922.49.4020 of the Harmonized Tariff Schedule of the United States ("HTSUS"). In a separate scope ruling, the Department determined that D(-) Phenylglycine Ethyl Dane Salt is outside the scope of the order. See *Notice of*

Scope Rulings and Anticircumvention Inquiries, 62 FR 62288 (November 21, 1997). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under the order is dispositive.

Determination

As a result of the determinations by the Department and the ITC that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty order on glycine from the PRC. U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of continuation of this order will be the date of publication in the **Federal Register** of this Notice of Continuation. Pursuant to sections 751(c)(2) and 751(c)(6) of the Act, the Department intends to initiate the next five-year review of this order not later than October 2010.

This five-year (sunset) review and notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: November 7, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-351-828]

Certain Hot-Rolled Carbon Steel Flat Products from Brazil: Notice of Final Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has determined that the antidumping duty administrative review for the period March 1, 2004, through February 28, 2005, of Companhia Siderurgica Nacional (CSN) and Companhia Siderurgica de Tubarao (CST) should be rescinded.

EFFECTIVE DATE: November 15, 2005.

FOR FURTHER INFORMATION CONTACT:

Helen Kramer or Kristin Najdi, Office 7,

AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0405 and (202) 482-8221, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 1, 2005, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Brazil for the period of review (POR) of March 1, 2004, through February 28, 2005. See *Notice of Opportunity to Request Administrative Review of Antidumping Duty Order, Finding or Suspended Investigation*, 70 FR 9918 (March 1, 2005). On March 31, 2005, United States Steel Corporation (USSC) and Nucor Corporation (Nucor), domestic producers of the subject merchandise, made timely requests that the Department conduct an administrative review of CSN and CST. On April 22, 2005, in accordance with section 751(a) of the Tariff Act of 1930 as amended (the Act), the Department published in the **Federal Register** a notice of initiation of this antidumping duty administrative review. See *Notice of Initiation of Antidumping Duty and Countervailing Duty Administrative Reviews*, 70 FR 20862 (April 22, 2005). On April 28, 2005, the Department issued its antidumping duty questionnaire to CSN and CST. Both CSN and CST requested rescission of this administrative review, CSN certifying that there were no shipments or entries of subject merchandise during the POR, and CST certifying that the only shipments or entries it had during the POR were being reviewed by the Department as part of a new shipper review. On October 7, 2005, after conducting an internal customs data query to confirm these certifications, the Department published in the **Federal Register** its notice of intent to rescind this administrative review, and invited comments from interested parties. See *Certain Hot-Rolled Carbon Steel Flat Products from Brazil: Notice of Intent to Rescind Administrative Review*, 70 FR 58680 (October 7, 2005) (*Notice of Intent to Rescind*). The Department did not receive comments from any interested party.

Scope of the Order

For purposes of this order, the products covered are certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor

coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers) regardless of thickness, and in straight lengths, of a thickness less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels

with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this order, regardless of Harmonized Tariff Schedule of the United States (HTSUS) definitions, are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated: 1.80 percent of manganese, or 1.50 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.012 percent of boron, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.41 percent of titanium, or 0.15 percent of vanadium, or 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside and/or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including *e.g.*, ASTM specifications A543, A387, A514, A517, and A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.
- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 1.50 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- Hot-rolled steel coil which meets the following chemical, physical and mechanical specifications:

C	Mn	P	S	Si	Cr	Cu	Ni
0.10– 0.14%	0.90% Max	0.025% Max	0.005% Max	0.30- 0.50%	0.30- 0.50%	0.20- 0.40%	0.20% Max

Width = 44.80 inches maximum;
Thickness = 0.063–0.198 inches; Yield

Strength = 50,000 ksi minimum; Tensile
Strength = 70,000–88,000 psi.

- Hot-rolled steel coil which meets the following chemical, physical and mechanical specifications:

C	Mn	P	S	Si	Cr	Cu	Ni
0.10– 0.16% Mo. 0.21%. Max.	0.70 - 0.90%	0.025% Max	0.006% Max	0.30 - 0.50%	0.30 - 0.50%	0.25% Max	0.20% Max

Width = 44.80 inches maximum;
Thickness = 0.350 inches maximum;

Yield Strength = 80,000 ksi minimum;
Tensile Strength = 105,000 psi Aim.

- Hot-rolled steel coil which meets the following chemical, physical and mechanical specifications:

C	Mn	P	S	Si	Cr	Cu	Ni
0.10– 0.14% V(wt) 0.10% Max	1.30 - 1.80% Cb 0.08% Max	0.025% Max	0.005% Max	0.30 - 0.50%	0.50 - 0.70%	0.20 - 0.40%	0.20% Max

Width = 44.80 inches maximum;
Thickness = 0.350 inches maximum;

Yield Strength = 80,000 ksi minimum;
Tensile Strength = 105,000 psi Aim.

- Hot-rolled steel coil which meets the following chemical, physical and mechanical specifications:

C	Mn	P	S	Si	Cr	Cu	Ni
0.15% Max Nb	1.40% Max Ca	0.025% Max Al	0.010% Max	0.50% Max	1.00% Max	0.50% Max	0.20% Max

C	Mn	P	S	Si	Cr	Cu	Ni
0.005% Min	Treated -	0.01 - 0.70%					

Width = 39.37 inches; Thickness = 0.181 inches maximum; Yield Strength = 70,000 psi minimum for thickness # 0.148 inches and 65,000 psi minimum for "thicknesses" > 0.148 inches; account for 64 FR 38650; Tensile Strength = 80,000 psi minimum.

- Hot-rolled dual phase steel, phase-hardened, primarily with a ferritic-martensitic microstructure, contains 0.9 percent up to and including 1.5 percent silicon by weight, further characterized by either (i) tensile strength between 540 N/mm² and 640 N/mm² and an elongation percentage ≥ 26 percent for thicknesses of 2 mm and above, or (ii) a tensile strength between 590 N/mm² and 690 N/mm² and an elongation percentage ≥ 25 percent for thicknesses of 2 mm and above.

- Hot-rolled bearing quality steel, SAE grade 1050, in coils, with an inclusion rating of 1.0 maximum per ASTM E 45, Method A, with excellent surface quality and chemistry restrictions as follows: 0.012 percent maximum phosphorus, 0.015 percent maximum sulfur, and 0.20 percent maximum residuals including 0.15 percent maximum chromium.

- Grade ASTM A570-50 hot-rolled steel sheet in coils or cut lengths, width of 74 inches (nominal, within ASTM tolerances), thickness of 11 gauge (0.119 inch nominal), mill edge and skin passed, with a minimum copper content of 0.20%.

The merchandise subject to this order is classified in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, 7211.19.75.90, 7212.40.10.00, 7212.40.50.00, 7212.50.00.00. Certain hot-rolled flat-rolled carbon-quality steel covered by this order, including: vacuum degassed, fully stabilized; high

strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers:

7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Although the HTSUS subheadings are provided for convenience and Customs purposes, the written description of the merchandise under this order is dispositive.

Rescission of Administrative Review

On October 7, 2005, the Department published in the **Federal Register** its intent to rescind the administrative review. As noted above, CSN certified that it did not have any shipments or entries of subject merchandise during the POR and CST certified that the only shipments or entries of subject merchandise it had during the POR were being reviewed by the Department as part of a new shipper review of CST for the period March 1, 2004, through August 31, 2004. *See Notice of Intent to Rescind*. The Department conducted an internal customs data query to confirm that CSN had no entries of subject merchandise into the United States during the POR, and that CST had no entries of subject merchandise other than those already being reviewed as part of the new shipper review. The customs data showed no entries of subject merchandise by CSN during the POR, and no additional entries by CST that should be reviewed. We invited interested parties to comment on our intent to rescind the administrative review; no comments were submitted.

Therefore, in accordance with 19 CFR 351.213(d)(3), we are rescinding this review for CSN based on our determination that this company did not have entries of subject merchandise during the POR. Pursuant to 19 CFR 315.214(j), we are rescinding this review for CST because any entries of subject merchandise during the POR are already being reviewed by the Department as part of a new shipper review. This review was requested for only these two companies.

We are issuing this notice in accordance with section 751(a)(1) of the Act and 19 CFR 351.213(d)(4).

Dated: November 8, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

International Trade Administration

[A-427-820]

Notice of Extension of Time Limit for Preliminary Results in Antidumping Duty Administrative Review: Stainless Steel Bar From France

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: November 15, 2005.

FOR FURTHER INFORMATION CONTACT: David Goldberger at (202) 482-4136, or Roberto Facundus at (202) 482-3464, Import Administration, AD/CVD Operations, Office 2, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC, 20230.

SUPPLEMENTARY INFORMATION:

Extension of Time Limits for Preliminary Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), the Department shall make a preliminary determination in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to up to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

The preliminary results of the administrative review of the antidumping duty order on stainless steel bar from France are currently scheduled to be completed on December 1, 2005. However, the Department finds that it is not practicable to complete the preliminary results in this administrative review within this time limit because additional time is needed to fully analyze the complex issues raised in the questionnaire responses and supplemental questionnaire responses submitted by the respondent.
