Polyethylene Terephthalate Film, Sheet and Strip from India: Extension of Time Limit for Final Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: November 15, 2005.

FOR FURTHER INFORMATION CONTACT: Jeff Pedersen or Drew Jackson, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-2769 or (202) 482-4406, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 30, 2004, the Department of Commerce (the Department) published in the **Federal Register** a notice of initiation of an administrative review of the countervailing duty order on polyethylene terephthalate film, sheet and strip from India, covering the period January 1, 2003, through December 31, 2003. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 69 FR 52857 (August 30, 2004).

On August 10, 2005, the Department published in the **Federal Register** the preliminary results of review. See *Notice of Preliminary Results and Rescission in Part of Countervailing Duty Administrative Review: Polyethylene Terephthalate Film, Sheet and Strip From India*, 70 FR 46483 (August 10, 2005). The final results of review are currently due no later than December 8, 2005.

Extension of Time Limit for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination in an administrative review within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245-day time limit for the preliminary determination to a maximum of 365 days and the time limit for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

We have determined that it is not practicable to complete the final results of this review within the original time limit because the Department has required additional time to consider a number of complex issues involving certain sales tax incentive programs. Therefore, the Department is extending the time limit for completion of the final results of review by 60 days. We intend to issue the final results of review no later than February 6, 2006.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: November 8, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Preparation of the Fort Bliss, TX and New Mexico, Mission Master Plan Supplemental Programmatic Environmental Impact Statement

AGENCY: Department of the Army, DOD.

ACTION: Notice of intent.

SUMMARY: This announces the intention of United States Army Installation Management Agency and the Fort Bliss Garrison Command to prepare a Supplemental Programmatic Environmental Impact Statement (SEIS) to analyze the impacts of land use changes in support of Army Transformation, the Army Campaign Plan, and other Army initiatives. The SEIS will supplement the *Fort Bliss, Texas and New Mexico, Mission Master Plan Programmatic Environmental Impact Statement*, for which a Record of Decision was signed in 2001. The proposed action will provide Fort Bliss with greater flexibility in planning and developing training missions and strategies in response to rapidly changing world conditions, Army Transformation initiatives, and long-

term Army planning. The SEIS will evaluate land use changes in the Tularosa Basin portions of McGregor Range and the South Training Areas.

DATES: A Draft SEIS is scheduled for publication on or about June 2006 and a Final SEIS on or about December 2006.

ADDRESSES: Written comments should be forwarded to: John F. Barrera, Attn: SEIS; IMSW-BLS-Z; Fort Bliss, TX 79916-6812; or faxed to (915) 568-3548, or e-mailed at seis@bliss.army.mil.

FOR FURTHER INFORMATION CONTACT: Jean Offutt, Fort Bliss Public Affairs Office; ATZC-CGP; Fort Bliss, Texas, 79916-6812; Tel: (915) 568-4505.

SUPPLEMENTARY INFORMATION: The SEIS will assess the environmental impacts associated with Fort Bliss' response to Army Transformation initiatives and the Army Campaign Plan. Potential impacts or issues of Army Transformation at Fort Bliss were analyzed by the Department of the Army in the 2002 Programmatic EIS for Army Transformation. Implementation of these plans will result in changing land use designations within the Main Cantonment and Biggs Army Airfield, and the lower Tularosa Basin (below Otero Mesa) portions of McGregor Range and the South Training Areas. These changes would provide the capabilities to train additional units and allow off-road maneuvers on the Tularosa Basin portions of McGregor Range. Fort Bliss will maintain current mobilization missions and continue to support joint training objectives.

Besides the No Action Alternative (no change to land use designations and continuance at the current level of operations and activities), the proposed action alternatives will:

(1) Include those activities described in the No Action Alternative, plus changes land use to allow Mission Support Facilities in Training Area (TA) 1B, and off-road maneuver in TA 11, 25, and 29 thru 32; and increased air defense training on Otero Mesa;

(2) include actions of Alternative 1, plus changes land use to also allow off-road maneuvers in TA 10, 11, 29 and the Tularosa Basin portion of TA 12; and

(3) include actions of Alternative 2, plus changes land use to also allow off-road maneuvers and weapons firing in TA 24, 26 and 27.

The SEIS will include evaluation of each alternative's varying personnel and equipment requirements for range and maneuver training; supporting command, training and maintenance facilities, soldier and family housing, schools, infrastructure, utilities and

related facilities. The SEIS will also analyze each alternative's impact upon the natural, cultural, and man-made environments in the west Texas and southern New Mexico region.

Tribes, Federal, state, and local agencies and the public are invited to participate in the scoping process for the preparation of this SEIS. Scoping meetings will be held in convenient locations near the installation. Notification of the times and locations for the scoping meetings will be published in local newspapers. The scoping process will help identify additional possible alternatives, potential environmental impacts, and key issues of concern to be analyzed in the SEIS. To ensure scoping comments are fully considered in the Draft EIS, comments and suggestions should be received within the 30-day scoping period or no later than 15 days following the last scoping meeting, whichever ends last.
