

and international economic policy formulation and for analytical purposes. The information collected in this survey is used to develop the "private remittances" portion of the ITA's. Without this information, an integral component of the ITA's would be omitted. No other Government agency collects comprehensive data on private unilateral transfers of funds to foreign countries.

The survey requests information from U.S. religious, charitable, educational, scientific, and similar organizations on transfers to foreign residents and their expenditures in foreign countries. The information is collected on a quarterly basis from organizations remitting \$1 million or more each year and annually for organizations remitting at least \$25,000 but less than \$1 million each year. Organizations with remittances of less than \$25,000 each year are exempt from reporting. The survey is voluntary.

BEA is proposing a minor revision to Form BE-40 to change "Other International Nations" on the "area/country" list to "Other International Organizations."

II. Method of Collection

Survey forms are mailed to potential respondents in January of each year; respondents expected to file on a quarterly basis are sent multiple copies. Quarterly reports are due 30 days after the close of each calendar or fiscal quarter and annual reports are due 90 days after the close of the calendar or fiscal year. Potential respondents are U.S. religious, charitable, educational, scientific, and similar organizations that voluntarily agree to provide data regarding transfers of cash grants to foreign countries and their expenditures in foreign countries.
