I. Abstract

The "Survey of International Air Travelers" program, administered by the Office of Travel & Tourism Industries (OTTI) of the International Trade Administration, provides the sole source of the data needed to estimate international travel and passenger fare exports and imports, *i.e.*, trade balance, for the United States. This Survey program supports the U.S. Department of Commerce, Bureau of Economic Analysis' (BEA) mandate to collect, analyze and report information used to calculate the Gross Domestic Product (GDP) and the Travel & Tourism Satellite Account for the United States. The Survey program contains the core data that is analyzed and communicated by OTTI with other government agencies, associations and businesses that share the same objective to increase U.S. international travel exports. To assist OTTI assesses the economic impact of international travel on state and local economies, provides visitation estimates, and identifies traveler and trip characteristics. The U.S. Department of Commerce assists travel industry businesses seeking to develop target marketing to increase international travel and passenger fare exports for the country as well as outbound travel. The Survey program provides the only estimates of nonresident visitation to the states and cities within the U.S., as well as U.S. resident travel abroad.
