General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office

(GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

General wage determinations issued under the Davis-Bacon and related Acts are available electronically at no cost on the Government Printing Office site at <http://www.access.gpo.gov/davisbacon>. They are also available electronically by subscription to the Davis-Bacon Online Service (<http://davisbacon.fedworld.gov>) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help desk Support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed in Washington, DC, this 17th day of February, 2005.

Terry Sullivan,

Acting Chief, Branch of Construction Wage Determinations.

BILLING CODE 4510-27-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (05-031)]

National Environmental Policy Act; New Horizons Mission

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of availability of draft environmental impact statement (DEIS) for implementation of the New Horizons mission.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, as

amended (NEPA) (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500-1508), and NASA policy and procedures (14 CFR part 1216 subpart 1216.3), NASA has prepared and issued a DEIS for the New Horizons mission. The DEIS addresses the potential environmental impacts associated with continuing the preparations for and implementing the mission. The purpose of this proposal is to explore Pluto, its moon Charon, and possibly one or more objects within the Kuiper Belt. The New Horizons mission is planned for launch in January-February 2006 from Cape Canaveral Air Force Station (CCAFS), Florida, on an expendable launch vehicle. With a launch in mid January 2006, the New Horizons spacecraft would arrive at Pluto as early as 2015 and would conduct scientific investigations of Pluto and its moon, Charon, as it flies past these bodies. The spacecraft may then continue on an extended mission into the Kuiper Belt, where it would investigate one or more of the objects found there. The spacecraft would require electrical power for normal spacecraft operations and to operate the science instruments. One radioisotope thermoelectric generator (RTG) containing plutonium dioxide would be used for this purpose. A backup launch opportunity could occur in February 2007 with an arrival at Pluto in 2019 or 2020 depending upon the exact date of launch.

DATES: Interested parties are invited to submit comments on environmental concerns on or before April 11, 2005, or 45 days from the date of publication in the **Federal Register** of the U.S. Environmental Protection Agency's notice of availability of the New Horizons DEIS, whichever is later.

ADDRESSES: Comments submitted via first class, registered, or certified mail should be addressed to Kurt Lindstrom, Mail Stop 3K39-A, Mission and Systems Management Division, Science Mission Directorate, NASA Headquarters, Washington, DC 20546-0001. Comments submitted via express mail, a commercial deliverer, or courier service should be addressed to Kurt Lindstrom, Mail Stop 3K39-A, Mission and Systems Management Division, Science Mission Directorate, Attn: Receiving & Inspection (Rear of Building), NASA Headquarters, 300 E Street SW., Washington, DC 20024-3210. While hard copy comments are preferred, comments by electronic mail may be sent to osspluto@hq.nasa.gov.

The DEIS may be reviewed at the following locations:

(a) NASA Headquarters, Library, Room 1J20, 300 E Street, SW., Washington, DC 20546.

(b) The Johns Hopkins University Applied Physics Laboratory, Gibson Library, 11100 Johns Hopkins Road, Laurel, MD 20723-6099.

In addition, the DEIS may be examined at the following NASA locations by contacting the pertinent Freedom of Information Act Office:

(c) NASA, Ames Research Center, Moffett Field, CA 94035 (650-604-1181).

(d) NASA, Dryden Flight Research Center, P.O. Box 273, Edwards, CA 93523 (661-258-3449).

(e) NASA, Glenn Research Center at Lewis Field, 21000 Brookpark Road, Cleveland, OH 44135 (216-433-2755).

(f) NASA, Goddard Space Flight Center, Greenbelt Road, Greenbelt, MD 20771 (301-286-6255).

(g) NASA, Johnson Space Center, Houston, TX 77058 (281-483-8612).

(h) NASA, Kennedy Space Center, FL 32899 (321-867-9280).

(i) NASA, Langley Research Center, Hampton, VA 23681 (757-864-2497).

(j) NASA, Marshall Space Flight Center, Huntsville, AL 35812 (256-544-2030).

(k) NASA, Stennis Space Center, MS 39529 (228-688-2164).

(l) Jet Propulsion Laboratory, Visitors Lobby, Building 249, 4800 Oak Grove Drive, Pasadena, CA 91109 (818-354-5179).

Limited hard copies of the DEIS are available, on a first request basis, by contacting Kurt Lindstrom at the address or telephone number indicated herein. The DEIS is also available in Adobe® portable document format at <http://spacescience.nasa.gov/admin/pubs/plutoeis/index.htm>.

FOR FURTHER INFORMATION CONTACT: Kurt Lindstrom, Mission and Systems Management Division, Science Mission Directorate, NASA Headquarters, Washington, DC 20546-0001, telephone (202) 358-1588, or electronic mail osspluto@hq.nasa.gov.

SUPPLEMENTARY INFORMATION: The purpose of the action addressed in this DEIS is to further our knowledge of Pluto, the outermost known planet of our solar system, and its moon, Charon, and (if possible) the Kuiper Belt. The goal of the New Horizons mission would be to measure the fundamental physical and chemical properties of Pluto and Charon. Specifically, the New Horizons mission would acquire data to address the following primary scientific objectives.

—Characterize the global geology and morphology of Pluto and Charon.

—Map the surface compositions of Pluto and Charon.

—Characterize the neutral (uncharged) atmosphere of Pluto and its rate of escape.

After the Pluto-Charon flyby and data playback is complete, the spacecraft may continue on an extended mission to encounter one or more objects within the Kuiper Belt. The remote science instrumentation planned for Pluto and Charon could also be used for investigations of the Kuiper Belt Objects (KBO).

Pluto is the only major body within our solar system that has not yet been visited by spacecraft. Many of the questions posed about Pluto and Charon can only be addressed by a spacecraft mission that brings advanced instruments close to the two bodies. Scientific knowledge of all other planets and their moons, and thus understanding of the nature of the solar system, has been increased enormously through visits by spacecraft.

The science to be performed at Pluto and Charon is time-critical because of long-term seasonal changes in the surfaces and atmospheres of both bodies. The objectives of surface mapping and surface composition mapping would be significantly compromised as Pluto and Charon recede from the Sun and their polar regions become increasingly hidden in shadow. Furthermore, as Pluto recedes from the Sun, substantial decline, if not complete collapse, of its atmosphere is widely anticipated.

The recent discovery of many objects beyond Neptune in the Kuiper Belt has opened another dimension for this mission of exploration. KBOs, in stable and well-defined orbits that have never taken them close to the Sun, are likely to be remnants of solar system formation and may hold clues to the birth of the planets. Knowledge gained from close examination of objects in the Kuiper Belt would be of great value in developing theoretical models of the evolution and destiny of the solar system.

The proposed action consists of continuing preparations for and implementing the New Horizons mission. The New Horizons spacecraft would be launched on an Atlas V 551 from CCAFS in January–February 2006. This launch opportunity represents the best opportunity for achieving the time-critical science objectives at Pluto and Charon. A backup launch opportunity could occur in February 2007 with arrival at Pluto in 2019 or 2020

depending upon the exact date of launch. Accordingly, the only alternative that was evaluated is the No Action alternative.

For the New Horizons missions, the potentially affected environment for a normal launch includes the area at and in the vicinity of the launch site, CCAFS in Florida. The environmental impacts of a normal launch of the mission for the proposed action would be associated principally with the exhaust emissions from the Atlas V launch vehicle. These effects would include: (1) Short-term impacts on air quality within the exhaust cloud and near the launch pad, and (2) the potential for acidic deposition on the vegetation and surface water bodies at and near the launch complex, particularly if rain occurs shortly after launch.

Potential launch accidents could result in the release of some of the radioactive material on board the spacecraft. The spacecraft would have one RTG that uses plutonium dioxide to provide electrical power. The radioisotope inventory of the RTG would total up to approximately 124,000 curies of plutonium.

The U.S. Department of Energy (DOE), in cooperation with NASA, has performed a risk assessment of potential accidents for the New Horizons mission. This assessment used a methodology refined through applications to the Galileo, Ulysses, Cassini, and Mars Exploration Rover missions, and incorporates results of safety tests on the RTG and an evaluation of the January 17, 1997, Delta II accident at CCAFS. DOE's risk assessment for this mission indicates that in the event of a launch accident the expected impacts of released radioactive material at and in the vicinity of the launch area, and on a global basis, would be small.

NASA will hold public comment meetings during which the public is invited to participate in an open exchange of information and submission of comments on the DEIS. Each public meeting will begin with an opportunity for informal discussions with project personnel, followed by a brief NASA presentation on the New Horizons mission, and conclude with the submission of formal comments, both written and oral. The meetings will be held at the Florida Solar Energy Center, 1679 Clearlake Road, Cocoa, Florida 32922 (parking is free) on the dates and times listed below.

(a) Tuesday, March 29, 2005, beginning at 6 p.m.

(b) Wednesday, March 30, 2005, beginning at 1 p.m.

Further information on the public meetings can be obtained by contacting

Kurt Lindstrom at the address or telephone number indicated herein. Advanced registration for attending either of the meetings is not required.

Jeffrey E. Sutton,

Assistant Administrator for Infrastructure, Management and Headquarters Operations.

BILLING CODE 7510-13-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collections described in this notice. The public is invited to comment on the proposed information collections pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before March 28, 2005 to be assured of consideration.

ADDRESSES: Send comments to Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collections and supporting statements should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on December 16, 2004 (69 FR 75348). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collections are necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d)

ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. In this notice, NARA is soliciting comments concerning the following information collections:

Title: Order Forms for Genealogical Research in the National Archives.

OMB number: 3095-0027.

Agency form numbers: NATF Forms 81, 82, 83, 84, 85, and 86.

Type of review: Regular.

Affected public: Individuals or households.

Estimated number of respondents: 97,600.

Estimated time per response: 10 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 16,267 (rounded up).

Abstract: Submission of requests on a form is necessary to handle in a timely fashion the volume of requests received for these records (approximately 12,000 per year for the NATF 81, approximately 600 per year for the NATF 82, approximately 1,000 per year for the NATF 83, approximately 6,000 per year for the NATF 84, approximately 46,000 per year for the NATF 85, and approximately 32,000 per year for the NATF 86) and the need to obtain specific information from the researcher to search for the records sought. The form is printed on carbonless paper as a multi-part form to allow the researcher to retain a copy of his request and NARA to respond to the researcher on the results of the search or to bill for copies if the researcher wishes to order the copies. As a convenience, the form will allow researchers to provide credit card information to authorize billing and expedited mailing of the copies. You can also use Order Online! (http://www.archives.gov/research_room/obtain_copies/military_and_genealogy_order_forms.html) to complete the forms and order the copies.

Dated: February 17, 2005.

Shelly L. Myers,

Deputy Chief Information Officer.

BILLING CODE 7515-01-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before April 11, 2005. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means: Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001, E-mail: records.mgt@nara.gov, FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Paul M. Wester, Jr., Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-3120. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape,
