

loggerhead (*Caretta caretta*), green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), hawksbill (*Eretmochelys imbricata*) and leatherback (*Dermochelys coriacea*) sea turtles in the waters of the Gulf of Mexico and the Atlantic Ocean off the coast of Florida. The permit holder requests authorization to increase takes to study up to 100 green, 50 Kemp's ridley, 50 hawksbill and 10 leatherback sea turtles annually. A subset of green sea turtles would be examined with magnetic resonance interferometry (MRI), held for 3-4 days and released to determine their level of anthropogenic debris ingestion. Annually, four of each species of green, hawksbill, and Kemp's ridley sea turtles would have temporary transmitters attached to measure movements and dive patterns, would be recaptured after 24 hours to remove the transmitter, and released.

Dated: March 3, 2006.

Patrick Opay,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 030306E]

Marine Mammals; File No. 782-1812

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the NMFS, National Marine Mammal Laboratory (Principal Investigator: Dr. Robert DeLong), Alaska Fisheries Science Center, Seattle, WA has applied in due form for a permit to conduct research on California sea lions (*Zalophus californianus*), northern elephant seals (*Mirounga angustirostris*), harbor seals (*Phoca vitulina*), and northern fur seals (*Callorhinus ursinus*) on the southern California Channel Islands, surrounding waters, and at haul-out sites along the coast of California, Oregon, and Washington.

DATES: Written, telefaxed, or e-mail comments must be received on or before April 10, 2006.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521;

Northwest Region, NMFS, 7600 Sand Point Way NE, BIN C15700, Bldg. 1, Seattle, WA 98115-0700; phone (206)526-6150; fax (206)526-6426; and

Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

Written comments or requests for a public hearing on the application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments on the application may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

In addition, comments on the application may be submitted by e-mail. The mailbox address for providing email comments is NMFS.Pr1Comments@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: File No. 782-1812.

FOR FURTHER INFORMATION CONTACT:

Andrew Wright or Tammy Adams, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 et seq.) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

The applicant, NMML, is requesting permission to conduct the following five research projects on four species of pinnipeds breeding in the California Channel Islands, and hauled-out along the coasts of California, Oregon and Washington: (1) Population and health assessment of California sea lions (CSL); (2) ecology of infectious diseases, environmental toxins, and contaminants in CSL; (3) age- and sex-specific partitioning of resources by CSL, harbor seals (HS), and northern elephant seals (NES); (4) evaluation of antihelminthic treatments on CSL and northern fur seals (NFS); and (5) evaluation of handling methods on CSL pups. The objectives are to: (1) Monitor trends in population parameters and health of

CSL; (2) investigate the roles environmental toxins and contaminants play in the susceptibility to infectious diseases and the development of cancer in CSL; (3) investigate how the environmental factors that influence the foraging ecology of CSL, HS, and NES may affect their foraging distributions; (4) determine if antihelminthic treatments can increase survivorship in CSL and NFS pups; and (5) comparatively evaluate the effects of different combinations of handling techniques. Population assessment of CSL is a continuation of a long-term program designed to meet the needs of the NMFS mandate to monitor population health of pinnipeds. To achieve the objectives of the various research projects, the applicant has requested to harass, capture, sample (blood and various tissues), mark (by dye, flipper tag, neoprene patch, and hot brand), and attach instruments to individuals of all four species, and inject CSL and NFS pups with either an antihelminthic treatment or placebo. Please refer to the tables in the application for details of the numbers of marine mammals that would be affected by the various research activities. The applicant has also requested allowance for a limited number of mortalities of each species per year incidental to the research. The permit would expire 5 years after the date of issuance.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: March 6, 2006.

Stephen L. Leathery,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 120505C]

Large Coastal Shark 2005/2006 Review Workshop

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public workshop.

SUMMARY: NMFS announces the time and location for the large coastal shark (LCS) Review workshop, the last of

three workshops for the LCS stock assessment being conducted in 2005/2006.

DATES: The Review workshop will start at 1 p.m. on Monday, June 5, 2006, and will conclude at 1 p.m. on Friday, June 9, 2006.

ADDRESSES: The Review workshop will be held at the Bay Point Marriott Resort, 4200 Marriott Drive, Panama City Beach, FL 32408.

FOR FURTHER INFORMATION CONTACT: Julie Neer at (850) 234-6541; or Karyl Brewster-Geisz at (301) 713-2347, fax (301) 713-1917.

SUPPLEMENTARY INFORMATION: The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The Fishery Management Plan for Atlantic Highly Migratory Species (HMS FMP) is implemented by regulations at 50 CFR part 635.

Stock assessments are periodically conducted to determine stock status relative to current management criteria. Collecting the best available scientific data and conducting stock assessments are critical to determine appropriate management measures for rebuilding stocks. Based on the last LCS stock assessment in 2002, NMFS determined that the LCS complex is overfished and overfishing is occurring. LCS are currently under a 26-year rebuilding plan. Potential changes to existing management measures will be based, in large part, on the results of this 2005/2006 stock assessment.

This assessment will be conducted in a manner similar to the Southeast Data, Assessment, and Review (SEDAR) process. SEDAR is a cooperative process initiated in 2002 to improve the quality and reliability of fishery stock assessments in the South Atlantic, Gulf of Mexico, and U.S. Caribbean. SEDAR emphasizes constituent and stakeholder participation in assessment development, transparency in the assessment process, and a rigorous and independent scientific review of completed stock assessments. SEDAR is organized around three workshops. The first workshop is a Data workshop where datasets are documented, analyzed, reviewed, and compiled for conducting assessment analyses. This workshop was held from October 31 through November 4, 2005, in Panama City, FL. The second workshop is an Assessment workshop where quantitative population analyses are developed and refined and population parameters are estimated. This workshop was held from February 6 through February 10, 2006, in Miami,

FL. The last workshop is a Review workshop where a panel of independent experts reviews the data and assessment and recommends the most appropriate values of critical population and management quantities. All workshops are open to the public. More information on the SEDAR process can be found at <http://www.sefsc.noaa.gov/sedar/>.

NMFS announces the Review workshop, the last of three workshops for the LCS 2005/2006 stock assessment, which will be held from June 5 through June 9, 2006, at the Bay Point Marriott Resort in Panama City Beach, FL (see **DATES** and **ADDRESSES**). Prospective participants and observers will be contacted with the Review workshop details. This workshop is open to the public. Persons interested in participating or observing the Review workshop should contact Julie Neer (see **FOR FURTHER INFORMATION CONTACT**).

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Julie Neer at (850) 234-6541 by May 29, 2006.

Authority: 16 U.S.C. 971 *et seq.*

Dated: March 3, 2006.

Alan D. Risenhoover,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.
SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 10, 2006.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Rachel Potter, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, *e.g.* new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: March 3, 2006.

Angela C. Arrington,
IC Clearance Official, Regulatory Information Management Services, Office of the Chief Information Officer.

Institute of Education Sciences

Type of Review: Revision.

Title: PEQIS Survey on Educational Technology and Teacher Education Programs for Initial Licensure.

Frequency: One time.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 2,500.

Burden Hours: 1,250.

Abstract: The Quick Response Information System consists of two survey system components—Fast Response Survey System for schools, districts, libraries and the Postsecondary Education Quick Information System for postsecondary institutions. This survey will go to 2,500 Title 4 degree-granting institutions. It is intended to collect information about how future teachers are being prepared to integrate educational technology into their classrooms. The survey will also collect information about barriers to the ability of programs to integrate educational technology into the teacher training.

Requests for copies of the information collection submission for OMB review may be accessed from <http://>
