# Corrections

Federal Register

Vol. 71, No. 46

Thursday, March 9, 2006

---

This section of the FEDERAL REGISTER contains editorial corrections of previously published Presidential, Rule, Proposed Rule, and Notice documents. These corrections are prepared by the Office of the Federal Register. Agency prepared corrections are issued as signed documents and appear in the appropriate document categories elsewhere in the issue.

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### **Notice of Inventory Completion: David Phelps Archaeology Laboratory of East Carolina University, University of Greenville, NC**

##### *Correction*

In notice document 06-1628 beginning on page 9372 in the issue of Thursday, February 23, 2006, make the following correction:

On page 9372, in the first column, after the second full paragraph beginning with the words "In 1971", insert the following two paragraphs:  
"Based on archeological evidence, the human remains have been determined

to be Native American. Based on geographic placement, there are reasonable grounds to believe that the human remains are culturally affiliated with the Tuscarora Nation of New York.

In 1971, human remains representing a minimum of one individual were removed from site 31BR13, Bertie County, NC, during a cultural resource management survey conducted by East Carolina University professional staff. The human remains were fragmented. No known individual was identified. No associated funerary objects are present."
