

Purchase From People Who Are Blind or Severely Disabled published notice (71 FR 2181) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and services and impact of the additions on the current or most recent contractors, the Committee has determined that the product and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the product and services to the Government.
2. The action will result in authorizing small entities to furnish the product and services to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the product and services proposed for addition to the Procurement List.

End of Certification

Accordingly, the following product and services are added to the Procurement List:

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Quarterly Survey of State and Local Government Tax Revenue.

Form Number(s): F–71, F–72, F–73.

Agency Approval Number: 0607–0112.

Type of Request: Extension of a currently approved collection.

Burden: 5,661 hours.

Number of Respondents: 5,610.

Avg Hours Per Response: F–71 & F–73—15 minutes; F–72—30 minutes.

Needs and Uses: The Census Bureau requests an extension of the current expiration date of the Quarterly Survey of State and Local Government Tax Revenue to ensure accurate collection of information about state and local government tax collections. These tax collections, amounting to nearly \$900 billion annually, constitute almost one-half of all governmental revenues. Quarterly measurement of, and reporting on, these massive fund flows provides valuable insight into trends in the national economy and that of individual states. Information collected on the type and quantity of taxes collected gives comparative data on how the various levels of government fund their public sector obligations. These data are included in the quarterly estimates of National Income and Product Accounts developed by the Bureau of Economic Analysis and are widely used by state revenue and tax officials, academicians, media representatives, and others.

The Census Bureau uses the three information collection forms to collect state and local government tax data for this long established data series. The Bureau of Economic Analysis, the Federal Reserve Board, the Department of Treasury, and others rely on these data to provide the most current information on the financial status of state and local governments.

Legislators, policy makers, administrators, analysts, economists, and researchers use the data to monitor trends in public sector revenues. Journalists, teachers, and students use the data as well.

Tax collection data are used to measure economic activity for the Nation as a whole, as well as for comparison among the various states. These data are also useful in comparing the mix of taxes employed by individual states, and in determining the revenue raising capacity of different types of states.

Affected Public: State, Local or Tribal Government.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., section 182.

OMB Desk Officer: Susan Schechter, (202) 395–5103.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482–0266, Department of Commerce, room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at

dhynek@doc.gov). Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer either by fax (202–395–7245) or e-mail (susan_schechter@omb.eop.gov).

Dated: March 6, 2006.

Management Analyst, Departmental Paperwork Clearance Officer.

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Current Population Survey, June 2006 Fertility Supplement.

Form Number(s): None.

Agency Approval Number: 0607–0610.

Type of Request: Reinstatement, with change.

Burden: 250 hours.

Number of Respondents: 30,000.

Avg. Hours per Response: 30 seconds.

Needs and Uses: The Census Bureau requests Office of Management and Budget (OMB) clearance for the Current Population Survey (CPS) Fertility Supplement. This supplement continues the fertility data series that has been asked periodically since 1971. The fertility questions will be asked of females 15–44 years of age. The June 2004 Fertility Supplement, like the June 2004 Fertility Supplement, differs from the June 1998 and the June 1995 supplements because it only includes fertility items. The 1998 supplement contained fertility and birth expectations items. The 1995 supplement contained fertility and marital history items. The data collected from this supplement are used primarily by government and private analysts to project future population growth, to analyze childbearing patterns, and to assist policymakers in making decisions that are affected by changes in family size and composition. Past studies have documented profound changes to historical patterns that have occurred in fertility rates, family structures, premarital births, and the timing of the first birth. The CPS characteristics, such as family income, household relationships, and part- or full-time
