2005. In this Notice, the FAA
announced the availability of and
requested comments on a proposed AC
which sets forth an acceptable means,
but not the only means, of
demonstrating compliance with the
provisions of the airworthiness
standards in a Notice of Proposed
Rulemaking published on November 23,
2005. The comment period for this
Notice closes on the same day as the
comment period for the NPRM (March
23, 2006). The extension of the Notice's
comment period is a result of an
extension of the NPRM's comment
period.

Background

On November 18, 2005, we issued a
Notice of availability of proposed AC
25.981-2A, Fuel Tank Flammability,
and request for comments (70 FR 71365;
November 28, 2005). This Notice
announced the availability of and
requested comments on a proposed AC
which sets forth an acceptable means,
but not the only means, of
demonstrating compliance with the
provisions of the airworthiness
standards in that Notice of Proposed
Rulemaking (NPRM) entitled
"Reduction of Fuel Tank Flammability
in Transport Category Airplanes" (70 FR
70922, November 23, 2005). The
comment periods for the NPRM and the
proposed AC both end on March 23,
2006. The FAA received requests from
a number of entities to extend the
comment period on the NPRM to allow
public comment on new information
that has recently been placed in the
public docket. Based on these requests
and our belief that additional requests
for extensions will be filed shortly, we
determined it would be appropriate to
extend the comment period on the
NPRM by 45 days. Since the proposed
AC is associated with the NPRM, we
want their comment period closing
dates to be the same. Therefore, we need
to extend the comment period for the
proposed AC by 45 days to be
consistent. Absent unusual
circumstances, we do not anticipate any
further extension of the comment period
for the proposed AC.

The extension of the comment period
for the NPRM is being published
concurrently with this extension.

Extension of Comment Period

The FAA finds that an extension of
the comment period for the Notice of
availability of proposed AC 25.981-2A,
Fuel Tank Flammability, and request for
comments is consistent with the public
interest, and that good cause exists for
taking this action.

Accordingly, the comment period for
the Notice of availability of proposed
AC 25.981-2A, Fuel Tank Flammability,
and request for comments is extended
until May 8, 2006.

Issued in Washington, DC on March 14,
2006.

John J. Hickey,

Director, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Public Notice for Waiver of
Aeronautical Land-Use Assurance;
Faribault Municipal Airport; Faribault
Minnesota**

AGENCY: Federal Aviation
Administration, DOT.

ACTION: Notice of intent of waiver with
respect to land.

SUMMARY: The Federal Aviation
Administration (FAA) is considering a
proposal to authorize the release of a
portion of the airport property. The City
of Faribault, MN is proposing to release
for sale 29.72 acres of existing airport
land for the development of an Army
Reserve and Minnesota National Guard
Readiness Center. The acreage being
released is not needed for aeronautical
use as currently identified on the
Airport Layout Plan.

The acreage comprising this parcel
was originally acquired with local funds
in 1944 and 1945. The City of Faribault
(Minnesota), as airport owner, has
concluded that the subject airport is not
needed for expansion of airport
facilities. There are no impacts to the
airport by allowing the airport to
dispose of the property. The appraised
value is \$830,000 and the Airport will
receive that amount. Approval does not
constitute a commitment by the FAA to
financially assist in the disposal of the
subject airport property nor a
determination of eligibility for grant-in-
aid funding from the FAA. The
disposition of proceeds from the
disposal of the airport property will be
in accordance with FAA's Policy and
Procedures Concerning the Use of
Airport Revenue, published in the
Federal Register on February 16, 1999.

In accordance with section 47107(h) of title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

DATES: Comments must be received on or before April 20, 2006.

FOR FURTHER INFORMATION CONTACT: Ms. Sandra E. DePottey, Program Manager, Federal Aviation Administration, Airports, District Office, 6020 28th Avenue South, Room 102, Minneapolis, MN 55450-2706. Documents reflecting this FAA action may be reviewed at this same location or at the Faribault City Hall Airport, 208 First Avenue, NW., Faribault, MN 55021.

SUPPLEMENTARY INFORMATION: Following is a legal description of the subject airport property to be released at Faribault Municipal Airport in Faribault, MN and described as follows:

Notice of Intent To Rule on Request To Release Airport Land at Sedona Airport, Sedona, AZ

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of request to release airport land.

SUMMARY: The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the release of approximately 16 acres of

airport property at Sedona Airport, Sedona, Arizona from the airport-use restrictions of conveyance deed dated October 31, 1996. The purpose of the release is to authorize leasing of the property at fair market value in order to permit the airport to earn revenue from non-aviation uses of the airport land.

DATES: Comments must be received on or before April 20, 2006.

ADDRESSES: Comments about this Notice may be mailed or delivered to the FAA at the following address: Federal Aviation Administration, Airports Division, Federal Register Comment, 15000 Aviation Blvd., Lawndale, CA 90261. In addition, one copy of the comments submitted to the FAA must be mailed or delivered to Edward "Mac" McCall, General Manager, Sedona Airport Administration, 235 Air Terminal Drive, Unit 1, Sedona, Arizona 86336, telephone (928) 282-4487.

FOR FURTHER INFORMATION CONTACT: Tony Garcia, Airports Compliance Specialist, Federal Aviation Administration, Airports Division, 15000 Aviation Blvd., Lawndale, CA 90261, telephone (310) 725-3634 and fax (310) 725-6849. The request to release airport property may be reviewed in person by appointment at the FAA Airports Division office or at Sedona Airport Administration office.

SUPPLEMENTARY INFORMATION: In accordance with the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR 21), Public Law 10-181 (Apr. 5, 2000; 114 Stat. 61), this notice must be published in the Federal Register 10 days before the Secretary of Transportation may waive any condition imposed on a Federally obligated airport.

The following is a brief overview of the request: Yavapai County (County) requested a release from the obligations contained in the conveyance deed for approximately 16 acres of airport land at Sedona Airport, Sedona, Arizona, originally acquired from the United States for airport purposes under the provisions of the Federal Airport Act of 1946. The land occupies two parcels that are located on the north side of the airport adjacent to Airport Road and Shrine Road. The property is currently occupied by the Sky Ranch Lodge and the Red Rock Memorial Lodge under the terms of a lease with the County and airport. The County wishes to be released from the obligation requiring that the land be used exclusively for airport purposes. The property is not being used for airport purposes and Section 749 of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century, Public Law 106-181,

has authorized the Secretary of Transportation to release the land from its airport use obligation so it can continue to be leased for non-aviation purposes. The release will permit the airport to continue earning revenue from non-aviation uses based on the fair market value of the property. The lease proceeds will be used for airport purposes and assist in making the airport as self-sustaining as possible.

Issued in Hawthorne, California, on February 24, 2006.

George Allen,

Manager, Safety and Standards Branch, Federal Aviation Administration, Western-Pacific Region.
