Location: Holiday Inn, Walker/Whetstone Rm., Two Montgomery Village Ave., Gaithersburg, MD.

Agenda: This joint committee will review and discuss peer-reviewed scientific literature on dental amalgam devices. Dental amalgam, also called "encapsulated amalgam," consists of dental mercury and amalgam alloys. This joint committee will review and discuss peer-reviewed scientific literature on dental amalgam and its potential mercury toxicity, specifically as it relates to neurotoxic effects. Certain consumer groups have raised concerns about the effects of using mercury as a component of dental restorative materials; therefore, we are combining the expertise of the Dental Products Panel of the Medical Device Advisory Committee with the neurology expertise of the Peripheral and Central Nervous System Drugs Advisory Committee.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by August 23, 2006. On September 6 and 7, 2006, oral presentations from the public will be scheduled at the beginning of committee deliberations and near the end of the deliberations. Time allotted for each presentation may be limited. Those

desiring to make formal oral presentations should submit written notification to the contact person by August 23, 2006, and include the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.
