#### Approval and Promulgation of Implementation Plans: Revisions to the Tennessee Nitrogen Oxides Budget and Allowance Trading Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve two State Implementation Plan (SIP) revisions to the Tennessee Department of Environment and Conservation's Nitrogen Oxides (NO<sub>x</sub>) Budget Trading Program (Trading Program) submitted October 27, 2003, and December 10, 2003, by the State of Tennessee. The first revision corrects a miscalculation in Tennessee's NO<sub>x</sub> trading budget for non-electric generating units (non-EGUs) resulting from the use of an incorrect control efficiency percentage for one of the Trading Program's non-EGU sources—an Eastman Chemical Company boiler. The correction of this miscalculation results in a 147 tons per season (tps) increase in Tennessee's NO<sub>x</sub> trading budget for non-EGUs—making its non-EGU trading budget 5,666 tps, instead of 5,519 tps, and increasing Tennessee's total State-wide NO<sub>x</sub> budget from 163,928 tpy to 164,075 tpy. Based on this correction, Tennessee's second revision reallocates trading allowances to Eastman Chemical Company—increasing the NO<sub>x</sub> trading allowances from 416 tps to 549 tps for the Eastman Chemical Company boiler.

In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revisions as a direct final rule without prior proposal because the Agency views these as noncontroversial

submittals and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
