Joseph Nick, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406, telephone (610) 337-5056, fax (610) 337-5269; or by e-mail: [JLN@nrc.gov](mailto:JLN@nrc.gov).

**SUPPLEMENTARY INFORMATION:****I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to DGI Biotechnologies, LLC (DGI) for Materials License No. 29-30389-01, to authorize release of its facility in Edison, New Jersey for unrestricted use and terminate the license. NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

**II. EA Summary**

The purpose of the proposed action is to authorize the release of the licensee's Edison, New Jersey facility for unrestricted use and terminate the license. DGI was authorized by NRC from 1997 to use radioactive materials for research and development purposes at the site. In 2003, DGI ceased operations with licensed materials at the Edison site and the DGI facility was taken over by Antyra, Inc. (Antyra). On September 28, 2005, Antyra requested that NRC release the facility for unrestricted use. Antyra has conducted surveys of the facility and provided information to the NRC to demonstrate that the site meets the license termination criteria in subpart E of 10 CFR part 20 for unrestricted release.

The NRC staff has prepared an EA in support of the license amendment. The facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final

status survey submitted by Antyra. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in subpart E of 10 CFR part 20, a Finding of No Significant Impact is appropriate.

**III. Finding of No Significant Impact**

The staff has prepared the EA (summarized above) in support of the license amendment to terminate the license and release the facility for unrestricted use. The NRC staff has evaluated Antyra's request and the results of the surveys and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has found that the radiological environmental impacts from the action are bounded by the impacts evaluated by NUREG-1496, Volumes 1-3, "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (ML042310492, ML042320379, and ML042330385). Additionally, no non-radiological or cumulative impacts were identified. On the basis of the EA, the NRC has concluded that there are no significant environmental impacts from the proposed action, and has determined not to prepare an environmental impact statement for the proposed action.

**SUPPLEMENTARY INFORMATION:**

(a) *Background:* The purpose of the Panel is to provide independent advice and recommendations to the Office of Federal Procurement Policy and Congress pursuant to Section 1423 of the Services Acquisition Reform Act of 2003. The Panel's statutory charter is to review Federal contracting laws, regulations, and governmentwide policies, including the use of commercial practices, performance-based contracting, performance of acquisition functions across agency lines of responsibility, and governmentwide contracts. Interested parties are invited to attend the meetings. Opportunity for public comments will be provided at the meetings. Any change will be announced in the **Federal Register**.

*All Meetings*—While the Panel may hear from additional invited speakers, the focus of these meetings will be discussions of and voting on working group findings and recommendations from selected working groups, established at the February 28, 2005 and May 17, 2005 public meetings of the AAP (see <http://acquisition.gov/comp/aap/index.html> for a list of working groups). The Panel welcomes oral public comments at these meetings and has reserved one-half hour for this purpose at each meeting. Members of the public wishing to address the Panel during the meeting must contact Mr. Monette, in writing, as soon as possible to reserve time (see contact information above).

(b) *Posting of Draft Reports:* Members of the public are encouraged to regularly visit the Panel's web site for draft reports. Currently, the working groups

are staggering the posting of various sections of their draft reports at <http://acquisition.gov/comp/aap/index.html> under the link for "Working Group Reports." The most recent posting is from the Commercial Practices Working Group. The public is encouraged to submit written comments on any and all draft reports.

(c) *Adopted Recommendations:* The Panel has adopted recommendations presented by the Small Business, Interagency Contracting, and Performance-Based Acquisition Working Groups as of the date of this notice. While additional recommendations from some of these working groups are likely and adopted recommendations from other working groups will be posted as recommendations are adopted, the public is encouraged to review and comment on the recommendations adopted by the Panel to date by going to <http://acquisition.gov/comp/aap/index.html> and selecting the link for "Panel Recommendations To Date."

(d) *Availability of Meeting Materials:* Please see the Panel's Web site for any available materials, including draft agendas and minutes. Questions/issues of particular interest to the Panel are also available to the public on this Web site on its front page, including "Questions for Government Buying Agencies," "Questions for Contractors that Sell Commercial Goods or Services to the Government," "Questions for Commercial Organizations," and an issue raised by one Panel member regarding the rules of interpretation and performance of contracts and liabilities of the parties entitled "Revised Commercial Practices Proposal for Public Comment." The Panel encourages the public to address any of these questions/issues when presenting either oral public comments or written statements to the Panel.

(e) *Procedures for Providing Public Comments:* It is the policy of the Panel to accept written public comments of any length, and to accommodate oral public comments whenever possible. The Panel Staff expects that public statements presented at Panel meetings will be focused on the Panel's statutory charter and working group topics, and not be repetitive of previously submitted oral or written statements, and that comments will be relevant to the issues under discussion.

*Oral Comments:* Speaking times will be confirmed by Panel staff on a "first-come/first-served" basis. To accommodate as many speakers as possible, oral public comments must be no longer than 10 minutes. Because Panel members may ask questions,

reserved times will be approximate. Interested parties must contact Mr. Emile Monette, in writing (via mail, e-mail, or fax identified above for Mr. Monette) at least one week prior to the meeting in order to be placed on the public speaker list for the meeting. Oral requests for speaking time will not be taken. Speakers are requested to bring extra copies of their comments and/or presentation slides for distribution to the Panel at the meeting. Speakers wishing to use a Power Point presentation must e-mail the presentation to Mr. Monette one week in advance of the meeting.

*Written Comments:* Although written comments are accepted until the date of the meeting (unless otherwise stated), written comments should be received by the Panel Staff at least one week prior to the meeting date so that the comments may be made available to the Panel for their consideration prior to the meeting. Written comments should be supplied to the DFO at the address/contact information given in this FR Notice in one of the following formats (Adobe Acrobat, WordPerfect, Word, or Rich Text files, in IBM-PC/Windows 98/2000/XP format).

**Please note:** Because the Panel operates under the provisions of the Federal Advisory Committee Act, as amended, all public presentations will be treated as public documents and will be made available for public inspection, up to and including being posted on the Panel's Web site.

(f) *Meeting Accommodations:* Individuals requiring special accommodation to access the public meetings listed above should contact Ms. Auletta at least five business days prior to the meeting so that appropriate arrangements can be made.
