

TABLE 2.—ACECS AND RNAS PROPOSED UNDER ALTERNATIVE D (PREFERRED ALTERNATIVE)

Name of area	Acreage	Resource use limitations
Nulato Hills ACEC	1.1 million	Limited OHV designation; Retained in Federal ownership; Closed to grazing outside of existing allotments; ROW avoidance area; FLPMA and R&PP leases not allowed; Open to fluid mineral leasing subject to minor constraints.
Western Arctic Caribou Herd calving and insect relief ACEC.	2.9 million	Same as Nulato Hills except it would not be designated as a ROW avoidance area.
Inglutalik Watershed ACEC	466,000	Same as Nulato Hills except there would be a 300-foot no surface occupancy setback for leasable minerals on the mainstem river and it would not be a ROW avoidance area.
Ungalik Watershed ACEC	264,000	Same as the Inglutalik Watershed ACEC with the addition of: A 300-foot setback on the Ungalik River would be withdrawn from locatable mineral entry.
Shaktolik Watershed ACEC	234,000	Same as the Inglutalik Watershed ACEC.
Mount Osborn RNA	84,000	Same as Nulato Hills except: It would be withdrawn from locatable mineral entry; Communication site ROWs would be limited to existing sites; the level of commercial recreational use may be limited; and it would be open to grazing.

Final acreage for areas designated as ACECs would also depend on the result of land conveyance to the State of Alaska and Native Corporations.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Program for Renewable Energy and Alternate Use of Existing Structures on the Outer Continental Shelf

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of Intent (NOI) to prepare a programmatic environmental impact statement (EIS) and scoping meetings.

1. Authority

The Notice of Intent (NOI) and notice of scoping meetings is published pursuant to the regulations (40 CFR 1501.7) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*).

2. Purpose of Notice of Intent

Pursuant to the regulations implementing the procedural provisions of the NEPA, the Minerals Management Service (MMS) is announcing its intent to prepare a programmatic EIS for the National Offshore Alternate Energy-Related Use (AERU) Program and Rule as authorized by the Energy Policy Act of 2005. The NOI also serves to announce the scoping process for this programmatic EIS. Throughout the scoping process, Federal, State, and local government agencies, and other interested parties have the opportunity to advise MMS in determining the significant issues, alternatives, and mitigation measures to be considered for analysis in the programmatic EIS. The programmatic EIS analysis will focus on the potential environmental effects of implementing the AERU program, and associated rulemaking.

3. Cooperating Agency

The MMS invites other Federal agencies and State, tribal, and local governments to consider becoming cooperating agencies in the preparation of the programmatic EIS. We invite qualified government entities to inquire about cooperating agency status for the EIS. Following the guidelines from the Council of Environmental Quality (CEQ), qualified agencies and governments are those with "jurisdiction by law or special expertise." Potential cooperating agencies should consider their authority

and capacity to assume the responsibilities of a cooperating agency and to remember that an agency's role in the environmental analysis neither enlarges nor diminishes the final decision making authority of any other agency involved in the NEPA process. Upon request, the MMS will provide potential cooperating agencies with a written summary of ground rules for cooperating agencies, including time schedules and critical action dates, milestones, responsibilities, scope and detail of cooperating agencies' contributions, and availability of pre-decisional information. The MMS anticipates this summary will form the basis for understanding between the MMS and each cooperating agency. Agencies should also consider the "Factors for Determining Cooperating Agency Status" in Attachment 1 to CEQ's January 30, 2002, Memorandum for the Heads of Federal Agencies: Cooperating Agencies in Implementing the Procedural Requirements of the National Environmental Policy Act. A copy of this document is available at: <http://ceq.eh.doe.gov/nepa/regs/cooperating/cooperatingagenciesmemorandum.html> and <http://ceq.eh.doe.gov/nepa/regs/cooperating/cooperatingagencyfactors.html>. The MMS, as the lead agency, will not provide financial assistance to cooperating agencies. Even if an organization is not a cooperating agency, opportunities will exist to provide information and comments to MMS during the normal public input phases of the NEPA/EIS process. If further information about cooperating agencies is needed, please contact Mr. James F. Bennett at (703) 787-1660.

4. Comments

Federal, State, tribal, local government agencies, and other interested parties are requested to provide comments on the scope of the programmatic EIS, significant issues that should be addressed, and alternatives that should be considered in one of the following three ways:

1. Electronically, using the online comment form available on the project Web site: ocsenergy.anl.gov. This is the preferred method for commenting.

2. In written form, mailed or delivered to MMS Renewable Energy and Alternate Use Programmatic EIS Scoping, Argonne National Laboratory, 9700 S. Cass Avenue, Argonne, IL 60439.

3. In person, at public scoping meetings to be held in multiple locations in May and June, 2006 (see below).
