

Forms(s): Electronic enrollment application; satisfaction survey.

Affected Public: Applicants to the RT Program and lead stakeholders.

Abstract: TSA is continuing the ongoing Registered Traveler (RT) Pilot Program at one airport, which is already approved by OMB, to test and evaluate specific technologies and business processes related to the RT concept. In addition, TSA will expand the current pilot to additional locations and incorporate a public/private partnership. TSA, through its partnership with Sponsoring Entities, who under contract to TSA, will collect and retain, from their private-sector central information management system, personal information on individuals who volunteer to participate in the program. This will allow TSA to complete name-based security threat assessments and issue an RT card to volunteers. In addition, TSA will administer two instruments to measure satisfaction of RT pilot participants and key stakeholders.

For the purpose of continuing metrics analysis, testing interoperability of systems, and testing the private/public model of operations, TSA is seeking emergency processing of this request in order to begin collecting information in June 2006. TSA Assistant Secretary Kip Hawley testified to Congress that TSA would be ready to allow eligible participants to enroll in the RT Program beginning June 20, 2006. In addition, TSA is seeking emergency processing of this request in order to meet the expectations of our stakeholders, partners, and members of the traveling public. Based on these initial programs, TSA may then consider an expansion of the RT Program.

Number of Respondents: 400,100.

Estimated Annual Burden Hours: An estimated 156,040 hours annually.

Issued in Arlington, Virginia, on May 24, 2006.

DEPARTMENT OF THE INTERIOR

Geological Survey

Request for Public Comments on Extension of Existing Information Collection Submitted to OMB for Review Under the Paperwork Reduction Act

The U.S. Geological Survey (USGS) received emergency approval from the Office of Management and Budget (OMB) for an information collection in use without an OMB control number. The request extending the information

collection described below was submitted to OMB for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). Copies of the proposed collection of information and related forms may be obtained by contacting the USGS Clearance Officer at the phone number listed below. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days; therefore, public comments should be submitted to OMB within 30 days in order to assure their maximum consideration. Address your comments and suggestions on the proposal by fax (202) 395-6566 or e-mail (oir_docket@omb.eop.gov) to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for the Interior Department. Please also send a copy of your comments to Nancy Faries, U.S. Geological Survey, 12201 Sunrise Valley Drive MS 807, Reston, VA 20192-0002, or e-mail (nfaries@usgs.gov).

As required by OMB regulations at 5 CFR 1320.8(d)(1), the USGS solicits specific public comments as to:

1. Whether the collection of information is necessary for the proper performance of the functions of the bureaus, including whether the information will have practical utility;

2. The accuracy of the bureau's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

3. The quality, utility, and clarity of the information to be collected and;

4. How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Title: Bird Banding.

OMB Control No.: 1028-0082.

Summary: In accordance with the Migratory Bird Treaty Act, 16 U.S.C. 703-712, the trapping and marking of wild migratory birds by persons holding Federal permits must be monitored. Formerly managed by the U.S. Fish and Wildlife Service, the bird banding program is now the responsibility of the USGS Bird Banding Laboratory (BBL). This bird banding monitoring program involves information collections on three forms: (1) The Application for Federal Bird Marking and Salvage Permit; (2) The Bird Banding Recovery Report; and (3) The Bird Banding Schedule. The information on the Recovery Report may also be submitted electronically at the BBL Web site or via a toll-free telephone number. This program also assists the Fish and Wildlife Service in fulfillment of its
