## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

#### 33 CFR Part 100

[CGD05-06-068]

RIN 1625-AA08

#### Special Local Regulations for Marine Events; John H. Kerr Reservoir, Clarksville, VA

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Coast Guard proposes to establish temporary special local regulations for the “Clarksville Hydroplane Challenge”, a power boat race to be held on the waters of the John H. Kerr Reservoir adjacent to Clarksville, Virginia. These special local regulations are necessary to provide for the safety of life on navigable waters during the event. This action is intended to restrict vessel traffic in portions of the John H. Kerr Reservoir adjacent to Clarksville, Virginia during the power boat race.

**DATES:** Comments and related material must reach the Coast Guard on or before August 21, 2006.

**ADDRESSES:** You may mail comments and related material to Commander (dpi), Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23704-5004, hand-deliver them to Room 415 at the same address between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays, fax them to (757) 391-8149, or e-mail them to [Dennis.M.Sens@uscg.mil](mailto:Dennis.M.Sens@uscg.mil). The Inspections and Investigations Branch, Fifth Coast Guard District, maintains the

public docket for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at the above address between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays.

#### FOR FURTHER INFORMATION CONTACT:

Dennis Sens, Project Manager, Inspections and Investigations Branch, at (757) 398-6204.

#### SUPPLEMENTARY INFORMATION:

##### Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD05-06-068), indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know they reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

##### Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to the address listed under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

##### Background and Purpose

On October 7 and 8, 2006, the Virginia Boat Racing Association will sponsor the “Clarksville Hydroplane Challenge”, on the waters of the John H. Kerr Reservoir. The event will consist of approximately 70 inboard hydroplanes racing in heats counter-clockwise

around an oval racecourse. A fleet of spectator vessels is anticipated to gather nearby to view the competition. Due to the need for vessel control during the event, vessel traffic will be temporarily restricted to provide for the safety of participants, spectators and transiting vessels.

##### Discussion of Proposed Rule

The Coast Guard proposes to establish temporary special local regulations on specified waters of the John H. Kerr Reservoir adjacent to Occaneechee State Park, Clarksville, Virginia and State Route 15 Highway Bridge. The regulated area includes a section of the John H. Kerr Reservoir approximately one half mile long, and bounded in width by each shoreline. This rule will be enforced from 7:30 a.m. to 6:30 p.m. on October 7 and 8, 2006, and will restrict general navigation in the regulated area during the power boat race. The Coast Guard, at its discretion, when practical will allow the passage of vessels when races are not taking place. Except for participants and vessels authorized by the Coast Guard Patrol Commander, no person or vessel will be allowed to enter or remain in the regulated area during the enforcement period. These regulations are needed to control vessel traffic during the event to enhance the safety of participants, spectators and transiting vessels.

##### Regulatory Evaluation

This proposed rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS).

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

Although this proposed regulation will prevent traffic from transiting a portion of the John H. Kerr Reservoir adjacent to Clarksville, Virginia during the event, the effect of this regulation will not be significant due to the limited duration that the regulated area will be in effect. Extensive advance notifications will be made to the maritime community via Local Notice to Mariners, marine information broadcasts, area newspapers and local radio stations, so mariners can adjust their plans accordingly. Vessel traffic will be able to transit the regulated area between heats, when the Coast Guard Patrol Commander deems it is safe to do so.

### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule would affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit this section of the John H. Kerr Reservoir during the event.

This proposed rule would not have a significant economic impact on a substantial number of small entities for the following reasons. This rule will be enforced for only a short period, from 7:30 a.m. to 6:30 p.m. on October 7 and 8, 2006. The regulated area will apply to a segment of the reservoir adjacent to State Route 15 Highway Bridge and Occoneechee State Park. Marine traffic may be allowed to pass through the regulated area with the permission of the Coast Guard Patrol Commander. In the case where the Patrol Commander authorizes passage through the regulated area during the event, vessels will be required to proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the race course. Before the enforcement period, we would issue maritime advisories so mariners can adjust their plans accordingly.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a

significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

### Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the address listed under **ADDRESSES**. The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

### Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

### Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

### Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

### Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

### Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

### Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

### Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

### Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or

adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

#### Environment

We have analyzed this proposed rule under Commandant Instruction M16475.1D and Department of Homeland Security Management Directive 5100.1, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(h), of the Instruction, from further environmental documentation. Special local regulations issued in conjunction with a regatta or marine parade permit are specifically excluded from further analysis and documentation under that section.

Under figure 2–1, paragraph (34)(h), of the Instruction, an “Environmental Analysis Check List” and a “Categorical Exclusion Determination” are not required for this rule. Comments on this section will be considered before we make the final decision on whether to categorically exclude this rule from further environmental review.

#### List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 100 as follows:

#### PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

1. The authority citation for part 100 continues to read as follows:

**Authority:** 33 U.S.C. 1233; Department of Homeland Security Delegation No. 0170.1.

2. Add temporary § 100.35–T05–068 to read as follows:

##### § 100.35–T05–068 John H. Kerr Reservoir, Clarksville, VA.

(a) *Regulated area.* The regulated area is established for the waters of the John H. Kerr Reservoir, adjacent to the State Route 15 Highway Bridge and Occoneechee State Park, Clarksville, Virginia, from shoreline to shoreline, bounded on the south by a line running northeasterly from a point along the shoreline at latitude 36°37′14″ N, longitude 078°32′46.5″ W, thence to

latitude 36°37′39.2″ N, longitude 078°32′08.8″ W, and bounded on the north by the State Route 15 Highway Bridge. All coordinates reference Datum NAD 1983.

(b) *Definitions.* The following definitions apply to this section: (1) *Coast Guard Patrol Commander* means a commissioned, warrant, or petty officer of the Coast Guard who has been designated by the Commander, Coast Guard Sector Hampton Roads.

(2) *Official Patrol* means any vessel assigned or approved by Commander, Coast Guard Sector Hampton Roads with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign.

(3) *Participant* includes all vessels participating in the Clarksville Hydroplane Challenge under the auspices of the Marine Event Permit issued to the event sponsor and approved by Commander, Coast Guard Sector Hampton Roads.

(c) *Special local regulations.* (1) Except for event participants and persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area.

(2) The operator of any vessel in the regulated area must: (i) Stop the vessel immediately when directed to do so by any Official Patrol and then proceed only as directed.

(ii) All persons and vessels shall comply with the instructions of the Official Patrol.

(iii) When authorized to transit the regulated area, all vessels shall proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the race course.

(d) *Enforcement period.* This section will be enforced from 7:30 a.m. on October 7 to 6:30 p.m. on October 8, 2006.

Dated: July 12, 2006.

**Steven Ratti,**

*Captain, U.S. Coast Guard, Commander, Fifth Coast Guard District, Acting.*

#### ENVIRONMENTAL PROTECTION AGENCY

#### 40 CFR Part 50

[FRL–8199–7; Docket ID No. EPA–HQ–OAR–2001–0017]

#### Availability of Additional Information Related to the Review of the National Ambient Air Quality Standards for Particulate Matter

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of data availability.

**SUMMARY:** The EPA is providing notice that it has placed in the docket for the review of the national ambient air quality standards (NAAQS) for particulate matter (PM) (Docket No. EPA–HQ–OAR–2001–0017) additional information relevant to the rulemaking. See 71 FR 2620 (Jan. 17, 2006) (proposing revisions to those standards). Specifically, this notice announces the availability of an EPA report, “Provisional Assessment of Recent Studies on Health Effects of Particulate Matter Exposure” (provisional assessment) (EPA/600/R–06/063), which presents EPA’s survey and provisional assessment of studies relevant to assessing the health effects of PM that were published too recently to be included in the 2004 PM Air Quality Criteria Document.

**DATES:** The provisional assessment document will be placed in the PM NAAQS docket on or about July 21, 2006.

**FOR FURTHER INFORMATION CONTACT:** Dr. Mary Ross, National Center for Environmental Assessment (B243–01), U.S. Environmental Protection Agency, Research Triangle Park, NC 27711; telephone: 919–541–5170; e-mail: ross.mary@epa.gov.

#### SUPPLEMENTARY INFORMATION:

##### A. Background

On January 17, 2006, EPA published a proposed rule to make revisions to the primary and secondary NAAQS for PM to provide requisite protection of public health and welfare (71 FR 2620). The proposed decisions separately addressed fine and coarse particles. These proposed decisions were based on: a thorough review of the scientific information on known and potential human health and welfare effects associated with exposure to these subclasses of PM at levels typically found in the ambient air as presented in the Air Quality Criteria Document (henceforth, the “Criteria Document”) (two volumes, EPA/600/P–99/002aF and
