SUPPLEMENTARY INFORMATION:

I. Background and Purpose of Proposed Alteration to the MDB File System of Records

A. General Background

On December 8, 2003, the Medicare Prescription Drug, Improvement, and Modernization Act (also known as the Medicare Modernization Act or MMA) of 2003, created a voluntary prescription drug coverage benefit program under new Part D of Medicare for all individuals eligible for Medicare Part A and/or Part B. The MMA also created a subsidy program to assist Medicare beneficiaries with limited means to pay for prescription drug coverage. The new Medicare Part D was implemented January 2006. We published a notice of system of records in the **Federal**

Register to implement the Medicare Part D coverage on December 28, 2004. The notice can be found at 70 FR 77816, December 28, 2004. Additionally, Section 811 of the MMA established a premium subsidy reduction which will result in an income-related adjustment amount being added to the standard monthly Medicare Part B premium amount.

The Medicare Part B premium subsidy reduction becomes effective January 2007. Sections 101 and 201 of the MMA changed some of the terms and definitions for Medicare Part C (now Medicare Advantage) and provided for the implementation of the Medicare Advantage program.

Medicare Part B is a voluntary program which provides medical insurance coverage for medical and health services such as physician services, diagnostic services and medical supplies. Medicare Part B beneficiaries are responsible for deductibles, co-insurance and monthly premiums towards the cost of covered services. Generally, the Part B premium covers approximately 25 percent of the Part B program costs and the remaining 75 percent of the program costs are subsidized by the Federal Government by contributions to the Federal Supplementary Medical Insurance Trust Fund. Certain Part B beneficiaries may also pay an increased premium for late reenrollment or for enrollment after a period without coverage.

Beginning January 2007, the Medicare Part B premium subsidy will result in an income-related adjustment amount being added to the standard monthly Medicare Part B premium amount for an estimated 4 to 5 percent of the approximately 40 million Part B beneficiaries who have income above an income threshold set by the MMA. Beneficiaries with modified adjusted gross income above a statutory income threshold will pay more of the cost of their Part B premiums through an income-related monthly adjustment amount. The income-related monthly adjustment amount is an additional amount of premium for Part B coverage that is added to the Part B standard monthly premium. The purpose of the income-related adjustment is to reduce the Federal subsidy to Medicare Part B beneficiaries with income above the statutory threshold.

To implement the Medicare Part B premium subsidy reduction and establish eligibility for Part D subsidies, we must collect and maintain relevant information that will be used for these determinations. We will maintain the information in the *MDB File*. We currently maintain information about
