**Needs and Uses:** The Communications Assistance for Law Enforcement Act (CALEA) requires the Commission to create rules that regulate the conduct and recordkeeping of lawful electronic surveillance. CALEA was enacted in October 1994 to respond to rapid advances in telecommunications technology and eliminates obstacles faced by law enforcement personnel in conducting electronic surveillance. Section 105 of CALEA requires telecommunications carriers to protect against the unlawful interception of communications passing through their systems. Law enforcement officials use the information maintained by telecommunications carriers to determine the accountability and accuracy of telecommunications carriers' compliance with lawful electronic surveillance orders.

On May 12, 2006, the Commission released a *Second Report and Order and Memorandum Opinion and Order* in ET Docket No. 04–195, FCC 06–56, which will become effective August 4, 2006. The *Second Report and Order* established guidelines for filing section 107(c), section 109(b) petitions and monitoring reports. Section 107(c)(1) permits a petitioner to apply for an extension of time, up to two years from the date that the petition is filed, and to come into compliance with a particular CALEA section 103 capability requirement. CALEA section 109(b) permits a telecommunication carrier covered by CALEA to file a petition with the FCC and an application with the Department of Justice (DOJ) to request that DOJ pay the costs of the carrier's CALEA compliance (cost-shifting relief) with respect to any equipment, facility or service installed or deployed after January 1, 1995. The *Second Report and Order* requires several different collections of information:

(a) Within 90 days of the effective date of the *Second Report and Order*, facilities based broadband Internet access and interconnected Voice over Interconnected Protocol (VOIP) providers newly identified in the *First Report and Order* in this proceeding will be required to file system security statements under the Commission's rules. (Security systems are currently approved under the existing OMB 3060–0809 information collection).

(b) Petitions filed under Section 107(c), request for additional time to comply with CALEA, these provisions apply to all carriers subject to CALEA and are voluntary filings.

(c) Section 109(b), request for reimbursement of CALEA, would modified, these provisions apply to all carriers subject to CALEA and are voluntary filings.

(d) A new collection would require each carrier that has a CALEA section 107(c) extension petition currently on file to submit to the Commission a letter documenting that the carrier's equipment, facility or service qualifies for section 107(c) relief under the October 25, 1998, cutoff for such relief.

(e) A new collection would require all carriers providing facilities based broadband Internet access or interconnected VOIP services to file monitoring reports with the Commission to ensure timely CALEA compliance.

The FCC has an outstanding Notice of Proposed Rulemaking (NPRM) in MM Docket No. 96-62, In the Matter of Amendment of part 73 of the Commission's Rules to More Effectively

Resolve Broadcast Blanketing Interference, Including Interference to Consumer Electronics and Other Communications Devices. The NPRM has proposed to provide detailed clarification of the AM, FM, and TV licensee's responsibilities in resolving/eliminating blanketing interference caused by their individual stations. The NPRM has also proposed to consolidate all blanketing interference rules under a new section 47 CFR 73.1630, "Blanketing Interference." This new rule has been designed to facilitate the resolution of broadcast interference problems and set forth all responsibilities of the licensee/permittee of a broadcast station. To date, final rules have not been adopted.
