SUPPLEMENTARY INFORMATION: Awards Program Notice: Pursuant to 42 U.S.C. 7403(a)(1) and (2) and sections 103(a)(1) and (2) of the Clean Air Act (CAA), notice is hereby given that the EPA's Office of Air and Radiation (OAR) announces the opening of competition for the Year 2006 "Clean Air Excellence Awards Program" (CAEAP). The intent of the program is to recognize and honor outstanding, innovative efforts that help to make progress in achieving cleaner air. The CAEAP is open to both public and private entities. Entries are limited to the United States. There are five general award categories: (1) Clean Air Technology; (2) Community Action; (3) Education/Outreach; (4) Regulatory/Policy Innovations; (5) Transportation

Efficiency Innovations; and two special awards categories: (1) Outstanding Individual Achievement Award. (2) Cross-Category Award. Awards are given on an annual basis and are for recognition only.

Entry Requirements: All applicants are asked to submit their entry on a CAEAP entry form, contained in the CAEAP Entry Package, which may be obtained from the Clean Air Act Advisory Committee (CAAAC) Web site at <http://www.epa.gov/oar/caaac> by clicking on Awards Program or by contacting Mr. Pat Childers, U.S. EPA at 202-564-1082 or 202-564-1352 (Fax), mailing address: Office of Air and Radiation (6102A), 1200 Pennsylvania Avenue, NW., Washington, DC 20004. The entry form is a simple, three-part form asking for general information on the applicant and the proposed entry; asking for a description of why the entry is deserving of an award; and requiring information from three (3) independent references for the proposed entry. Applicants should also submit additional supporting documentation as necessary. Specific directions and information on filing an entry form are included in the Entry Package.

Judging and Award Criteria: Judging will be accomplished through a screening process conducted by EPA staff, with input from outside subject experts, as needed. Members of the CAAAC will provide advice to EPA on the entries. The final award decisions will be made by the EPA Assistant Administrator for Air and Radiation. Entries will be judged using both general criteria and criteria specific to each individual category. There are four (4) general criteria: (1) The entry directly or indirectly (*i.e.*, by encouraging actions) reduces emissions of criteria pollutants or hazardous/toxic air pollutants; (2) The entry demonstrates innovation and uniqueness; (3) The entry provides a model for others to follow (*i.e.*, it is replicable); and (4) The positive outcomes from the entry are continuing/sustainable. Although not required to win an award, the following general criteria will also be considered in the judging process: (1) The entry has positive effects on other environmental media in addition to air; (2) The entry demonstrates effective collaboration and partnerships; and (3) The individual or organization submitting the entry has effectively measured/evaluated the outcomes of the project, program, technology, *etc.* As previously mentioned, additional criteria will be used for each individual award category. These criteria are listed in the 2006 Entry Package.

Inspection of Committee Documents: The Committee agenda and any documents prepared for the meeting will be publicly available at the meeting. Thereafter, these documents, together with CAAAC meeting minutes, will be available by contacting the Office of Air and Radiation Docket and requesting information under docket OAR-2004-0075. Notice of Data Availability for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability (NODA).

SUMMARY: On March 15, 2006, EPA promulgated Federal Implementation Plans (FIPs) for all States covered by the Clean Air Interstate Rule (CAIR). The FIPs will regulate electric generating units (EGUs) in the affected States and achieve the emission reductions required by CAIR until each affected State has an approved CAIR State Implementation Plan (SIP) to achieve the reductions. The Agency promulgated FIPs to provide a federal backstop for CAIR. EPA will withdraw a State's FIP in coordination with approval of a SIP implementing the requirements of CAIR.

Today's action relates to the CAIR FIP regulatory text, which indicates that the Administrator will determine by order the CAIR NO_x allowance allocations. In the CAIR FIP preamble, EPA also indicated its intention to publish a NODA with NO_x allowance allocations for 2009 through 2014, provide the public with the opportunity to object to the data, and then publish a final NODA (adjusted if necessary).

In today's NODA, the EPA is making available to the public data relating to NO_x annual and NO_x ozone season allocations under the CAIR FIP that EPA will allocate to individual existing units covered by the CAIR FIP NO_x annual

and NO_x ozone season trading programs for 2009-2014. These allocations use data from the U.S. Environmental Protection Agency's Clean Air Markets Division's (CAMD) database (which contains data reported under the Acid Rain Program), U.S. Energy Information Administration (EIA) database, and data previously provided to EPA by sources. The NODA references, or presents in tables, all these data and the NO_x annual and NO_x ozone season allowance allocations calculated using the data and the allocation formulas finalized in the CAIR FIP, for existing units for 2009 through 2014.
