SUPPLEMENTARY INFORMATION:**Purpose and Background**

The fee schedule for sanitation inspections of passenger cruise ships inspected under the Vessel Sanitation Program (VSP) was first published in

the **Federal Register** on November 24, 1987 (52 FR 45019), and CDC began collecting fees on March 1, 1988. Since then, CDC has published the fee schedule annually. This notice announces fees effective October 1, 2006.

$$\text{Average cost per inspection} = \frac{\text{Total cost of VSP}}{\text{Weighted number of annual inspections.}}$$

The average cost per inspection is multiplied by a size/cost factor to determine the fee for vessels in each size category. The size/cost factor was established in the proposed fee schedule published in the **Federal Register** on July 17, 1987 (52 FR 27060), and was revised twice and published in the **Federal Register** on November 28, 1989 (54 FR 48942), and November 21, 2005 (70 FR 70078). The revised size/cost factor is presented in Appendix A.

Fee

The fee schedule (Appendix A) will be effective October 1, 2006, through September 30, 2007. If travel expenses continue to increase, the fees may need adjustment before September 30, 2007, because travel constitutes a sizable portion of VSP's costs. If an adjustment is necessary, a notice will be published in the **Federal Register** 30 days before the effective date.

Applicability

The fees will apply to all passenger cruise vessels for which inspections are conducted as part of CDC's VSP.

Dated: August 8, 2006.

James D. Seligman,

Chief Information Officer, Centers for Disease Control and Prevention (CDC).

Appendix A**SIZE/COST FACTOR**

Vessel size	GRT ¹	Approximate cost (\$U.S.) per GRT
Extra Small	< 3,001	0.25
Small	3,001–15,000	0.50
Medium	15,001–30,000	1.00
Large	30,001–60,000	1.50
Extra Large	60,000–120,000	2.00
Mega*	>120,001	3.00

*New Vessel Size Category.

Gross register tonnage in cubic feet, as shown in Lloyd's Register of Shipping.

FEE SCHEDULE

Vessel size	GRT ¹	Fee (\$U.S.)
Extra Small	< 3,000	1,300
Small	3,001–15,000	2,600
Medium	15,001–30,000	5,200
Large	30,001–60,000	7,800
Extra Large	60,001–120,000	10,400
Mega*	>120,001	15,600

*New Vessel Size Category.

¹ Gross register tonnage in cubic feet, as shown in Lloyd's Register of Shipping.

Inspections and reinspections involve the same procedure, require the same amount of time, and are therefore charged at the same rate.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Children and Families****Proposed Information Collection Activity; Comment Request, Proposed Projects**

Title: Evaluation of the Community Healthy Marriage Initiative.

OMB No.: New Collection.

Description: The Administration for Children and Families, United States Department of Health and Human Services, is conducting a demonstration and evaluation called the Community Healthy Marriage Initiative (CHMI). Demonstration programs will be funded to support healthy marriage directly as well as encourage community changes in norms that increase support for healthy marriages and improve child and family well-being. The objective of the impact evaluation is to evaluate the community effects of these

interventions on marital stability and satisfaction and child and family well-being outcomes among low-income families. Primary data for the impact evaluation will come from three waves of in-person data collection. This collection is a baseline survey of

community members where CHMI demonstrations are operating, the first of three CHMI surveys. The impact evaluation will assess the effects of community healthy marriage initiatives by comparing family and child well-being outcomes in the CHMI

communities with similar outcomes in comparison communities that are well matched to the demonstration project sites.

Respondents: Community members aged 18–49 in three study sites and three comparison communities.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
CHMI Baseline Survey	4,200	1	1	4,200

Estimated Total Annual Burden Hours: 4200/

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. E-mail address: infocollection@acf.hhs.gov. All requests should be identified by the title of the information collection.

The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: August 9, 2006.

Robert Sargis,

Reports Clearance Officer.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request Proposed Projects

Title: Third Grade Follow-up to the Head Start Impact Study.

OMB No.: 0970–0229.

Description: The Administration for Children and Families (ACF) within the Department of Health and Human Services (HHS) is requesting comments on plans to implement a third grade follow-up to the Head Start Impact Study. This study will collect information for determining, on a national basis, how Head Start affects outcomes in the third grade for children who participated in the program as compared to children not enrolled in Head Start and to determine under which conditions Head Start works best and for which children.

The Head Start Impact Study was a longitudinal study that involved approximately 5,000 first-time-enrolled three- and four-year-old pre school children across 84 nationally

representative grantee/delegate agencies (in communities where there were more eligible children and families than can be served by the program). The participating children were randomly assigned to either a Head Start group (that could enroll in Head Start services) or a control group (that could not enroll in Head Start services but could enroll in other available services selected by their parents). Data collection for the study began in the fall of 2002 and extended through spring 2006.

It is the intention of the Administration for Children and Families to examine outcomes for this sample of children and families during the spring of the children's third grade year. Data will be collected in the spring of 2007 (for the four-year-old cohort) and the spring of 2008 (for the three-year-old cohort). The domains for development to be assessed include demographic characteristics of the children and families, as well as children's cognitive development, school achievement and adjustment, socio-emotional functioning, health and access to health care, and relationships with peers. Information will also be collected on parents' involvement in educational activities, mental health and well-being, and monitoring and other parenting practices, and information related to the characteristics and quality of the schools and classrooms that children attend.

Respondents: Individuals or households and school districts.

ANNUAL BURDEN ESTIMATES

Respondents and activities	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Child Interview and Assessment	4,600	1	1	4,600
Parent Interview	4,600	1	1	4,600
Teacher Survey	4,600	1	.33	1,533
School Administrator Survey	2,300	1	.25	575
Total Annual Burden Estimates	11,308
