

The Need for the Proposed Action

In accordance with 10 CFR 54.17(c), the earliest date that the applicant could apply for a renewed operating license for Vogtle Unit 2 would be February 9, 2009. The licensee plans to apply for license renewal for Vogtle Units 1 and 2 on June 28, 2007. Vogtle Unit 1 will have accumulated 20 years operating experience by June 28, 2007 and will meet the requirements of 10 CFR 54.17(c). The proposed exemption for Unit 2 is required to allow the licensee to apply for the renewal of both Vogtle operating licenses concurrently. The request seeks only schedular relaxation without any other substantive reliefs.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes that the issuance of the proposed exemption will not have a significant environmental impact. The proposed schedular exemption pertains solely to the future submission of an application to renew the Vogtle 2 operating license. It causes no changes to the current design or operation of Vogtle 2 and imparts no prejudice in the future review of the application for license renewal.

The details of the staff's safety evaluation will be provided in the exemption that will be issued as part of the letter to the licensee approving the exemption to the regulation.

The proposed action will not significantly increase the probability or consequences of accidents. No changes are being made in the types of effluents that may be released off site. There is no significant increase in the amount of any effluent released off site. There is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the

proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any different resources than those previously considered in the Final Environmental Statement (FES) for Vogtle Unit 2, NUREG-1087, "Final Environmental Statement Related to the Operation of the VEGP [Vogtle Electric Generating Plant], Units 1 and 2," dated December 1985.

Agencies and Persons Consulted

In accordance with its stated policy, on August 4, 2006, the staff consulted with the Georgia State official, Mr. Jim Hardeman of the Department of Natural Resources, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated May 22, 2006. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or send an e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 11th day of September 2006.

For the Nuclear Regulatory Commission.

Christopher Gratton,

Sr. Project Manager, Plant Licensing Branch II-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Procedures for Meetings

Background

This notice describes procedures to be followed with respect to meetings conducted by the Nuclear Regulatory Commission's (NRC's) Advisory Committee on Reactor Safeguards (ACRS) pursuant to the Federal Advisory Committee Act (FACA). These procedures are set forth so that they may be incorporated by reference in future notices for individual meetings.

The ACRS is a statutory group established by Congress to review and report on nuclear safety matters and applications for the licensing of nuclear facilities. The Committee's reports become a part of the public record.

The ACRS meetings are conducted in accordance with FACA. They are normally open to the public and provide opportunities for oral or written statements from members of the public to be considered as part of the Committee's information gathering process. ACRS reviews do not normally encompass matters pertaining to environmental impacts other than those related to radiological safety.

The ACRS meetings are not adjudicatory hearings such as those conducted by the NRC's Atomic Safety and Licensing Board Panel as part of the Commission's licensing process.

General Rules Regarding ACRS Full Committee Meetings

An agenda will be published in the **Federal Register** for each full Committee meeting. There may be a need to make adjustments to the agenda to facilitate the conduct of the meeting. The Chairman of the Committee is empowered to make such adjustments to conduct the meeting in a manner that, in his/her judgment, will facilitate the orderly conduct of business, including making provisions to continue the discussion of matters not completed on the scheduled day on another meeting day. Persons planning to attend the meeting may contact the Designated Federal Official (DFO) specified in the **Federal Register** Notice prior to the meeting to be advised of any changes to the agenda that may have occurred.

The following requirements shall apply to public participation in ACRS full Committee meetings:

(a) Persons who plan to submit written comments at the meeting should provide 35 copies to the DFO at the beginning of the meeting. Persons who cannot attend the meeting but wish to

submit written comments regarding the agenda items may do so by sending a readily reproducible copy addressed to the DFO specified in the **Federal Register** Notice, care of the Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Comments should be limited to items being considered by the Committee. Comments should be in the possession of the DFO five days prior to the meeting to allow time for reproduction and distribution.

(b) Persons desiring to make oral statements at the meeting should make a request to do so to the DFO. If possible, the request should be made five days before the meeting, identifying the topic(s) on which oral statements will be made and the amount of time needed for presentation so that orderly arrangements can be made. The Committee will hear oral statements on topics being reviewed at an appropriate time during the meeting as scheduled by the Chairman.

(c) Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to present oral statements can be obtained by contacting the DFO.

(d) The use of still, motion picture, and television cameras may be limited to selected portions of the meeting as determined by the Chairman and subject to the condition that the use of such equipment will not interfere with the conduct of the meeting. The DFO will have to be notified prior to the meeting and will authorize the use of such equipment after consultation with the Chairman. The use of such equipment will be restricted as is necessary to protect proprietary or privileged information that may be in documents, folders, etc., in the meeting room. Electronic recordings will be permitted only during those portions of the meeting that are open to the public.

(e) A transcript will be kept for certain open portions of the meeting and will be available in the NRC Public Document Room (PDR), One White Flint North, Room O-1F21, 11555 Rockville Pike, Rockville, MD 20852-2738. A copy of the certified minutes of the meeting will be available at the same location three months following the meeting. Copies may be obtained upon payment of appropriate reproduction charges. ACRS meeting agenda, transcripts, and letter reports are available through the NRC Public Document Room at pdrc@nrc.gov, by calling the PDR at 1-800-394-4209, or from the Publicly Available Records System (PARS) component of NRC's document system (ADAMS) which is

accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> or <http://www.nrc.gov/reading-rm/doc-collections/> (ACRS schedules and agendas).

(f) Video teleconferencing service is available for observing open sessions of ACRS meetings. Those wishing to use this service for observing ACRS meetings should contact Mr. Theron Brown, ACRS Audio Visual Technician, (301-415-8066) between 7:30 a.m. and 3:45 p.m. Eastern Time at least 10 days before the meeting to ensure the availability of this service. Individuals or organizations requesting this service will be responsible for telephone line charges and for providing the equipment and facilities that they use to establish the video teleconferencing link. The availability of video teleconferencing services is not guaranteed.

ACRS Subcommittee Meetings

In accordance with the revised FACA, the agency is no longer required to apply the FACA requirements to meetings conducted by the Subcommittees of the NRC Advisory Committees, if the Subcommittee's recommendations would be independently reviewed by its parent Committee.

The ACRS, however, chose to conduct its Subcommittee meetings in accordance with the procedures noted above for ACRS full Committee meetings, as appropriate, to facilitate public participation, and to provide a forum for stakeholders to express their views on regulatory matters being considered by the ACRS. When Subcommittee meetings are held at locations other than at NRC facilities, reproduction facilities may not be available at a reasonable cost. Accordingly, 50 copies of the materials to be used during the meeting should be provided for distribution at such meetings.

Special Provisions When Proprietary Sessions Are To Be Held

If it is necessary to hold closed sessions for the purpose of discussing matters involving proprietary information, persons with agreements permitting access to such information may attend those portions of the ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and related to the material being discussed.

The DFO should be informed of such an agreement at least five working days prior to the meeting so that it can be confirmed, and a determination can be made regarding the applicability of the

agreement to the material that will be discussed during the meeting. The minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to the DFO prior to the beginning of the meeting for admittance to the closed session.

Dated: September 26, 2006.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590-01-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Request for Public Comments on Annual Review of Country Eligibility for Benefits Under the African Growth and Opportunity Act

AGENCY: Office of the United States Trade Representative.

ACTION: Notice and request for comments.

SUMMARY: The African Growth and Opportunity Act Implementation Subcommittee of the Trade Policy Staff Committee (the "Subcommittee") is requesting written public comments for the annual review of the eligibility of sub-Saharan African countries to receive the benefits of the African Growth and Opportunity Act (AGOA). The Subcommittee will consider these comments in developing recommendations on AGOA country eligibility for the President. Comments received related to the child labor criteria may also be considered by the Secretary of Labor for the preparation of the Department of Labor's report on child labor as required under section 412(c) of the Trade and Development Act of 2000. This notice identifies the eligibility criteria that must be considered under AGOA, and lists those sub-Saharan African countries that are currently eligible for the benefits of the AGOA, and those that are currently ineligible for such benefits.

DATES: Public comments are due at the Office of the U.S. Trade Representative (USTR) by noon, Friday, October 20, 2006.

ADDRESSES: USTR prefers submission by electronic mail: FR0269@ustr.eop.gov. If you are unable to make a submission by
