[Docket No. 051014263-6028-03; I.D. 100206A]

Fisheries off West Coast States; Pacific Coast Groundfish Pacific Coast Groundfish Fishery; End of the Pacific Whiting Primary Season for the Mothership Sector

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Fishing restrictions; request for comments.

SUMMARY: NMFS announces the end of the 2006 Pacific Whiting (whiting) Primary Season for the mothership sector at 9 p.m. local time (l.t.) September 29, 2006, because the allocation for the mothership sector is projected to be reached by that time. This action is intended to keep the harvest of whiting within the 2006 allocation levels.

DATES: Effective from 9 p.m. l.t. September 29, 2006, until the start of the 2007 primary season for the mothership sector, unless modified, superseded or rescinded. Comments will be accepted through October 25, 2006.

ADDRESSES: You may submit comments, identified by 051014263-6028-03, by any of the following methods:

- E-mail:

WhitingMPclosure06.nwr@noaa.gov

Include 051014263-6028-03 in the subject line of the message.

- Federal eRulemaking Portal: *http://www.regulations.gov*. Follow the instructions for submitting comments.

- Fax: 206-526-6736, Attn: Becky Renko.

- Mail: D. Robert Lohn, Administrator, Northwest Region, NMFS, 7600 Sand Point Way NE, Seattle, WA 98115-0070, Attn: Becky Renko.

FOR FURTHER INFORMATION CONTACT: Becky Renko at 206-526-6110.

SUPPLEMENTARY INFORMATION: This action is authorized by regulations implementing the Pacific Coast Groundfish Fishery Management Plan (FMP), which governs the groundfish fishery off Washington, Oregon, and California.

The regulations at 50 CFR 660.323(a) establish separate allocations for the catcher/processor, mothership, and shore-based sectors of the whiting fishery. For 2006, the 232,069-mt commercial harvest guideline for whiting is divided with the catcher/processor sector receiving 78,903 mt (34 percent); the mothership sector receiving 55,696 mt (24 percent); and the shore-based sector receiving 97,469 mt (42 percent).

Regulations at 50 CFR 660.373(b) describe the primary season for each sector. For mothership processors, the primary season is the period when at-sea processing is allowed and the fishery is open for catcher vessels that harvest whiting for the mothership sector. When each sector's allocation is

reached, the primary season for that sector is ended.

NMFS Action

This action announces achievement of the allocation for the mothership sector only. The best available information on September 29, 2006, indicated that the mothership allocation would be reached by 9 p.m. l.t. September 29, 2006, at which time the primary season for the mothership sector ends.

For the reasons stated here and in accordance with the regulations at 50 CFR 660.323(b), NMFS herein announces that, effective 9 p.m. l.t. September 29, 2006, further receiving or at-sea processing of whiting by a mothership is prohibited. No additional unprocessed whiting may be brought on board after at-sea processing is prohibited, but a mothership may continue to process whiting that was on board before at-sea processing was prohibited, and whiting may not be taken and retained, possessed, or landed by a catcher vessel participating in the mothership sector.

Classification

This action is authorized by the regulations implementing the FMP. The determination to take this action is based on the most recent data available. The Assistant Administrator for Fisheries, NMFS, finds good cause to waive the requirement to provide prior notice and opportunity for comment on this action pursuant to 5 U.S.C. 553 (3)(b)(B), because providing prior notice and comment opportunity would be impracticable. It would be impracticable because if this closure were delayed in order to provide notice and comment, the fishery would be expected to greatly exceed the mothership sector allocation.

A delay to provide a cooling off period also would be expected to cause the fishery to exceed its allocation. Therefore, good cause also exists to waive the 30-day delay in effectiveness requirement of 5 U.S.C. 553 (d)(3). The aggregate data upon which the determination is based are available for public inspection at the Office of the Regional Administrator (see **ADDRESSES**) during business hours. This action is taken under the authority of 50 CFR 660.323 (b) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 3, 2006.

James P. Burgess,

Acting Director, Office Of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 060216045-6045-01; I.D. 100406B]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Western Aleutian District of the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; prohibition of retention.

SUMMARY: NMFS is prohibiting retention of Pacific ocean perch in the Western Aleutian District of the Bering Sea and Aleutian Islands (BSAI). NMFS is requiring that catch of Pacific ocean perch in this area be treated in the same manner as prohibited species and discarded at sea with a minimum of injury. This action is necessary because the 2006 total allowable catch (TAC) of Pacific ocean perch in this area has been reached.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 4, 2006, until 2400 hrs, A.l.t., December 31, 2006.

FOR FURTHER INFORMATION CONTACT: Jennifer Hogan, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management

Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and CFR part 679.

The 2006 TAC of Pacific ocean perch in the Western Aleutian District of the BSAI is 4,703 metric tons as established by the 2006 and 2007 harvest specifications for groundfish of the BSAI (71 FR 10870, March 3, 2006).

In accordance with § 679.20(d)(2), the Administrator, Alaska Region, NMFS, has determined that the 2006 TAC of Pacific ocean perch in the Western Aleutian District of the BSAI has been reached. Therefore, NMFS is requiring that further catches of Pacific ocean perch in the Western Aleutian District of the BSAI be treated as prohibited species in accordance with § 679.21(b).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the prohibition of retention of Pacific ocean perch in the Western Aleutian District of the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 3, 2006.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 4, 2006.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of Pacific cod from vessels using trawl and jig gear to catcher processor vessels using hook-and-line gear and vessels using pot gear in the Bering Sea and Aleutian Islands management area (BSAI). These actions are necessary to allow the 2006 total allowable catch (TAC) of Pacific cod to be harvested.

DATES: Effective October 6, 2006, until 2400 hours, A.l.t., December 31, 2006.

FOR FURTHER INFORMATION CONTACT: Jennifer Hogan, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2006 Pacific cod TAC in the BSAI is 189,768 metric tons (mt) as established by the 2006 and 2007 final harvest specifications for groundfish in the BSAI (71 FR 10894, March 3, 2006) and adjustments (71 FR 13777, March 17, 2006 and 71 FR 55347, September 22, 2006). Pursuant to § 679.29(a)(7)(i), the allocations of the Pacific cod TAC are 267 mt to catcher vessels using hook-and-line gear, 71,218 mt to catcher processor vessels using hook-and-line gear, 2,938 mt to catcher processor vessels using pot gear, 13,354 mt to catcher vessels using pot gear, 41,251 mt to catcher processors using trawl gear, and 41,251 mt to catcher vessels using trawl gear. The allocation to catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear is 3,232
