

some minor technical requirements of Utah's continuous emission monitoring rules and correct several grammatical errors. The intended effect of this action is to make federally enforceable those provisions that EPA is proposing to approve. This action is being taken under section 110 of the Clean Air Act.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Written comments must be received on or before December 1, 2006.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R08-OAR-2006-0564, by one of the following methods:

- www.regulations.gov. Follow the on-line instructions for submitting comments.
- E-mail:* long.richard@epa.gov and kimes.jeffrey@epa.gov.
- Fax:* (303) 312-6064 (please alert the individual listed in the **FOR FURTHER INFORMATION CONTACT** if you are faxing comments).
- Mail:* Richard R. Long, Director, Air and Radiation Program, Environmental Protection Agency (EPA), Region 8, Mailcode 8P-AR, 999 18th Street, Suite 200, Denver, Colorado 80202-2466.
- Hand Delivery:* Richard R. Long, Director, Air and Radiation Program, Environmental Protection Agency (EPA), Region 8, Mailcode 8P-AR, 999 18th Street, Suite 200, Denver, Colorado 80202-2466. Such deliveries are only accepted Monday through Friday, 8 a.m. to 4:55 p.m., excluding federal holidays. Special arrangements should be made for deliveries of boxed information.

Please see the direct final rule which is located in the Rules Section of this **Federal Register** for detailed instruction on how to submit comments.

FOR FURTHER INFORMATION CONTACT: Jeffrey Kimes, Air and Radiation Program, Mailcode 8P-AR, Environmental Protection Agency (EPA), Region 8, 999 18th Street, Suite 200, Denver, Colorado 80202-2466, (303) 312-6445, kimes.jeffrey@epa.gov.

SUPPLEMENTARY INFORMATION: See the information provided in the Direct Final action of the same title which is located in the Rules and Regulations Section of this **Federal Register**.

Authority: 42 U.S.C. 7401 et seq.

Dated: September 27, 2006.

Carol Rushin,

Acting Regional Administrator, Region 8.

[FR Doc. E6-18379 Filed 10-31-06; 8:45 am]

BILLING CODE 6560-50-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-D-7668]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security, Mitigation Division.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr. CFM, Acting Section Chief, Engineering Management Section, Mitigation Division, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: FEMA proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

Source of flooding and location	Range of elevations in feet (NAVD)+
City of Belleview, Marion County, Florida	
Unnamed ponding areas	+65
Unnamed ponding areas	+108
* National Geodetic Vertical Datum. # Depth in feet above ground. + North American Vertical Datum.	
ADDRESSES	
Maps available for inspection at the Belleview City Hall, Public Works Department, 5343 Southeast Abshier Boulevard, Belleview, Florida. Send comments to The Honorable Tammy Moore, Mayor of the City of Belleview, 5343 Southeast Abshier Boulevard, Belleview, Florida 34420.	

Source of flooding and location	Range of elevations in feet (NAVD)+
---------------------------------	-------------------------------------

City of Dunnellon, Marion County, Florida	
Unnamed ponding areas	+32
Unnamed ponding areas	+69
* National Geodetic Vertical Datum. # Depth in feet above ground. + North American Vertical Datum.	

ADDRESSES
Maps available for inspection at the Dunnellon City Hall, 20750 River Drive, Dunnellon, Florida.
Send comments to Mr. Edward Ericson, Dunnellon City Manager, 20750 River Drive, Dunnellon, Florida 34431.

Marion County, Florida (Unincorporated Areas)	
Unnamed ponding areas (<i>primarily</i> , but not exclusively located west of Interstate 75)	+6
Unnamed ponding areas (<i>primarily</i> , but not exclusively located west of Interstate 75)	+200
* National Geodetic Vertical Datum. # Depth in feet above ground. + North American Vertical Datum.	

ADDRESSES
Maps available for inspection at the Marion County Transportation Department, 412 Southeast 25th Avenue, Ocala, Florida. For more information, please contact the Marion County Stormwater Division at (352) 671-8686.

Source of flooding and location	Range of elevations in feet (NAVD)+
---------------------------------	-------------------------------------

Send comments to Mr. Patrick G. Howard, Marion County Administrator, 601 Southeast 25th Avenue, Ocala, Florida 34471.

City of Ocala, Marion County, Florida	
Unnamed ponding areas	+48
Unnamed ponding areas	+133
* National Geodetic Vertical Datum. # Depth in feet above ground. + North American Vertical Datum.	

ADDRESSES
Maps available for inspection at the City of Ocala Engineering Department, 405 Southeast Osceola Avenue, Ocala, Florida.
Send comments to The Honorable Randy Ewers, Mayor of the City of Ocala, P.O. Box 1270, Ocala, Florida 34478-1270.

Special Considerations:

The new and revised flood elevations affect over 4,000 unnamed ponding areas in Marion County and its incorporated areas. This proposed rule lists the range of new and/or revised elevations affecting the communities listed above. Because the specific changes are too numerous to list, residents and lessees of property in Marion County and its incorporated areas are strongly encouraged to review the FEMA Flood Insurance Rate Maps at the community offices or online at <http://www.marioncountyfl.org>.

Source of flooding	Location of referenced elevation	#Depth in feet above ground. *Elevation in feet (NGVD) +Elevation in feet (NAVD)		Communities affected

Dated: October 4, 2006.

David I. Maurstad,

Director, Mitigation Division, Federal Emergency Management Agency, Department of Homeland Security.

[FR Doc. E6-18328 Filed 10-31-06; 8:45 am]

BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-B-7470]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security, Mitigation Division.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second

publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Engineering Management Section, Mitigation Division, 500 C Street SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: FEMA proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act.

This proposed rule is categorically

excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, flood insurance, reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground *Elevation in feet (NGVD) +Elevation in feet (NAVD)	
				Existing	Modified
Town of Hulett, Wyoming					
WY	Town of Hulett	Belle Fourche River	Approximately 2.0 miles downstream of State Highway 24 (at cross section A).	None	+3,738
	Approximately 0.33 miles downstream of State Highway 24 (approximate cross section G).	None	+3,750
WY	Town of Hulett	Belle Fourche River	Approximately 0.31 miles upstream of State Highway 24 (approximate cross section J).	None	+3,753
	Approximately 0.43 miles upstream of State Highway 24 South (at cross section T).	None	+3,764

* National Geodetic Vertical Datum.

Depth in feet above ground.

+ North American Vertical Datum.
