Title: National Flood Insurance Program—Mapping Needs Process Update Support System (MNUSS) Data Worksheet.

OMB Number: 1660–0081.

Abstract: To fulfill the mandate specified in section 575 of the National Flood Insurance Reform Act (NFIRA), the Federal Emergency Management Agency (FEMA) established the Mapping Needs Assessment process and the MNUSS database in order to effectively identify and document data regarding community flood hazard mapping needs. MNUSS is designed to store mapping needs at the community level. The current version of MNUSS is an interactive, web-enabled password protected database. In order to facilitate the identification and collection of communities' current flood hazard mapping needs for input into MNUSS, FEMA development the MNUSS Data Worksheet.

Flood hazard mapping needs information enable FEMA to be more responsive to ongoing changes affecting flood hazard areas that occur in communities participating in the National Flood Insurance Program (NFIP). The changes include, but are not limited to, new corporate limit boundaries, changes in the road network, and changes in flood hazard areas, which affect communities' flood risks. The information is also used in providing justification for FEMA when requesting funding for flood map updates and is used along with other information to prioritize the flood hazard mapping needs of all mapped communities participating in the NFIP to assist in the allocation of annual funds for flood hazard map updates.

Affected Public: State, local, and tribal governments.

OMB Control Number, if applicable: 2502—Pending.

Description of the need for the information and proposed use: The Real Estate Settlement Procedures Act insures that consumers are provided with greater and timely information on the nature and costs of the settlement process and are protected from unnecessarily high settlement charges caused by abusive practices. The RESPA Web site Complaint Questionnaire will provide for a common Web site for consumers and settlement service providers to assist in the enforcement of RESPA. Members of the public may submit complaints to HUD. The Federal Government will use the disclosed information to investigate alleged violations of RESPA regulations by settlement service providers.

HUD published this announcement previously in the **Federal Register** on November 8, 2005 (Vol. 70, No. 215, pages 67736–67737). HUD received comments from the American Land Title Association (ALTA) and the National Association of Mortgage Brokers (NAMB). Generally, both commenters expressed support for increased enforcement of RESPA, but expressed concern that the Web site complaint could lead to improper investigations. Both stressed maintaining confidentiality. HUD responded that it currently receives complaints from individuals through other means, and that HUD intends to process complaints received through the Web site in the same manner as all other complaints.
