

Compressor Station located in Sweetwater County, Wyoming. WIC estimates the total cost for the Kanda Lateral and Mainline Expansion project to be \$143 million, all as more fully set forth in the application which is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this Application should be directed to Richard Derryberry, Director, Regulatory Affairs, Wyoming Interstate Company, Ltd., P.O. Box 1087, Colorado Springs, Colorado, 80944 at (719) 520-3788 or by fax at (719) 667-7534, or Craig V. Richardson, Vice President and General Counsel, Wyoming Interstate Company, Ltd.; P.O. Box 1087, Colorado Springs, Colorado, 80944 at (719) 520-4829 or by fax at (719) 520-4898.

On February 8, 2006, the Commission staff granted WIC's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF06-15-000 to staff activities involving the WIC's expansion project. Now, as of the filing of WIC's application on October 23, 2006, the NEPA Pre-Filing Process for this project has ended. From this time forward, WIC's proceeding will be conducted in Docket No. CP07-14-000, as noted in the caption of this Notice.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the

proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; *see*, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

*Comment Date:* November 24, 2006.

[Docket No. RP07-41-000]

#### Wyoming Interstate Company, Ltd.; Notice of Proposed Changes in FERC Gas Tariff

November 2, 2006.

Take notice that on October 31, 2006, Wyoming Interstate Company, Ltd. (WIC) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No 2, Sixteenth Revised Sheet No. 4C, the following tariff sheet proposed to be effective December 1, 2006.

WIC states that copies of its filing have been sent to all firm customers, interruptible customers, and affected state commissions.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible online at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call

(866) 208-3676 (toll free). For TTY, call (202) 502-8659.

### Federal Energy Regulatory Commission

[Docket No. EL07-14-000]

#### **Wisconsin Public Power Inc., Municipal Wholesale Power Group, and Great Lakes Utilities, Complainants v. Wisconsin Power & Light Co., Respondent; Notice of Complaint**

November 2, 2006.

Take notice that on November 1, 2006, Wisconsin Public Power Inc., Municipal Wholesale Power Group, and Great Lakes Utilities (collectively, Wisconsin Publics) filed a complaint against Wisconsin Power & Light Co., (WPL) pursuant to section 206 of the Federal Power Act (FPA). Wisconsin Publics states that in Docket Nos. ER06-1517 and ER06-1518 WPL has made filings under section 205 of the FPA to change its rates, terms, and conditions for service to Wisconsin Publics WPL's PR-1 Tariff and W-3A Tariff, respectively. Wisconsin Publics notes that it has recently submitted extensive protests regarding both of those filings, and has requested consolidation of Docket Nos. ER06-1517 and ER06-1518. Wisconsin Publics states that this complaint also seeks an investigation and refund effective date under section 206 of the FPA, and asks that this third proceeding be consolidated with both of the ER Dockets.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the

"eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible online at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). ## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP07-4-000]

#### **Mississippi Hub, L.L.C.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Mississippi Hub Gas Storage Project and Request for Comments on Environmental Issues**

November 3, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of a proposal by Mississippi Hub, L.L.C. (MS HUB) to construct, own, and operate a new salt cavern natural gas storage facility in Simpson and Jefferson Davis Counties, Mississippi.<sup>1</sup> The proposal would provide for the injection, storage, and withdrawal of natural gas in two underground caverns created in the Bond Salt Dome formation using a solution mining (leaching) process. Once complete, the project would provide approximately 12 billion cubic feet (Bcf) of working gas storage capacity, capable of injecting 600 million cubic feet per day (MMcfd) and delivering gas at maximum rates up to 1,200 MMcfd. Proposed project facilities

include gas compression and withdrawal facilities, a leaching plant, an electrical substation, raw water withdrawal and brine disposal facilities, approximately 11.4 miles of pipeline and utility corridor, metering facilities and ancillary equipment.

This notice announces the opening of the public comment period that will be used to gather environmental input from the public and interested agencies on the project. Comments are requested by December 4, 2006.

This notice is being sent to potentially affected landowners; Federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American Tribes, other interested parties; local libraries and newspapers. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern. If you are a landowner receiving this notice, you may be contacted by a MS HUB company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the natural gas company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice MS HUB provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

#### **Summary of the Proposed Project**

MS HUB seeks authority to construct and operate the following:

(1) *Natural Gas Handling Facility Site;* Simpson County (approximately 80 acres). The facility would include two storage caverns; a 29,205 horsepower compressor station; separation, dehydration, metering, and appurtenant facilities; leaching plant; one freshwater well; and a non-jurisdictional electrical substation. Solution mining of the caverns would occur over an approximate five-year time span.

(2) *Primary Raw Water Withdrawal and Brine Disposal Facility*

<sup>1</sup> MS HUB's application was filed with the Commission under section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.
