SUPPLEMENTARY INFORMATION:

Background Information on ICCVAM and NICEATM

ICCVAM is an interagency committee composed of representatives from 15 Federal regulatory and research agencies that use or generate toxicological information. ICCVAM conducts technical evaluations of new, revised, and alternative methods with regulatory applicability and promotes the scientific validation and regulatory acceptance of toxicological test methods that more accurately assess the safety and hazards of chemicals and products and that refine, reduce, or replace animal use. The ICCVAM Authorization Act of 2000 (42 U.S.C. 285l-3), available at (<http://>

iccvam.niehs.nih.gov/about/PL106545.htm) establishes ICCVAM as a permanent interagency committee of the NIEHS under NICEATM. NICEATM administers ICCVAM and provides scientific and operational support for ICCVAM-related activities. NICEATM and ICCVAM work collaboratively to evaluate new and improved test methods applicable to the needs of federal agencies. The ICCVAM Authorization Act of 2000 directs ICCVAM to prepare biennial reports on its progress and make these reports available to the public. Additional information about ICCVAM and NICEATM is available on the following Web site: <http://iccvam.niehs.nih.gov>.
