SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for encouraging fair international trade in food and protecting the health and economic interests of consumers. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled.

The Codex Committee on General Principles (CCGP) deals with rules and procedures referred to it by the Codex Alimentarius Commission including the establishment of principles which define the purpose and scope of the Codex Alimentarius and the nature of Codex standards. The development of mechanisms to address any economic impact statements is also the responsibility of the CCGP. The committee is hosted by the Government of the French Republic.

Additional Information

Public awareness of all segments of rulemaking and policy development is

important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2006_Notices_Index/index.asp.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to our constituents and stakeholders. The update is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The update is available on the FSIS Web page. Through Listserv and the web page, FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an e-mail subscription service which provides an automatic and customized notification when popular pages are updated, including **Federal Register** publications and related documents. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/ and allows FSIS customers to sign up for subscription options across eight categories. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the option to password protect their account.

Notice of Preliminary Negative Determination of Critical Circumstances: Metal Calendar Slides From Japan.

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUPPLEMENTARY INFORMATION:

Period of Investigation

The POI is April 1, 2004 through March 31, 2005. This period corresponds to the four most recent fiscal quarters prior to the month of filing of the *Petition for Imposition of Antidumping Duties on Metal Calendar Slides from Japan*, (June 29, 2005) (*Petition*) involving imports from a market economy, and is in accordance with the Department's regulations. See 19 CFR 351.204(b)(1).

Scope of Investigation

For the purpose of this investigation, the products covered are MCS. The products covered in this investigation are "V" and/or "U" shaped MCS manufactured from cold-rolled steel sheets, whether or not left in black form, tin plated or finished as tin free steel (TFS), typically with a thickness from 0.19 mm to 0.23 mm, typically in

lengths from 152 mm to 915 mm, typically in widths from 12 mm to 29 mm when the slide is lying flat and before the angle is pressed into the slide (although they are not typically shipped in this "flat" form), that are typically either primed to protect the outside of the slide against oxidization or coated with a colored enamel or lacquer for decorative purposes, whether or not stacked, and excluding paper and plastic slides. MCS are typically provided with either a plastic attached hanger or eyelet to hang and bind calendars, posters, maps or charts, or the hanger can be stamped from the metal body of the slide itself. These MCS are believed to be classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 7326.90.1000 (Other articles of iron and steel: Forged or stamped; but not further worked: Other: Of tinplate). This HTSUS number is provided for convenience and U.S. Customs and Border Protection purposes. The written description of the scope of this investigation is dispositive.

Case History

This investigation was initiated on July 19, 2005. See *Notice of Initiation of Antidumping Duty Investigation: Metal Calendar Slides from Japan*, 70 FR 43122 (July 26, 2005) (Initiation Notice). The preliminary determination was published on February 1, 2006. See *Notice of Preliminary Determination of Sales at Less Than Fair Value: Metal Calendar Slides from Japan*, 71 FR 5244 (February 1, 2006).

Although critical circumstances were not alleged in *Petition*, Stuebing Automatic Machine Co. (Petitioner) has maintained since the inception of this investigation that there is a reasonable basis to believe or suspect that critical circumstances exist with regard to imports of MCS from Japan. See *Petition* at 35. In *Petition*, Petitioner requested that the Department monitor imports of MCS pursuant to section 351.206(g) of the Department's regulations. *Id.* In the initiation, the Department stated that it would monitor imports of MCS from Japan and would request that the U.S. Customs and Border Protection (CBP) compile information on an expedited basis regarding entries of the subject merchandise. See *Initiation Notice*.

Respondent, Nishiyama Kinzoku Co., Ltd. (Nishiyama), in its response to the Department's December 7, 2005, supplemental questionnaire, submitted the volume and value of its monthly shipments to the United States for calendar years 2003 through 2005.
